Table of Contents

Issue Record	2
1. ELECTRICAL SUPPLY.....	4
2. TELECOMS.....	5
3. GAS NETWORKS IRELAND	6

1. ELECTRICAL SUPPLY

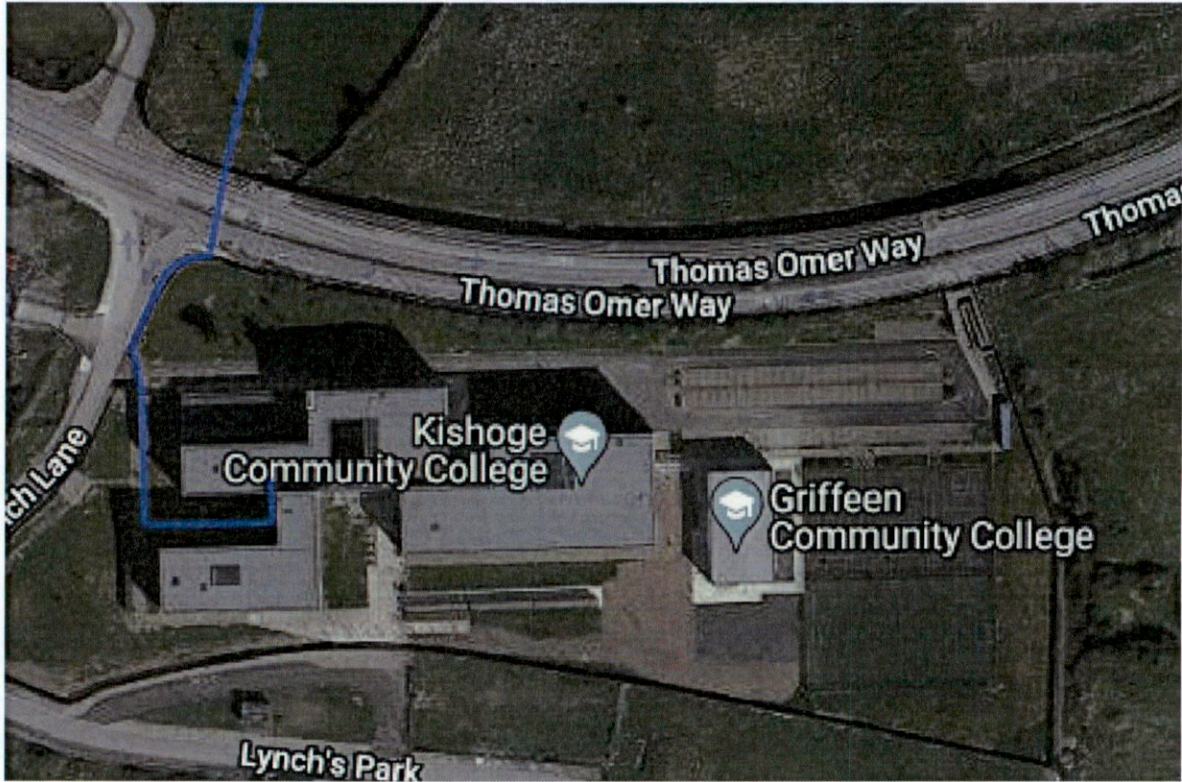

There is a 10kV/400V ESB substation on the site of Kishoge Community College to the west of the proposed site which supplies other sites in the area. It is envisaged that a supply can be run from this substation east along Thomas Omer Way to the proposed school

2. TELECOMS

There is an Openeir duct to Kishoge Community College which can be tapped off on Thomas Omer Way to bring telecom services to the proposed school.

3. GAS NETWORKS IRELAND

Gas services will not be required but the GNI records show that there are no gas pipelines on the proposed site, the closest one being to Kishoge Community School
