

SOUTH DUBLIN COUNTY COUNCIL

INTERNAL MEMORANDUM

Public Realm Planning Report

Development: Two storey four-bedroom detached house to side of 29 Ballyroan Heights Rathfarnham

Location: 29 Ballyroan Heights, Rathfarnham, Dublin 16

Applicant: J McDonagh

Reg. Ref: SD22A/0295

Report Date: 15/08/2022

Planning Officer: NEAL MURPHY

Recommendation: **GRANT WITH CONDITIONS**

Statutory Local Policy

South Dublin County Development Plan, 2016 – 2022

Section 8.0 Green Infrastructure

Policy G1 Overarching

Policy G2 Green Infrastructure Network

Policy G3 Watercourses Network

Policy G4 Public Open Space and Landscape Setting

Policy G5 Sustainable Urban Drainage Systems

Policy G6 New Development in Urban Areas

Chapter 9: Heritage and Conservation

Section 9.0: Heritage, Conservation and Landscapes

Section 9.3.1 Natura 2000 Sites

Policy HCL12 Natura 2000 Sites

Policy HCL15 Objective 3 To protect existing trees, hedgerows, and woodlands

Section 11.3.1 Residential

(iii) Public Open Space/Children's Play

Section 11.6.1

(iii) Sustainable Urban Drainage System (SUDS)

Public Realm Comments:

It is not clear from the drawings submitted whether the applicant is proposing to extend the existing driveway entrance to accommodate the new proposed development and if it is proposed to extend this driveway entrance then what will be the impact of these works on the street tree in the adjoining grass margin.

The Public Realm Section has assessed the proposed development in accordance with the policies and objectives of the County Development Plan 2016-2022 and with best practice guidelines and recommends the following CONDITIONS be added to any proposed GRANT of permission:

1. Sustainable Drainage System (SuDS)

The applicant has not proposed any SuDS (Sustainable Drainage Systems) features for the proposed development. The applicant shall submit a drawing in plan and cross-sectional views clearly showing proposed Sustainable Drainage Systems (SuDS) features for the development. Sample SuDS devices include green roofs, water butts, tree pits, rain gardens, filter strips and permeable paving amongst others. The applicant is referred to the recently published SDCC SuDS Design Guide for further information and guidance.

REASON: To prevent the increased risk of flooding and to improve and protect water quality, in accordance with policies under Section 8.4.0 Sustainable Urban Drainage Systems of the CDP 2016-22 in particular G5 Objective 1 and G5 Objective 2.

2. Boundary

Boundary treatment shall be similar to match existing and neighbouring boundaries. Details shall be submitted and agreed with Planning Department Section prior to the commencement of development.

REASON: In the interests of visual amenity.

3. Protection of Street Trees in Grass Margins

The applicant is to ensure the protection of the existing street tree to be retained through the installation of suitable tree protection fencing in order to protect the existing tree during any construction works pertaining to retention of the tree. Commencement of development should not be permitted without adequate protective fencing being in place. This fencing, enclosing the tree protection area must be installed prior to any plant, vehicle or machinery access on site. Fencing must be clearly signed 'Tree Protection Area – No Construction Access'. No Excavation, plant vehicle movement, materials or soil storage is to be permitted within the fenced tree protection areas indicated on plan.

REASON: In order to ensure adequate protection for the street trees in the adjoining grass margin during the construction of development, and in the interests of the visual amenity of the area.

4. Tree Bond

A maximum of two weeks from the date of Commencement Notice within the meaning of Part II of the Building Control Regulations 1997 and prior to the commencement of any works on site, a Bond or bank draft to the value of **€1,500** shall be lodged with the Planning Authority as a security for the protection of the existing street tree in the grassed margin along the northern boundary of the site during the course of the development works.

The release of the bond will be considered a minimum 12 months after the completion of all site works, at the discretion of the Landscape/Public Realm Section. This will involve assessment of whether the tree specified for retention have been preserved in their prior condition and have suffered no damage and the developer has complied with the requirements of the Planning Authority in relation to tree protection.

REASON: In the interest of the proper planning and sustainable development of the area, street-tree protection, and the maintenance of the county's green infrastructure
