Record of Executive Business and Chief Executive's Order

Reg. Reference: SD22B/0345 **Application Date:** 28-Jul-2022
Submission Type: New Application **Registration Date:** 28-Jul-2022
Correspondence Name and Address: GJL Services 12, Ard Mor Crescent, Tallaght, Dublin 24
Proposed Development: Dormer roof extension to the rear roof slope at attic level and 2 Velux roof lights to front slope and all associated site works.
Location: 19, Willington Grove, Dublin 6w
Applicant Name: Ronan Lyons
Application Type: Permission

(AOCM)

Description of Site and Surroundings:

Site Area: stated as 0.0239 hectares.

Site Description:

The application site contains a two storey, semi-detached house, located on Willington Grove. The surrounding area is residential in nature.

Site Visited: 06/09/2022

Proposal:

Permission is sought for the following:

- Flat roof rear dormer extension
- Two rooflights on front roof slope

Zoning:

The site is subject to zoning objective 'RES' - *'To protect and/or improve residential amenity'*.

Consultations:

Water Services – No report received at time of writing (14.09.22)

Irish Water – No report received at time of writing (14.09.22)

SEA Sensitivity Screening

SEA monitoring indicates no overlap with relevant sensitive environmental layers

Relevant Policy in South Dublin County Council Development Plan 2022-2028

Chapter 4 Green Infrastructure

Section 4.1 Methodology

G11 Objective 4: To require development to incorporate GI as an integral part of the design and layout concept for all development in the County including but not restricted to residential, commercial and mixed use through the explicit identification of GI as part of a landscape plan, identifying environmental assets and including proposals which protect, manage and enhance GI resources providing links to local and countywide GI networks.

Section 4.2.1 Biodiversity

GI2 Objective 4: To integrate GI, and include areas to be managed for biodiversity, as an essential component of all new developments in accordance with the requirements set out in Chapter 12: Implementation and Monitoring and the policies and objectives of this chapter.

Section 4.2.2 Sustainable Water Management

GI4 Objective 1: To limit surface water run-off from new developments through the use of Sustainable Drainage Systems (SuDS) using surface water and nature-based solutions and ensure that SuDS is integrated into all new development in the County and designed in accordance with South Dublin County Council's Sustainable Drainage Explanatory Design and Evaluation Guide, 2022.

Record of Executive Business and Chief Executive's Order

Section 6.8.2 Residential Extensions

Policy H14: Support the extension of existing dwellings subject to the protection of residential and visual amenities.

H14 Objective 1: To favourably consider proposals to extend existing dwellings subject to the protection of residential and visual amenities and compliance with the standards set out in Chapter 13 Implementation and Monitoring and the guidance set out in the South Dublin County Council House Extension Design Guide, 2010 (or any superseding guidelines).

Section 11.2.1 Sustainable Urban Drainage Systems (SuDS)

Policy IE3: Surface Water and Groundwater

Manage surface water and protect and enhance ground and surface water quality to meet the requirements of the EU Water Framework Directive.

Chapter 12 Implementation and Monitoring

Section 12.6.8 Residential Consolidation

Extensions

The design of residential extensions should have regard to the permitted pattern of development in the immediate area alongside the South Dublin County Council House Extension Guide (2010) or any superseding standards.

PR/1190/22

Record of Executive Business and Chief Executive's Order

Assessment

The main issues for assessment concern the following:

- Zoning and Council Policy
- Residential and Visual Amenity
- Green Infrastructure
- Water Supply and Wastewater
- Appropriate Assessment
- Environmental Impact Assessment

Zoning and Policy

South Dublin County Development Plan 2022 - 2028

The site is subject to zoning objective 'RES' – *'To protect and/or improve residential amenity'*. Residential development (extension) is permitted in principle under this zoning objective, subject to assessment against the relevant policies, objectives and standards set out under the current Plan.

Residential and Visual Amenity

A flat roof dormer would be located on the rear roof slope, with two windows on the rear elevation. Two rooflights would be placed on the front roof slope. There is no objection to the placement of the two rooflights on the front roof slope.

The attic conversion and dormer would provide two rooms and storage space at attic level. The dormer would be clad in pressed aluminium or similar, providing contrast with the existing dwelling. A separation distance in excess of 22m would be maintained between the existing dwelling and neighbouring properties to the rear, ensuring no concerns regarding overlooking or loss of privacy. In addition, given the location of the dormer in the roof slope, there would be no concerns regarding loss of light or overshadowing of neighbouring dwellings. On this basis the works are considered acceptable.

It is noted that a floor to ceiling height of approximately 2.01m would be achieved. This is below the 2.4m clearance required for a space to be considered habitable. The applicant should note that to use an area for habitable purposes all building regulations must comply.

Green Infrastructure

The relate exclusively to the conversion and extension of the existing attic space. In this regard there will be no ground level impacts and subsequently no interference with exiting green infrastructure assets.

Comhairle Chontae Atha Cliath Theas

PR/1190/22

Record of Executive Business and Chief Executive's Order

Water Supply and Wastewater

The development relates to an attic conversion and dormer extension. It is not considered that these works would have any impact on existing water services in the area.

Screening for Appropriate Assessment

The subject site is not located within nor within close proximity to a European site. The proposed development is on Willington Grove, an established residential area. The development comprises construction of an attic dormer and associated works.

Having regard to:

- the small residential scale of the development,
- the location of the development in an established urban area, and
- the consequent absence of a pathway to the European site,

it is considered that the proposed development would not be likely to have a significant effect individually, or in-combination with other plans and projects, on the Natura 2000 network and appropriate assessment is not therefore required.

Environmental Impact Assessment

Having regard to the modest nature of the proposed development, and the distance of the site from nearby sensitive receptors, there is no real likelihood of significant effects on the environment arising from the proposed development. The need for environmental impact assessment can, therefore, be excluded at preliminary examination and a screening determination is not required.

Other Considerations

Development Contributions

Dormer extension: 6.2 sq.m (non-habitable)

Assessable Area: Nil

SEA Monitoring Information

Building Use Type Proposed: Residential extension

Floor Area: 6.2 sq.m

Land Type: Urban Consolidation

Site Area: 0.0239 Hectares.

Conclusion

Having regard to the provisions of the South Dublin County Council Development Plan 2022-2028 and the overall design and scale of the development proposed it is considered that, subject to conditions set out below, the proposed development would not seriously injure the amenities of the area or of property in the vicinity and would, therefore, be in accordance with the proper

Comhairle Chontae Atha Cliath Theas

PR/1190/22

Record of Executive Business and Chief Executive's Order

planning and sustainable development of the area. It is considered that the proposal would be consistent with Council policy in relation to extensions to dwelling houses.

Recommendation

I recommend that a decision be made pursuant to the Planning & Development Act 2000, as amended, for the reasons set out in the First Schedule hereto, to Grant Permission for the said development in accordance with the said plans and particulars, subject to the condition(s) specified in the Second Schedule hereto, the reasons for the imposition of the said condition(s) being as set out in the said Second Schedule.

FIRST SCHEDULE

It is considered that the proposed development accords with the policies and objectives of South Dublin County Council, as set out in the South Dublin County Council Development Plan 2022 - 2028 and subject to the conditions set out hereunder in the Second Schedule is hereby in accordance with the proper planning and sustainable development of the area.

SECOND SCHEDULE

Conditions and Reasons

1. Development in accordance with submitted plans and details.
The development shall be carried out and completed in its entirety fully in accordance with the plans, particulars and specifications lodged with the application, save as may be required by the other conditions attached hereto.
REASON: To ensure that the development shall be in accordance with the permission and that effective control be maintained.
2. (a) External Finishes.
All external finishes shall harmonise in colour or texture that is complementary to the house or its context.
REASON: In the interest of visual amenity.
(b) Restriction on Use.
The house and the proposed extension shall be jointly used as a single dwelling unit for residential purposes and shall not be sub-divided or used for any commercial purposes, and the extension shall not be sold, let (including short-term letting), leased or otherwise transferred or conveyed, by way of sale, letting or otherwise save as part of the single dwelling unit.
REASON: To prevent unauthorised development.
(c) Drainage - Irish Water.
 - (i) The water supply and drainage infrastructure, shall comply with the requirements of Irish Water.
 - (ii) There shall be complete separation of the foul and surface water drainage systems,

Comhairle Chontae Atha Cliath Theas

PR/1190/22

Record of Executive Business and Chief Executive's Order

both in respect of installation and use. All new precast surface water manholes shall have a minimum thickness surround of 150mm Concrete Class B.

(iii) All drainage works for this development shall comply fully with the Greater Dublin Regional Code of Practice for Drainage Works.

REASON: In the interests of public health, the proper planning and sustainable development of the area and in order to ensure adequate water supply and drainage provision.

(d) Minimise Air Blown Dust.

During the construction and or demolition phase of the development, Best Practicable Means shall be employed to minimise air blown dust being emitted from the site. This shall include covering skips and slack-heaps, netting of scaffolding, daily washing down of pavements or other public areas, and any other precautions necessary to prevent dust nuisances. The applicant/developer shall comply with British Standard B.S. 5228 Noise Control on Construction and Open sites and British Standard B.S. 6187 Code of Practice for demolition.

REASON: In the interest of public health and to uphold the Council's policies set out in the South Dublin County Council Development Plan.

(e) Construction Noise and Hours.

To control, limit and prevent the generation of unacceptable levels of Environmental Noise Pollution from occurring during construction activity, Equipment or Machinery (to include pneumatic drills, on-site construction vehicles, generators, etc.) that could give rise to unacceptable levels of noise pollution as set out generally for evening and night-time in S.I. No. 140/2006 - Environmental Noise Regulations 2006 shall only be operated on the site between 7.00 hours and 19.00 hours weekdays and between 9.00 hours and 13.00 hours on Saturdays. No works shall take place at any time on Sundays, Bank Holidays or Public Holidays.

Any construction work outside these hours that could give rise to unacceptable levels of noise pollution shall only be permitted following a written request to the Planning Authority and the subsequent receipt of the written consent of the Planning Authority, having regard to the reasonable justification and circumstances and a commitment to minimise as far as practicable any unacceptable noise outside the hours stated above. In this respect, the applicant or developer shall also comply with BS 5228:2009 Noise and Vibration Control on Construction and Open Sites, and have regard to the World Health Organisation (WHO) – Guidelines for Community Noise (1999).

The applicant or developer shall also endeavour to engage in local consultation in respect of any noise sensitive location within 30 metres of the development as approved prior to construction activity commencing on site. Such noise sensitive locations should be provided with the following:

- Schedule of works to include approximate timeframes
- Name and contact details of contractor responsible for managing noise complaints
- Hours of operation- including any scheduled times for the use of equipment likely to be

Comhairle Chontae Atha Cliath Theas

PR/1190/22

Record of Executive Business and Chief Executive's Order

the source of significant noise.

REASON: In the interest of public health by the prevention of unacceptable levels of noise pollution which could interfere with normal sleep and rest patterns and/or when people could reasonably expect a level of quietness, the proper planning and sustainable development of the area and to uphold the Council's amenity policies set out in the South Dublin County Council Development Plan.

NOTE: The applicant is advised that under the provisions of Section 34 (13) of the Planning and Development Act 2000 (as amended) a person shall not be entitled solely by reason of a permission to carry out any development.

NOTE: The applicant is advised that in the event of encroachment or oversailing of adjoining property, the consent of the adjoining property owner is required.

NOTE: The applicant is advised that, in order to use the attic conversion as a habitable room, it must comply with the Building Regulations.

NOTE: The applicant or developer should ensure that all necessary measures shall be taken by the contractor to prevent the spillage or deposit of clay, rubble or other debris on adjoining roads during the course of the works and to ensure that any such instances arising are remedied immediately.
