Subject: SD22A/0382 - Oliver Skehan

Dear Sir/Madam,

I, **OLIVER SKEHAN** of **76 Hermitage Road, Lucan, County Dublin**, write in relation to planning application number **SD22A/0382** made by Jogor Point Ltd with regard to lands adjacent to Foxhunter, Ballydowd, Lucan, County Dublin, as submitted on October 6th, 2022.

I wish to object to the proposed development. My objection is based on the following observations and grounds:

1. The proposed development of a distribution warehouse on this site would be unsuitable and by virtue of the bulk mass, height, scale, design and physical dominance it would be detrimental to the visual amenity of the area and to the amenities of the properties in the vicinity. Furthermore, the associated traffic impact would be heightened considerably.
2. There will be a significant loss of residential amenity to all surrounding properties in the vicinity of the development This will result from the negative visual impact associated with the development, the loss of privacy resulting from, loss of light, overshadowing and an overbearing impact arising from the proposed structure.
3. The supporting Planning Report notes that the proposed use would be a 'logistical warehouse' with the Transportation Assessment noting that the proposed use would be a distribution warehouse. This is not permissible or open for consideration within the Retail Warehousing zoning designation.
4. The need for a pedestrian/cycle entrance through the cul de sac in Hermitage Gardens is not necessarily justified and will remove the existing amenity to residents of Hermitage Gardens and Hermitage Park. This proposed passageway would not be adequately surveilled and it would be a concern that this would affect security and increase the possibility of anti-social behaviour.
5. This proposed development will have no net positive impact on the local area. New developments should contribute positively to the character, appearance, environment, services and infrastructure of the wider surrounding area and their established communities and should be suitable in terms of height and scale. It should have a positive impact on the local character and improve infrastructure and services and not create further problems. However, this proposed development fails to achieve this due to its immense height, scale, design and density and obvious negative impacts and pressures it will have on residents, infrastructure, environment and services.

I would be grateful if you would consider the above in your assessment of the planning application.

I have attached proof of payment of the €20 fee and the corresponding receipt number is **T4/0/722650**.

Yours sincerely,

Oliver Skehan
