Record of Executive Business and Chief Executive's Order

Reg. Reference: SD22B/0036 **Application Date:** 31-Jan-2022
Submission Type: Additional **Registration Date:** 28-Sep-2022
Information

Correspondence Name and Address: Stephen Maher 31, New Bawn Drive, Tallaght, Dublin 24

Proposed Development: Retention of single storey extension & planning permission for proposed subsequent alterations all to rear with associated site paving & landscaping.

Location: 31, New Bawn Drive, Tallaght, Dublin 24

Applicant Name: Stephen Maher

Application Type: Permission and Retention

(NM)

Description of Site and Surroundings

Site Area: 0.0325 Hectares.

Site Description:

The site is located at the end of a cul de sac adjoining the public open space of Dodder Valley Park to the south on New Bawn Drive within the established Newbawn residential estate. The site contains a semi-detached, two storey dwelling and existing single storey rear extensions. The streetscape is characterised by semi-detached houses.

Site Visit: 09/03/2022

Proposal:

- Retention of single storey extension & planning permission for proposed subsequent alterations all to rear with associated site paving & landscaping.
- Total area to be retained/permission 22.3sq.m

Zoning:

The subject site is subject to zoning objective 'RES' - 'To protect and / or improve residential amenity'.

Consultations:

Surface Water Drainage – no objection subject to conditions.

Irish Water – no objection subject to standard conditions.

Comhairle Chontae Atha Cliath Theas

PR/1350/22

Record of Executive Business and Chief Executive's Order

Submissions/Observations /Representations

One submission received

Concerns raised relate to the following:

The development overshadows and affects the quality of life and enjoyment of the neighbouring properties. The plans provided are incorrect also and the extension is closer to the boundary walls than stated.

The submission lodged with the application has been considered in the overall assessment of the retention application.

Relevant Planning History

Subject

SD18B/0373: REFUSE PERMISSION for Single storey extension to the rear and change of roof profile to existing kitchen along with carport to side of house. Permission was refused for the following reasons:

- 1. Due to the excessive depth and the location of the proposed extension along the boundary with the attached dwelling at 29 Newbawn Drive and considering the 'RES' Zoning Objective 'to protect and/or improve residential amenity', the proposal would have an overbearing impact on the residential amenity of 29 Newbawn Drive and would contravene the zoning objective and would seriously injure the amenities of property in the vicinity. Furthermore the proposal would be contrary to South Dublin County Councils House Extension Design Guide (2010) and be contrary to the proper planning and sustainable development of the area.*
- 2. Due to insufficient information regarding both foul and surface water drainage requirements this proposal does not accord with South Dublin County Council and Irish Water drainage standards and would be prejudicial to public health and would be contrary to the proper planning and sustainable development of the area.*
- 3. The South Dublin County Council Development Plan 2016-2022, Table 11.20: Minimum Space Standards for Houses requires a private amenity space minimum of 70sq.m for a four bedroom house. The proposed development, coupled with existing buildings in the rear garden would result in a significant shortfall in this requirement and would result in a substandard amount of private amenity space for the existing and future occupants of the dwelling.*

SD05A/0907: Demolition of garage to side and new two storey detached dwelling with off-street parking and new boundary walls and associated works all to side.

Decision: **Refused Permission by SDCC and subsequently Refused Permission by ABP.**

ABP Reasons for Refusal below:

Comhairle Chontae Atha Cliath Theas

PR/1350/22

Record of Executive Business and Chief Executive's Order

The proposed development of a detached dwelling on a site of restricted width, by reason of its substandard separation distance from the adjoining property and being on the southern site boundary abutting public open space, would constitute overdevelopment of the site and seriously injure the amenities of the area, would set an undesirable precedent for similar developments which would conflict with the pattern of development in the area and would, therefore, be contrary to the proper planning and sustainable development of the area.

SD09B/0326: Retention planning permission for existing dormer window to rear elevation.
Decision: **Grant Permission for Retention.**

SD09A/0040: Two storey extension to side of the existing house comprising newsagent/convenience store at ground level. Dimensions approximately 4m x 8m associated site car parking and drainage.
Decision: **Withdraw the Application.**

SD08B/0729: Double storey extension to side of existing two-storey house. Height to ridge 8.3m. New canopy to front. Associated site drainage.
Decision: **Grant Permission.**

Adjacent

SD02B/0139 - 32 New Bawn Park, Old Bawn, Tallaght, Dublin 24. -
Single storey extension to side with tiled roof over.
Decision: **Grant Permission**

Relevant Enforcement History

S8183: Single storey extension to the rear and change of roof profile to existing kitchen along with carport to side of house.
Open: **Hold in abeyance pending retention application**

S6129: Alterations to roof without the benefit of Planning Permission
Closed: **Granted Retention.**

S5963: erection of a large, shed type structure beside dwelling without PP.
Closed: **Exempted Development.**

Pre-Planning Consultation

PP109/21 – The applicant proposed reducing the ridge height of the property with no other significant amendments. The applicant was advised to address and overcome all the previous reasons for refusal as per SD18/0373.

Relevant Policy in South Dublin County Council Development Plan 2016-2022

Section 2.4.1 Residential Extensions

Policy H18 Residential Extensions

It is the policy of the Council to support the extension of existing dwellings subject to the protection of residential and visual amenities.

Policy H18 Objective 2:

To favourably consider proposals to extend existing dwellings subject to the protection of residential and visual amenities and compliance with the standards set out in Chapter 11 Implementation and the guidance set out in the South Dublin County Council House Extension Design Guide, 2010 (or any superseding guidelines).

Section 11.3.1 Residential

Section 11.3.1 (iv) Dwelling Standards

Section 11.3.1 (v) Privacy

Section 11.3.3(i) Additional Accommodation - Extensions.

The design of residential extensions should accord with the South Dublin County Council House Extension Guide (2010) or any superseding standards.

The House Extension Design Guide, *Section 4:*

- *Outside space*
- *Do not overlook, overshadow, or have an overbearing impact on neighbouring properties*
- *Rear extension*

Quality Housing for Sustainable Communities: Best Practice Guidelines, Department of the Environment, Heritage and Local Government, (2007).

Assessment

The main issues for assessment are

- Zoning and Council policy,
- Residential and Visual amenity,
- Services and Drainage
- Appropriate Assessment.
- Environmental Impact Assessment

Zoning and Council Policy

The site is located in an area which is zoned 'RES' 'to protect and/or improve residential amenity.' A development of a rear extension is considered permitted in principle subject to its accordance with the relevant provisions in the Development Plan with specific reference to Section 2.4.1 which relates to Residential Extensions.

Residential and Visual Amenity

The development for retention and planning permission indicates an area of 22.3sqm with a ridge height of 3.6m which follows the same line as the previous rear extension to the west. The original previous extension has a length of 4.7m and the new extension has a length of 4.79m with only 1.44m to the rear boundary wall as per the provided plans.

It should be noted that the Enforcement Report S8183 has indicated that the distance to the boundary wall is significantly less than that at 660mm and the area is 5.461m x 5.8m, totalling 31.9sq.m following a site inspection whereas the plans state an existing area of 23.75sqm. The current distance to the common boundary to the property of the attached dwelling to the north is 400mm tapering to 300mm.

Overall, the extended portions of this dwelling are longer than the original property at its longest point of 7.7m whereas the extended areas have a total length of 9.8m.

Under the revised proposal, the applicant has amended the plans in order to lessen the impact of the development by reducing the width of the new extension from 4.95m to 4.55m resulting in a distance of 1.146m to the party boundary with the property to the north. This would need to be confirmed and new plans provided. The plans note that the area to the north boundary is intended to be used as bike store but there is no development highlighted for the store and appears as open space.

Comhairle Chontae Atha Cliath Theas

PR/1350/22

Record of Executive Business and Chief Executive's Order

Previous Reasons For Refusal

The following items were highlighted as reasons for refusal previously on SD18B/0373.

1. *Excessive depth and the location of the proposed extension along the boundary with the attached dwelling at 29 Newbawn*

Consideration

The revised plans for the above shows the building line stepped back from the attached property to the north to allow a separation of 1.146m from the boundary wall for the new extension, the previous extension will still have a gap of approximately 400mm. The additional gap should reduce the overbearing nature of the existing development to a degree but does not address the issue of excessive depth which remains unchanged in the proposal. The ridge height is also unchanged.

2. *Insufficient information regarding both foul and surface water drainage requirements*

Consideration

A report from Irish Water states no objections subject to the standard conditions. The report from Water Services highlights the requirement for SuDS interventions including permeable paving surfaces in the proposed driveway area but the driveway was predominantly tarmacked on inspection with a small area in grass to the north. This will be required to be addressed.

3. *Minimum Space Standards for Houses requires a private amenity space minimum of 70sq.m for a four bedroom house. The proposed development, coupled with existing buildings in the rear garden would result in a significant shortfall in this requirement and would result in a substandard amount of private amenity space for the existing and future occupants of the dwelling.*

Consideration

There will be approximately 6sqm of additional open space to the north of the rear garden between the boundary wall of the attached property, this is intended to be used as a bike store. The overall area to the rear will now be approximately 74sq.m and in line with the requirements of the South Dublin County Council Development Plan 2016-2022, Table 11.20: Minimum Space Standards for Houses but the distance to the rear boundary to the west would make it difficult to access the proposed bike shed. There is a further approximately 22.68sq.m of space to the side at the south elevation. This reason for refusal has been addressed sufficiently.

Summary

This development represents overdevelopment of the site and has an overbearing impact causing a substantial negative effect on the residential and visual amenity of the properties in the area with a significant impact on the attached dwelling to the north. However, the proposed reduction

Comhairle Chontae Atha Cliath Theas

PR/1350/22

Record of Executive Business and Chief Executive's Order

in the width of extension to the northern elevation should have a positive impact on the overbearing nature of the development.

The applicant has shown the proposed relationship between the extension and the adjoining property in cross-section format; however, considering the impact to the rear, and the overall depth of the extension which was a factor in the original reason for refusal, it is considered that an accurate cross-section drawing is required showing the relationship between the development and the property to the rear, and that this should show accurately:

- Separation distance from the rear boundary;
- Ridge height above ground;
- Height of rear boundary wall prior to any unauthorised works;
- Any garden structures in the rear of No. 32 New Bawn Park;
- The distance between the party boundary and the main dwelling at 32 New Bawn Park;
- Ground levels across the two sites.

Further information is required with revised drawings showing the area differences between the as built drawings and the measurements taken on inspection by the enforcement officer including the distance to the western boundary wall.

Services and Drainage

Surface Water Drainage

Surface Water Report:

No Objection Subject to:

1.1 The applicant shall include water butts and permeable paving surfaces in the proposed driveway area as part of additional SuDS (Sustainable Drainage Systems) features for the proposed development

- All works shall comply with the Building Regulations -Technical guidance document- Part H Drainage and Wastewater disposal

Flood Risk Report:

No objection subject to:

- The Developer shall ensure that there is complete separation of the foul and surface water drainage for the proposed development.
- All works for this development shall comply with the requirements of the Greater Dublin Regional Code of Practice for Drainage Works.

Comhairle Chontae Atha Cliath Theas

PR/1350/22

Record of Executive Business and Chief Executive's Order

Irish Water

Water:

1.1 All development shall be carried out in compliance with Irish Water Standards codes and practices.

Foul:

2.1 All development shall be carried out in compliance with Irish Water Standards codes and practices.

Conclusion

The submissions from Surface Water Drainage and Irish Water are noted and it is considered that these issues could be dealt with by way of **conditions**.

Screening for Appropriate Assessment

Having regard to the scale and nature of the development and the distance from Natura sites, it is considered that the proposed development would not be likely to have a significant effect individually or in combination with other plans or projects on a European site.

Environmental Impact Assessment

Having regard to the nature of the proposed development, and the distance of the site from nearby sensitive receptors, there is no real likelihood of significant effects on the environment arising from the proposed development. The need for environmental impact assessment can, therefore, be excluded at preliminary examination and a screening determination is not required.

Development Contributions

west. The applicant shall also indicate how they will include permeable paving surfaces in the proposed driveway area and water butts as part of additional SuDS (Sustainable Drainage Systems) features for the proposed development.

Recommendation

Further Information Requested on 28/03/2022.

Further Information Received on 28/09/2022.

Consultations:

Water Services – No report received

Irish Water – No report received

Planning Note

The proposed development was initially assessed under the South Dublin County Council Development Plan 2016 – 2022. Since the 3rd of August 2022, all applications including the Additional Information as submitted for the proposed development has been assessed under the South Dublin County Development Plan 2022-2028.

Assessment

Item 1:

Drawings

The applicant is requested to submit revised floor plan drawings and elevation plans showing the area differences between the as built drawings and the measurements taken on inspection by the enforcement officer. The proposed drawings should include a site area plan indicating the distance to the western boundary wall to the rear of the property.

In response to Item 1, the applicant submitted the following:

- Cover Letter
- Drawing Ref: 18041/Pa13 –Proposed as Built Site Layout Plan Drainage
- Drawing Ref: 18041/Pa14 –Proposed as Built Site Layout Plan
- Drawing Ref: 18041/Pa15 – Existing as Built Site Layout Plan

The drawings as submitted indicate the correct distance as confirmed by the Enforcement Officer on inspection. The distance between the western rear wall of the proposed extension for retention and the rear boundary wall is 0.66m which would leave access to the proposed side bike store difficult but notwithstanding this is deemed **acceptable**.

Item 2:

Cross Section Drawing.

The applicant is requested to provide a cross section drawing showing the relationship between the proposed development and the property to the rear, No. 32 New Bawn Park. The drawing should be at a scale of not less than 1:200 and should accurately illustrate the following:

Comhairle Chontae Atha Cliath Theas

PR/1350/22

Record of Executive Business and Chief Executive's Order

- Separation distance from the rear boundary;
- Ridge height above ground;
- Height of rear boundary wall prior to any unauthorised works;
- Any garden structures in the rear of No. 32 New Bawn Park;
- The distance between the party boundary and the main dwelling at 32 New Bawn Park;
- Ground levels across the two sites.

In response to Item 2, the applicant submitted the following:

- Cover Letter
- Drawing Ref: 18041/Pa15 – Existing as Built Site Layout Plan inc Existing Long Section

The plan submitted indicates that the ridge height of the hip pitched roof of the proposed extension for retention is 3.1m and the rear boundary wall is 1.9m. Furthermore, the drawing submitted also indicated the separation distance from the rear boundary wall, garden structures and ground levels as requested. It should be noted that the plans as submitted are not to scale but nonetheless, the relationship between the rear extension for retention and Number 32 is still assessable and is considered **acceptable** in the site context.

Item 3

SuDS

The applicant is requested to submit revised site layout plans indicating how they will include water butts and permeable paving surfaces in the proposed driveway area as part of additional SuDS (Sustainable Drainage Systems) features for the proposed development.

In response to Item 3, the applicant submitted the following:

- Cover Letter

The following extract is in response to Item 3:

No work has been completed to any driveways, so we have not included any drawings or details for same.

Any percolation or SuDS requirements under current planning guidelines are to be installed in the back garden and connected to a newly fitted 4" PVC pipe that has been connected to the mains manhole since 2007 since the house was renovated.

The applicant has proposed permeable paving and a soakaway as SuDS measures for discharging surface water. The applicant has not confirmed the inclusion of water butts as requested and it is considered appropriate that the applicant includes these, and this should be confirmed by way of **condition**. Furthermore, the applicant should confirm the distance of the proposed soakaway in relation to the dwelling ensuring a distance of at least 5m prior to development and it is considered appropriate that this attached as a **condition**.

Comhairle Chontae Atha Cliath Theas

PR/1350/22

Record of Executive Business and Chief Executive's Order

Drainage

No report was received at the time of writing, but it is considered that the SuDS measures as proposed by the applicant are appropriate.

Development Contributions	
Planning Reference Number	SD22B/0036
Summary of permission granted & relevant notes:	Residential Extension for Retention, 22.3sqm
Are any exemptions applicable?	No
If yes, please specify:	
Is development commercial or residential?	Residential
Standard rate applicable to development:	104.49
% reduction to rate, if applicable (0% if N/A)	0
Rate applicable	€104.49
Area of Development (m2)	25.64
Amount of Floor area, if any, exempt (m2)	0
Total area to which development contribution applies (m2)	25.64
Total development contribution due	€ 2,679.12

Conclusion

Having regard to the provisions of the South Dublin County Development Plan 2022 – 2028 and the overall design and scale of the proposed development, it is considered that, subject to the **conditions** set out below, the proposed development for **retention** would not seriously injure the amenities of the area or of property in the vicinity and would, therefore, be in accordance with the proper planning and sustainable development of the area.

Comhairle Chontae Atha Cliath Theas

PR/1350/22

Record of Executive Business and Chief Executive's Order

Furthermore, the proposed alterations to the northern elevation consisting of a reduction in the overall area of the existing development is acceptable subject to **conditions**.

Recommendation

I recommend that a decision be made pursuant to the Planning & Development Act 2000, as amended, for the reasons set out in the First Schedule hereto, to Grant Permission & Grant Retention for the said development in accordance with the said plans and particulars, subject to the condition(s) specified in the Second Schedule hereto, the reasons for the imposition of the said condition(s) being as set out in the said Second Schedule.

FIRST SCHEDULE

It is considered that the proposed development accords with the policies and objectives of South Dublin County Council, as set out in the South Dublin County Council Development Plan 2022 - 2028 and subject to the conditions set out hereunder in the Second Schedule is hereby in accordance with the proper planning and sustainable development of the area.

SECOND SCHEDULE

Conditions and Reasons

1. Development to be in accordance with submitted plans and details.
The development shall be carried out and completed in its entirety in accordance with the plans, particulars and specifications lodged with the application as amended by Further Information received on 28/9/2022, save as may be required by the other conditions attached hereto.
REASON: To ensure that the development shall be in accordance with the permission, and that effective control be maintained.
2. (a) External Finishes.
All external finishes shall harmonise in colour or texture that is complementary to the house or its context.
REASON: In the interest of visual amenity.
(b) Restriction on Use.
The house and the proposed extension shall be jointly used as a single dwelling unit for residential purposes and shall not be sub-divided or used for any commercial purposes, and the extension shall not be sold, let (including short-term letting), leased or otherwise transferred or conveyed, by way of sale, letting or otherwise save as part of the single dwelling unit.
REASON: To prevent unauthorised development.
(c) Drainage - Irish Water.
(i) The water supply and drainage infrastructure, shall comply with the requirements of Irish Water.

Comhairle Chontae Atha Cliath Theas

PR/1350/22

Record of Executive Business and Chief Executive's Order

(ii) There shall be complete separation of the foul and surface water drainage systems, both in respect of installation and use. All new precast surface water manholes shall have a minimum thickness surround of 150mm Concrete Class B.

(iii) All drainage works for this development shall comply fully with the Greater Dublin Regional Code of Practice for Drainage Works.

REASON: In the interests of public health, the proper planning and sustainable development of the area and in order to ensure adequate water supply and drainage provision.

(d) Minimise Air Blown Dust.

During the construction and or demolition phase of the development, Best Practicable Means shall be employed to minimise air blown dust being emitted from the site. This shall include covering skips and slack-heaps, netting of scaffolding, daily washing down of pavements or other public areas, and any other precautions necessary to prevent dust nuisances. The applicant/developer shall comply with British Standard B.S. 5228 Noise Control on Construction and Open sites and British Standard B.S. 6187 Code of Practice for demolition.

REASON: In the interest of public health and to uphold the Council's policies set out in the South Dublin County Council Development Plan.

(e) Construction Noise and Hours.

To control, limit and prevent the generation of unacceptable levels of Environmental Noise Pollution from occurring during construction activity, Equipment or Machinery (to include pneumatic drills, on-site construction vehicles, generators, etc.) that could give rise to unacceptable levels of noise pollution as set out generally for evening and night-time in S.I. No. 140/2006 - Environmental Noise Regulations 2006 shall only be operated on the site between 7.00 hours and 19.00 hours weekdays and between 9.00 hours and 13.00 hours on Saturdays. No works shall take place at any time on Sundays, Bank Holidays or Public Holidays.

Any construction work outside these hours that could give rise to unacceptable levels of noise pollution shall only be permitted following a written request to the Planning Authority and the subsequent receipt of the written consent of the Planning Authority, having regard to the reasonable justification and circumstances and a commitment to minimise as far as practicable any unacceptable noise outside the hours stated above. In this respect, the applicant or developer shall also comply with BS 5228:2009 Noise and Vibration Control on Construction and Open Sites, and have regard to the World Health Organisation (WHO) – Guidelines for Community Noise (1999).

The applicant or developer shall also endeavour to engage in local consultation in respect of any noise sensitive location within 30 metres of the development as approved prior to construction activity commencing on site. Such noise sensitive locations should be provided with the following:

- Schedule of works to include approximate timeframes
- Name and contact details of contractor responsible for managing noise complaints
- Hours of operation- including any scheduled times for the use of equipment likely to be

Comhairle Chontae Atha Cliath Theas

PR/1350/22

Record of Executive Business and Chief Executive's Order

the source of significant noise.

REASON: In the interest of public health by the prevention of unacceptable levels of noise pollution which could interfere with normal sleep and rest patterns and/or when people could reasonably expect a level of quietness, the proper planning and sustainable development of the area and to uphold the Council's amenity policies set out in the South Dublin County Council Development Plan.

3. Water Butts

The applicant shall include Water Butts as part of a Sustainable urban Drainage System.

REASON: In the interest of proper planning and sustainable development of the area.

4. Soakaway

Prior to the commencement of development, the applicant shall confirm the location of the proposed soakaway. Furthermore, the applicant is required to submit a revised drawing showing plan & cross-sectional views, and dimensions of the proposed soakaway to the Planning Authority. Any proposed soakaway shall be located fully within the curtilage of the property and shall be:

vi) At least 5m from any building, public sewer, road boundary or structure.

vii) Generally, not within 3m of the boundary of the adjoining property.

viii) Not in such a position that the ground below foundations is likely to be adversely affected.

ix) 10m from any sewage treatment percolation area and from any watercourse / floodplain.

x) Soakaways must include an overflow connection to the surface water drainage network.

REASON: In the interest of proper planning and sustainable development of the area.

5. Financial Contributions.

The developer shall pay to the Planning Authority a financial contribution of €2,679.12 (two thousand, six hundred and seventy-nine euro and twelve cent), in respect of public infrastructure and facilities benefiting development within the area of the Planning Authority, that is provided, or intended to be provided by or on behalf of the authority, in accordance with the terms of the Development Contribution Scheme 2021 - 2025, made under Section 48 of the Planning and Development Act 2000 (as amended). This contribution is to be paid on receipt of Final Grant of Permission.

REASON: The provision of such facilities will facilitate the proposed development. It is considered reasonable that the payment of a contribution be required, in respect of public infrastructure and facilities benefiting development in the area of the Planning Authority and that is provided, or that is intended will be provided, by or on behalf of the Local Authority.

NOTE RE: CONDITION

Please note that with effect from 1st January 2014, Irish Water is now the statutory body responsible for water services. Further details/clarification can be obtained from Irish Water at Tel. 01 6021000 or by emailing customerservice@water.ie

NOTE: The applicant is advised that under the provisions of Section 34 (13) of the Planning and Development Act 2000 (as amended) a person shall not be entitled solely by reason of a permission to carry out any development.

NOTE: The applicant or developer should ensure that all necessary measures shall be taken by the contractor to prevent the spillage or deposit of clay, rubble or other debris on adjoining roads during the course of the works and to ensure that any such instances arising are remedied immediately.

NOTE: Adequate provision should be made to facilitate access to and the use of the development, buildings, facilities and services by disabled persons, including sanitary conveniences. The minimum requirements should be as per Part M of the Building Regulations.

NOTE: The applicant/developer of these lands is advised that in the event of encroachment or oversailing of adjoining property, the consent of the adjoining property owner is required.

NOTE: Notwithstanding any grant of planning permission; if an applicant requires permission to access local authority land (e.g. public footpaths, public open space or roadways) in order to access utilities, or for any other reason; the applicant should apply via <https://maproadroadworkslicensing.ie/MRL/> for a licence from the Local Authority to carry out those works.
