

Tree Survey Schedule
1 The Crescent, Lucan, Co. Dublin
June 2022

Type	No.	Species	Age	Ht m	Dbh mm	St	Cr	N	S	E	W	ERC	Phys Cond	Structural Condition/Comments	Preliminary Recommendations	RPA m	Cat
T	452	Quercus ilex (Holm Oak)	EM	9.5	350	1	2.5	4	3	3.5	2.5	10+	Good	Fair. Tree in neighboring garden with good vitality. Multiple stems above former pollard point at 2m. Numerous pruning wounds to lower stem from recent branch removal works. Questionable species choice for narrow garden as tree will have to be cut back regularly to control its height and spread.	Prune periodically to maintain as smaller tree.	4.2	C2
T	457	X Cupressocyparis leylandii Castlewellan	EM	10	300	1	0	2.5	2	2	2.5	10+	Fair	Fair. Conifer planted on or near to boundary. Mostly upright form, partially suppressed by neighbouring Sycamore trees. Limited value and potential in small garden.	No urgent works needed.	3.6	C2
T	458	Acer pseudoplatanus (Sycamore)	EM	9	361	4	0.5	3	2	3.5	5	10+	Good	Fair. Good vitality. Smaller sized tree in neighbouring garden. Self-sown young tree on edge of bank. Asymmetric form due to group competition. Two stems tightly fused together on lower 1.5m.	Cut Ivy and undergrowth around stem base. Inspect stem/basal area.	4.33	C2
T	459	Acer pseudoplatanus (Sycamore)	M	11.5	587	4	2	6	7	7	7	10+	Fair	Fair. Fair vitality. Medium sized tree on edge of steep bank, with restricted access to stem base. Thick Ivy growth on tree restricts view of main branch unions. Twin stem from ground level. Excessive Ivy growth in crown.	Cut Ivy and undergrowth around stem base. Inspect stem/basal area.	7.04	C2
T	460	Acer pseudoplatanus (Sycamore)	SM	9	367	4	0.5	1	4	6	5	10+	Fair	Fair/Poor. Self-sown young tree growing out of steep bank and leaning North out onto block wall. Thick Ivy growth restricts view of main stem and branch unions. Multiple stems below 1.5m. Asymmetric form due to group competition.	Consider coppicing.	4.4	C2
T	461	Acer pseudoplatanus (Sycamore)	SM	9	250	2	1.5	4	5	2	2	10+	Fair	Fair. Leaning West. Thick Ivy growth restricts view of main branch unions. Asymmetric form due to group competition. One stem is leaning onto the overhead telecom wires.	Coppice stem leaning on telecom wires, consider coppicing all stems.	3	C2
T	462	Acer pseudoplatanus (Sycamore)	SM	8	220	1	3.5	2	3.5	3.5	1.5	10+	Fair	Fair. Self-sown young tree growing very close to boundary wall. Leaning South-East. Poor growing position for a tree. Limited potential to mature.	No urgent works needed. Consider removal as part of good management.	2.64	C2
T	463	Betula pendula (Silver Birch)	SM	8	120	1	2	2.5	1.5	0.5	1	10+	Fair	Fair. Small tree planted into garden border. Slender form. Slight northerly lean to stem.	No urgent works needed.	1.44	C2
T	464	Cordyline australis	EM	3.5	141	2	2	1	1	1	1	10+	Fair	Fair. Smaller sized ornamental palm tree. Twin stem from ground level.	No urgent works needed.	1.69	C2
T	465	Betula pendula (Silver Birch)	SM	7	150	1	2	2	1.5	2	2	10+	Fair	Fair. Smaller sized garden tree planted into border.	No urgent works needed.	1.8	C2
T	466	Betula pendula (Silver Birch)	SM	6	100	1	1	1.5	2	1.5	1	10+	Fair	Fair. Smaller sized garden tree planted into border. Asymmetric form due to group competition.	No urgent works needed.	1.2	C2
T	467	Sorbus aria (Whitebeam)	EM	6.5	230	1	2	2	2.5	2	2.5	10+	Fair	Fair. Small garden tree located just outside the site boundary. Recently crown lifted. Tight union as main stem forks at 2.5m.	No urgent works needed.	2.76	C2
