

Mystic Meg

ARIES March 21 - April 21

It's time to reconsider any ideas about working with people you love or are related to. Set out proper rules from the start, which no one, even yourself, gets to bend or break. If you're in love, then instead of accepting words at face value, look deeper. If you are single, someone with two jobs can be a great catch.

TAURUS April 22 - May 21

Your chart is a mix of forward-looking moon hopes plus a fizz of Mars daring. Everything you touch turns to exciting - but that doesn't mean easy! There will be challenges, especially where family is concerned, but these make you stronger. Love is also super-ambitious in its shared goals.

GEMINI May 22 - June 21

Your chart is moon-inspired from the inside out, so you have ability to think deeper and wait longer. This will make you unbeatable in a work race or any situation that calls for determination. In passion terms, you are in a league of your own - in terms of honesty and loyalty.

CANCER June 22 - July 23

The world-beating part of your chart reveals itself slowly, shedding light on who you really are and what you really need. Through it all, you stay serene and open to change. Passion starts with repeated glances across a music-filled space. If you are attached, Venus gives you clear commitment insight.

LEO July 24 - August 23

Mars lines up a creative push to get your work, or your face, in front of the right people. So complete an application or registration and start to recognise and promote your own abilities, even if people around you may resist this. A bargain-chasing moon points to personal rewards in a charity sale.

VIRGO August 24 - September 23

Dig deep into your reserves of goal-setting and personal grit, as maverick Uranus and mighty Mars make you stand out. At home, you can be the one who turns negative views positive again. At work, showcase your ability to think outside the box. In love, switch pride off and admit how much you have to learn.

LIBRA September 24 - October 23

A transformer moon sends waves of change through your chart. They'll leave you bolder and better, as long as you follow your own rules. Stop echoing other people's opinions or ideas, and you'll see your independence growing strong. In love, aim as high as you like, because personal barriers can be broken.

SCORPIO October 24 - November 22

A partnership moon, plus a strong Mars contribution, can find you questioning love habits. This signals soulmates, even if you've known each other for years. But someone has to make the first move! A creative duo can also grow fast - as two minds come up with the same music or style plan at the same time.

SAGITTARIUS November 23 - December 22

You have got a planet mix of thoughtful and impulsive in your career chart, so you are in a powerful position to make fast and good work choices. These can link to travelling, and setting free hidden parts of yourself. In love terms, you are the sexiest sign by a mile.

CAPRICORN December 23 - January 20

Romance may spark discussions, as two people seem to seek totally different outcomes. But when you look closer, you will identify similarities, and all the ways you can make this work. If you are fancy free, a younger joker with a serious style of job can click instantly. Luck replays a regular set of numbers.

AQUARIUS January 21 - February 19

If it is hard to see your place in a family, or in someone else's view of how a home should be, don't let this drag on. Talk about it, as the truth can be far more simple than you think. Your chart has a sense of lightness underpinned with solid hard work. This brings you closer to a personal career goal, minute by minute.

PISCES February 20 - March 20

Venus endows you with glorious networking and winning communication skills, plus a gift for helping others get their thoughts into words. The more you use this, the better it can get. If you're attached, try not to rate your love by other couples' measures. Single? "The one" has a sport-based nickname.

MVG IN BARNEY

MICHAEL VAN GERWEN has blasted pundits who claimed this year's World Matchplay line-up is the strongest ever.

Holland's double world champion, who faces Nathan Aspinall in tonight's Blackpool quarter-finals, rapped: "People are saying this is the best Matchplay field ever - they are absolutely sick."

"Phil Taylor and Raymond van Barneveld - two of the best players that have ever lived - are not in it. This is a new era."

"They ask me the question, 'Do you think you're going to be a 16-times world champion?' No, of course I'm not."

"Now you've got different times, different guys like Aspinall and Dimitri van den Bergh, you can't compare them."

Aspinall has been

involved in epic wins over Luke Humphries and James Wade and MVG is ready for his battling qualities.

He added: "He's a fighter, he's like a street dog. He hangs himself in the game and doesn't give up."

"I know what I have to do, it's going to be a cracking game."

"I'm feeling comfortable, a lot more in my last game. From now I can produce better games. If you're not winning people will fear you less and they'll do something extra."

"Against Joe Cullen I wasn't great but I did the right things at the right moments."

"There's more to come but sometimes it takes a bit of time."

In the second round last night, Van Gerwen's compatriot Danny Noppert saw off Derry's Daryl Gurney 11-4, while England's Rob Cross accounted for Portugal's Jose de Sousa 11-8.

IT'S NATHAN PERSONAL... MVG takes on Aspinall in World Matchplay quarter-finals
