

Dear Sir/Madam,

We are writing to make an objection to the development at Hillhouse Lucan (Reference SD22A/0324) as we believe that:

1. The proposed entrance on Lucan Road will pose substantial risks to pedestrians, in particular, significant number of young children going to the large schools which are very close to this development. This junction is the main thoroughfare for school children with any alternatives adding a further commute. As a family with two young children who use this pathway to walk to school and other activities every day, we are extremely concerned with the proposed development for this reason.
2. The proposed entrance is very close to one of the busiest road traffic junctions in Lucan and the measures proposed will not mitigate the substantial risks to pedestrians nor motorists.
3. There will be a significant increase in traffic in Lucan Heights/Cloisters area related to the inevitable increased on-street parking (as a totally inadequate number of parking places are accounted for at the development given the expected occupancy) that will result from this development.
4. This additional on-street parking will also pose a danger to the children of the families in Lucan Heights/Cloisters who currently play outdoors in the quiet cul-de-sac beside the proposed development.
5. Finally, a more general observation is that the 2-4 story development is completely out of character with the streetscape and nature of the area.
