Record of Executive Business and Chief Executive's Order

Reg. Reference: SD22B/0233 **Application Date:** 25-May-2022
Submission Type: New Application **Registration Date:** 25-May-2022

Correspondence Name and Address: Carol Forbes, 4bes Designs 38, Larkfield Avenue,
Lucan, Co. Dublin

Proposed Development: Conversion of existing attic space comprising of
modification of existing roof structure, raising of
existing gable c/w window and dutch hip, new access
stairs and flat roof dormer to the rear.

Location: 2, Moy Glas Dale, Lucan, Dublin

Applicant Name: Mark Rutherford

Application Type: Permission

(COS)

Description of Site and Surroundings

Site Area: stated as 0.023243 Hectares on the application form.
Site Visit: 15th of June 2022.

Site Description

The subject site is located on Moy Glas Dale within an existing housing estate in Lucan. The site consists of a two storey, semi-detached dwelling with a hipped roof. The streetscape consists of housing of a similar form and character. The existing house to the north of the subject site is a detached, pitched roof house of a similar form and character.

Proposal

Permission is being sought for the conversion of existing attic space comprising of modification of existing roof structure, raising of existing gable c/w window and dutch hip, new access stairs and flat roof dormer to the rear.

Zoning

The subject site is zoned 'RES': *'To protect and/or improve residential amenity'* under the South Dublin County Development Plan 2016-2022.

Consultations

Water Services – no report received at the time of writing this report.
Irish Water – no report received at the time of writing this report.
Roads Department – no objections.

Relevant Policy in South Dublin County Council Development Plan 2016 – 2022

Section 2.4.1 Residential Extensions

Policy H18 Residential Extensions

It is the policy of the Council to support the extension of existing dwellings subject to the protection of residential and visual amenities.

Policy H18 Objective 1:

To favourably consider proposals to extend existing dwellings subject to the protection of residential and visual amenities and compliance with the standards set out in Chapter 11 Implementation and the guidance set out in the South Dublin County Council House Extension Design Guide, 2010 (or any superseding guidelines).

Section 11.8.2 Appropriate Assessment

South Dublin County Council House Extension Design Guide (2010)

The House Extension design guide contains the following guidance on house extensions, including roof alterations and attic conversions and dormer windows.

Elements of Good Extension Design

- *Respect the appearance and character of the house and local area;*
- *Provide comfortable internal space and useful outside space;*
- *Do not overlook, overshadow or have an overbearing affect on properties next door;*
- *Consider the type of extension that is appropriate and how to integrate it; and*
- *Incorporate energy efficient measures where possible.*

Side extensions

- *Extending a hipped roof to the side to create a gabled end or half-hip will rarely be acceptable, particularly if the hipped roof is visually prominent and typical of other houses along the street.*

Attic conversions and dormer windows

- *Use materials to match the existing wall or roof materials of the main house.*
- *Meet Building Regulation requirements relating to fire safety and stairs in terms of headroom on stairs and means of escape.*
- *Locate dormer windows below the ridge of the roof, even if the roof has a shallow pitch.*
- *Locate dormer windows as far back as possible from the eaves line (at least three tile courses).*
- *Relate dormer windows to the windows and doors below in alignment, proportion and character.*
- *In the case of a dormer window extension to a hipped roof, ensure it sits below the ridgelines of the existing roof and matches the materials used in the main house.*
- *Do not obscure the main ridge and eaves features of the roof, particularly in the case of an extension to the side of a hipped roof.*
- *Avoid extending the full width of the roof or right up to the gable ends – two small dormers on the same elevation can often be a suitable alternative to one large dormer.*

Comhairle Chontae Atha Cliath Theas

PR/0909/22

Record of Executive Business and Chief Executive's Order

- *Avoid dormer windows that are overdominant in appearance or give the appearance of a flat roof.*
- *Avoid the use of flat-roofed dormer window extensions on houses with hipped rooflines.*

OPR Practice Note PN01 Appropriate Assessment Screening for Development Management (March 2021).

Assessment

The main issues for assessment relate to:

- Zoning and Council Policy;
- Visual and Residential Amenity;
- Access and Parking;
- Services and Drainage;
- Environmental Impact Assessment; and
- Appropriate Assessment.

Zoning and Council Policy

The proposed development is consistent in principle with zoning objective 'RES': *'To protect and/or improve residential amenity'*. New residential extensions to existing dwellings are permissible in principle under this zoning objective, subject to their being in accordance with the relevant provisions of the South Dublin County Council House Extension Design Guide 2010.

Visual and Residential Amenity

Conversion of existing attic space and flat roof dormer to the rear

The proposed development would provide for the construction of flat roof dormer extension to the rear of the existing house. The House Extension Design Guide 2010 recommends that

Comhairle Chontae Atha Cliath Theas

PR/0909/22

Record of Executive Business and Chief Executive's Order

dormers are set at least 100mm from the ridge of the roof and at least 3 tile courses from the eaves. The dormer would be sufficiently setback from the roof ridge and eaves. The dormer extension would also be sufficiently setback from the sides of the roof.

The proposed attic conversion would have a floor to ceiling height of approx. 1.85m. This is below the minimum floor to ceiling height required for a habitable room as per the Building Regulations, as amended. A note should be attached in the event of a grant of permission stating that in order to use this floor level for habitable space it must comply with the Building Regulations, as amended.

The dormer extension would be approx. 14.6m from the side (eastern) elevation of the two storey house at No. 20 Moy Glas Chase. There is no recent planning history for this adjoining site. Given its similarity to the subject house, the first floor windows on the side elevation of this neighbouring house appear to be to non-habitable rooms (bathroom and landing). This separation distance is therefore considered to be acceptable.

The proposed dormer extension would be sufficiently setback from the other site boundaries and neighbouring dwellings. It is therefore not considered that the dormer windows would create unacceptable levels of overlooking to neighbouring properties or gardens.

The proposed materials and finishes would match the existing house. This is considered to be in compliance with the House Extension Design Guide.

Raising of existing gable c/w window and dutch hip

The proposed development would involve extending the existing hipped roof to a dutch hip roof. Under the House Extension Design Guide *“Extending a hipped roof to the side to create a gabled end or half-hip will rarely be acceptable, particularly if the hipped roof is visually prominent and typical of other houses along the street”*. The surrounding streetscape and wider area consist largely of semi-detached houses with hipped roofs. However, the proposed ‘Dutch’ hip is considered to be visually acceptable in this instance in that it would soften the visual impact of fully extending the roof.

A new window is proposed at attic level on the side (northern) elevation of the house. This would not directly face any windows on the neighbouring house to the north at No. 1 Moy Glas Dale.

Summary

In summary, the proposed development is considered to generally comply with the guidance set out in the South Dublin County Council House Extension Design Guide, 2010 and has an acceptable impact in terms of residential and visual amenity.

Comhairle Chontae Atha Cliath Theas

PR/0909/22

Record of Executive Business and Chief Executive's Order

Access and Parking

No changes to access or parking are proposed. The Roads Department have reviewed the proposed development and have no objections.

Services and Drainage

No reports were received from Water Services and Irish Water. Standard conditions should apply in the event of a grant of permission.

Screening for Environmental Impact Assessment

Having regard to the modest nature of the proposed development, and the distance of the site from nearby sensitive receptors, there is no likelihood of significant effects on the environment arising from the proposed development. The need for environmental impact assessment can, therefore, be excluded at preliminary examination and a screening determination is not required.

Screening for Appropriate Assessment

The applicant has not provided information to assist the screening for Appropriate Assessment. The subject site is not located within nor within close proximity to a European site. The development involves an attic conversion and dormer extension.

Having regard to:

- the small scale and domestic nature of the development,
- the location of the development in a serviced area, and
- the consequent absence of a pathway to the European site,

it is considered that the proposed development would not be likely to have a significant effect individually, or in-combination with other plans and projects, on the Natura 2000 network and appropriate assessment is not therefore required.

Development Contributions

Attic conversion (non-habitable) 25.75sq.m

Assessable area = Nil

Conclusion

Having regard to the:

- provisions of the South Dublin County Development Plan 2016-2022 and South Dublin County Council House Extension Design Guide (2010),
- the established character of the area, and
- the nature and scale of the proposed development,

it is considered that, subject to compliance with the conditions set out below, the proposed development would be in compliance with Council policy, would not seriously injure the amenities of the area or of property in the vicinity and would, therefore, be in accordance with the proper planning and sustainable development of the area.

Recommendation

I recommend that a decision be made pursuant to the Planning & Development Act 2000, as amended, for the reasons set out in the First Schedule hereto, to Grant Permission for the said development in accordance with the said plans and particulars, subject to the condition(s) specified in the Second Schedule hereto, the reasons for the imposition of the said condition(s) being as set out in the said Second Schedule.

FIRST SCHEDULE

It is considered that the proposed development accords with the policies and objectives of South Dublin County Council, as set out in the South Dublin County Council Development Plan 2016 - 2022 and subject to the conditions set out hereunder in the Second Schedule is hereby in accordance with the proper planning and sustainable development of the area.

SECOND SCHEDULE

Conditions and Reasons

1. Development in accordance with submitted plans and details.
The development shall be carried out and completed in its entirety fully in accordance with the plans, particulars and specifications lodged with the application, save as may be required by the other conditions attached hereto.
REASON: To ensure that the development shall be in accordance with the permission and that effective control be maintained.
2. (a) External Finishes.
All external finishes shall harmonise in colour or texture that is complementary to the house or its context.
REASON: In the interest of visual amenity.
- (b) Restriction on Use.

Comhairle Chontae Atha Cliath Theas

PR/0909/22

Record of Executive Business and Chief Executive's Order

The house and the proposed extension shall be jointly used as a single dwelling unit for residential purposes and shall not be sub-divided or used for any commercial purposes, and the extension shall not be sold, let (including short-term letting), leased or otherwise transferred or conveyed, by way of sale, letting or otherwise save as part of the single dwelling unit.

REASON: To prevent unauthorised development.

(c) Drainage - Irish Water.

(i) The water supply and drainage infrastructure, shall comply with the requirements of Irish Water.

(ii) There shall be complete separation of the foul and surface water drainage systems, both in respect of installation and use. All new precast surface water manholes shall have a minimum thickness surround of 150mm Concrete Class B.

(iii) All drainage works for this development shall comply fully with the Greater Dublin Regional Code of Practice for Drainage Works.

REASON: In the interests of public health, the proper planning and sustainable development of the area and in order to ensure adequate water supply and drainage provision.

(d) Minimise Air Blown Dust.

During the construction and or demolition phase of the development, Best Practicable Means shall be employed to minimise air blown dust being emitted from the site. This shall include covering skips and slack-heaps, netting of scaffolding, daily washing down of pavements or other public areas, and any other precautions necessary to prevent dust nuisances. The applicant/developer shall comply with British Standard B.S. 5228 Noise Control on Construction and Open sites and British Standard B.S. 6187 Code of Practice for demolition.

REASON: In the interest of public health and to uphold the Council's policies set out in the South Dublin County Council Development Plan.

(e) Construction Noise and Hours.

To control, limit and prevent the generation of unacceptable levels of Environmental Noise Pollution from occurring during construction activity, Equipment or Machinery (to include pneumatic drills, on-site construction vehicles, generators, etc.) that could give rise to unacceptable levels of noise pollution as set out generally for evening and night-time in S.I. No. 140/2006 - Environmental Noise Regulations 2006 shall only be operated on the site between 7.00 hours and 19.00 hours weekdays and between 9.00 hours and 13.00 hours on Saturdays. No works shall take place at any time on Sundays, Bank Holidays or Public Holidays.

Any construction work outside these hours that could give rise to unacceptable levels of noise pollution shall only be permitted following a written request to the Planning Authority and the subsequent receipt of the written consent of the Planning Authority, having regard to the reasonable justification and circumstances and a commitment to minimise as far as practicable any unacceptable noise outside the hours stated above. In this respect, the applicant or developer shall also comply with BS 5228:2009 Noise and

Comhairle Chontae Atha Cliath Theas

PR/0909/22

Record of Executive Business and Chief Executive's Order

Vibration Control on Construction and Open Sites, and have regard to the World Health Organisation (WHO) – Guidelines for Community Noise (1999).

The applicant or developer shall also endeavour to engage in local consultation in respect of any noise sensitive location within 30 metres of the development as approved prior to construction activity commencing on site. Such noise sensitive locations should be provided with the following:

- Schedule of works to include approximate timeframes
- Name and contact details of contractor responsible for managing noise complaints
- Hours of operation- including any scheduled times for the use of equipment likely to be the source of significant noise.

REASON: In the interest of public health by the prevention of unacceptable levels of noise pollution which could interfere with normal sleep and rest patterns and/or when people could reasonably expect a level of quietness, the proper planning and sustainable development of the area and to uphold the Council's amenity policies set out in the South Dublin County Council Development Plan.

NOTE: The applicant is advised that under the provisions of Section 34 (13) of the Planning and Development Act 2000 (as amended) a person shall not be entitled solely by reason of a permission to carry out any development.

NOTE: The applicant or developer should ensure that all necessary measures shall be taken by the contractor to prevent the spillage or deposit of clay, rubble or other debris on adjoining roads during the course of the works and to ensure that any such instances arising are remedied immediately.

NOTE: The applicant is advised that, in order to use the attic conversion as a habitable room, it must comply with the Building Regulations.
