Record of Executive Business and Chief Executive's Order

Reg. Reference: SD22B/0255 **Application Date:** 02-Jun-2022
Submission Type: New Application **Registration Date:** 02-Jun-2022
Correspondence Name and Address: Cillian McDonagh 14, Dodderbrook Avenue,
Ballycullen, Dublin 24
Proposed Development: Construction of new dormer window to the front roof
elevation and conversion of the attic into new
bedroom and ensuite.
Location: 14, Dodderbrook Avenue, Ballycullen, Dublin 24
Applicant Name: Cillian McDonagh
Application Type: Permission

(NM)

Description of Site and Surroundings:

Site Area: as stated 0.021 Hectares.

Site Description:

The application site is located in a residential estate off the Oldcourt Road, Ballycullen. The existing dwelling is a two storey, semi-detached property with a pitched roof. The area is characterised by properties of relatively similar design and a uniform building line.

Proposal:

The proposed development consists of:

- Construction of new dormer window to the front roof elevation,
- Conversion of the attic into new bedroom and ensuite,
- Total area of works is 29sqm

Zoning:

The subject site is subject to zoning objective RES-N - 'To provide for new residential communities in accordance with approved area plans'.

Consultations:

Surface Water Drainage – No report received at the time of writing.

Irish Water – No report received at the time of writing.

Relevant Policy in South Dublin County Council Development Plan 2016 - 2022

Section 2.4.1 Residential Extensions

Policy H17 – Residential Consolidation:

It is the policy of the Council to support residential consolidation and sustainable intensification at appropriate locations, to support ongoing viability of social and physical infrastructure and services and meet the future housing needs of the County.

Comhairle Chontae Atha Cliath Theas

PR/0929/22

Record of Executive Business and Chief Executive's Order

H17 Objective 1: To support residential consolidation and sustainable intensification at appropriate locations and to encourage consultation with existing communities and other stakeholders.

Policy H18 Residential Extensions:

- It is the policy of the Council to support the extension of existing dwellings subject to the protection of residential and visual amenities.

Policy H18 Objective 2:

- To favourably consider proposals to extend existing dwellings subject to the protection of residential and visual amenities and compliance with the standards set out in Chapter 11 Implementation and the guidance set out in the South Dublin County Council House Extension Design Guide, 2010 (or any superseding guidelines).

The design of residential extensions should accord with the South Dublin County Council House Extension Guide (2010) or any superseding standards.

Attic conversions and dormer windows

- *Use materials to match the existing wall or roof materials of the main house.*
- *Meet Building Regulation requirements relating to fire safety and stairs in terms of headroom on stairs and means of escape.*
- *Locate dormer windows below the ridge of the roof, even if the roof has a shallow pitch.*
- *Locate dormer windows as far back as possible from the eaves line (at least three tile courses).*
- *Relate dormer windows to the windows and doors below in alignment, proportion and character.*
- *In the case of a dormer window extension to a hipped roof, ensure it sits below the ridgelines of the existing roof and matches the materials used in the main house.*

Assessment

The main issues for assessment relate to:

- Zoning and Council policy,
- Residential and visual amenity,
- Drainage,
- Screening for Appropriate Assessment,
- Environmental Impact Assessment.

Zoning and Council Policy

A development comprising of an attic conversion and dormer window would be consistent in principle with zoning objective RES-N – ‘To provide for new residential communities in accordance with approved area plans’. New residential extensions to existing dwellings are permissible in principle under this zoning objective, subject to their being in accordance with the relevant provisions of the South Dublin County Council House Extension Design Guide 2010.

Residential & Visual Amenity

Residential

It should be noted that the plans provided indicate a scale of 1:100 on A1 format but were presented on A3 and therefore a scale of 1:200 was adopted. The proposed development is a flat roofed dormer on the southeastern roof slope which will provide 29sqm of space comprising of a bedroom, ensuite and storage area in the attic of the existing dwelling. The internal height of the proposed development is approximately 2.7m. It will be centred on the roof approximately 1.8m from the attached property to the northeast. The dormer will not lead to an unacceptable level of overlooking or overshadowing. Overall, the proposed development should not seriously injure the residential amenity of the area.

Visual

The dormer is set back from the eaves by approximately 1.25m and down 650mm from the existing roofs ridgeline which is considered consistent with the House Extension Design Guide. As the dormer will be to the front of the property, it will be visible from the street but there are examples of similar front dormers in the vicinity of similar design and scale. The materials used will be a zinc-clad standing seam which will be visually acceptable.

Conclusion

The proposed development is considered acceptable subject to **conditions**.

Drainage

No report was received from drainage so standard **conditions** should apply.

Comhairle Chontae Atha Cliath Theas

PR/0929/22

Record of Executive Business and Chief Executive's Order

Screening for Appropriate Assessment

The subject site is not located within nor within close proximity to a European site. The proposed development is located within an established residential area and comprises of an attic conversion and dormer window.

Having regard to:

- the small scale and domestic nature of the development,
- the location of the development in a serviced urban area, and
- the consequent absence of a pathway to the European site,

it is considered that the proposed development would not be likely to have a significant effect individually, or in-combination with other plans and projects, on the Natura 2000 network and appropriate assessment is not therefore required.

Environmental Impact Assessment

Having regard to the modest nature of the development, and the distance of the site from nearby sensitive receptors, there is no real likelihood of significant effects on the environment arising from the proposed development. The need for environmental impact assessment can, therefore, be excluded at preliminary examination and a screening determination is not required.

Development Contributions

Development Contributions Assessment Overall Quantum

Habitable Attic Conversion and

Dormer Window: 29sqm

Previous Extensions: 0sqm

Assessable Area: 0sqm

SEA Monitoring Information

Building Use Type Proposed:

Floor Area: 29sqm

Land Type: Urban Consolidation.

Site Area: 0.021Hectares.

Conclusion

Having regard to the provisions of the South Dublin County Council Development Plan and the overall design and scale of the development proposed it is considered that, subject to the conditions set out below, the proposed development would not seriously injure the amenities of the area or of property in the vicinity and would, therefore, be in accordance with the proper planning and sustainable development of the area.

Comhairle Chontae Atha Cliath Theas

PR/0929/22

Record of Executive Business and Chief Executive's Order

Recommendation

I recommend that a decision be made pursuant to the Planning & Development Act 2000, as amended, for the reasons set out in the First Schedule hereto, to Grant Permission for the said development in accordance with the said plans and particulars, subject to the condition(s) specified in the Second Schedule hereto, the reasons for the imposition of the said condition(s) being as set out in the said Second Schedule.

FIRST SCHEDULE

It is considered that the proposed development accords with the policies and objectives of South Dublin County Council, as set out in the South Dublin County Council Development Plan 2016 - 2022 and subject to the conditions set out hereunder in the Second Schedule is hereby in accordance with the proper planning and sustainable development of the area.

SECOND SCHEDULE

Conditions and Reasons

1. Development in accordance with submitted plans and details.
The development shall be carried out and completed in its entirety fully in accordance with the plans, particulars and specifications lodged with the application, save as may be required by the other conditions attached hereto.
REASON: To ensure that the development shall be in accordance with the permission and that effective control be maintained.
2. (a) External Finishes.
All external finishes shall harmonise in colour or texture that is complementary to the house or its context.
REASON: In the interest of visual amenity.
(b) Restriction on Use.
The house and the proposed extension shall be jointly used as a single dwelling unit for residential purposes and shall not be sub-divided or used for any commercial purposes, and the extension shall not be sold, let (including short-term letting), leased or otherwise transferred or conveyed, by way of sale, letting or otherwise save as part of the single dwelling unit.
REASON: To prevent unauthorised development.
(c) Drainage - Irish Water.
(i) The water supply and drainage infrastructure, shall comply with the requirements of Irish Water.
(ii) There shall be complete separation of the foul and surface water drainage systems, both in respect of installation and use. All new precast surface water manholes shall have a minimum thickness surround of 150mm Concrete Class B.

Comhairle Chontae Atha Cliath Theas

PR/0929/22

Record of Executive Business and Chief Executive's Order

(iii) All drainage works for this development shall comply fully with the Greater Dublin Regional Code of Practice for Drainage Works.

REASON: In the interests of public health, the proper planning and sustainable development of the area and in order to ensure adequate water supply and drainage provision.

(d) Minimise Air Blown Dust.

During the construction and or demolition phase of the development, Best Practicable Means shall be employed to minimise air blown dust being emitted from the site. This shall include covering skips and slack-heaps, netting of scaffolding, daily washing down of pavements or other public areas, and any other precautions necessary to prevent dust nuisances. The applicant/developer shall comply with British Standard B.S. 5228 Noise Control on Construction and Open sites and British Standard B.S. 6187 Code of Practice for demolition.

REASON: In the interest of public health and to uphold the Council's policies set out in the South Dublin County Council Development Plan.

(e) Construction Noise and Hours.

To control, limit and prevent the generation of unacceptable levels of Environmental Noise Pollution from occurring during construction activity, Equipment or Machinery (to include pneumatic drills, on-site construction vehicles, generators, etc.) that could give rise to unacceptable levels of noise pollution as set out generally for evening and night-time in S.I. No. 140/2006 - Environmental Noise Regulations 2006 shall only be operated on the site between 7.00 hours and 19.00 hours weekdays and between 9.00 hours and 13.00 hours on Saturdays. No works shall take place at any time on Sundays, Bank Holidays or Public Holidays.

Any construction work outside these hours that could give rise to unacceptable levels of noise pollution shall only be permitted following a written request to the Planning Authority and the subsequent receipt of the written consent of the Planning Authority, having regard to the reasonable justification and circumstances and a commitment to minimise as far as practicable any unacceptable noise outside the hours stated above. In this respect, the applicant or developer shall also comply with BS 5228:2009 Noise and Vibration Control on Construction and Open Sites, and have regard to the World Health Organisation (WHO) – Guidelines for Community Noise (1999).

The applicant or developer shall also endeavour to engage in local consultation in respect of any noise sensitive location within 30 metres of the development as approved prior to construction activity commencing on site. Such noise sensitive locations should be provided with the following:

- Schedule of works to include approximate timeframes
- Name and contact details of contractor responsible for managing noise complaints
- Hours of operation- including any scheduled times for the use of equipment likely to be the source of significant noise.

REASON: In the interest of public health by the prevention of unacceptable levels of

Comhairle Chontae Atha Cliath Theas

PR/0929/22

Record of Executive Business and Chief Executive's Order

noise pollution which could interfere with normal sleep and rest patterns and/or when people could reasonably expect a level of quietness, the proper planning and sustainable development of the area and to uphold the Council's amenity policies set out in the South Dublin County Council Development Plan.

NOTE: The applicant is advised that under the provisions of Section 34 (13) of the Planning and Development Act 2000 (as amended) a person shall not be entitled solely by reason of a permission to carry out any development.

NOTE: The applicant or developer should ensure that all necessary measures shall be taken by the contractor to prevent the spillage or deposit of clay, rubble or other debris on adjoining roads during the course of the works and to ensure that any such instances arising are remedied immediately.

NOTE: Adequate provision should be made to facilitate access to and the use of the development, buildings, facilities and services by disabled persons, including sanitary conveniences. The minimum requirements should be as per Part M of the Building Regulations.

NOTE: The applicant/developer of these lands is advised that in the event of encroachment or oversailing of adjoining property, the consent of the adjoining property owner is required.

NOTE: Notwithstanding any grant of planning permission; if an applicant requires permission to access local authority land (e.g. public footpaths, public open space or roadways) in order to access utilities, or for any other reason; the applicant should apply via <https://maproadroadworkslicensing.ie/MRL/> for a licence from the Local Authority to carry out those works.

NOTE: The applicant is advised that, in order to use the attic conversion as a habitable room, it must comply with the Building Regulations.
