Dear Sir/Madam,

I, Esther Monahan write in relation to planning application number **SD22A/0382** made by Jogor Point LTD with regard to lands adjacent to Foxhunter, Ballydowd, Lucan, Co Dublin, as submitted on October 6th, 2022.

I wish to object to the proposed development. My object is based on the following observations and grounds:

- The scale of development is over scaled and out of character with the area. The proposed development reached a height of 13.575m, which is much taller than surrounding properties.
- The proposed development by virtue of bulk mass, height, scale, design and physical dominance would result in an intense overdevelopment of the site, would be seriously injurious to the visual amenity of the area and to the amenities of the properties in the vicinity.
- A pedestrian entrance through Hermitage Gardens will remove existing amenity to residents of Hermitage Gardens and Hermitage Park affecting security and increasing the possibility of anti-social behaviour.
- There are insufficient occupant details, which mean it is difficult to understand the plans and the extent of the possible disruption. The supporting Planning Report notes that the proposed use would be a 'logistical warehouse' and the Transportation Assessment noting that the proposed use would be distribution warehouse. This use is not listed as permissible or open for consideration within RW zoning designation.
- A logistics unit would also generate more traffic than a warehouse/storage facility, so the lack of detail would have subsequent traffic impacts.
- The proposal seeks to provide a gate to allow permeability from the private housing estates which adjoin the site, through the warehouse premises, and to the Foxhunter pub. This passageway would not be adequately surveyed and it would be a concern that this would give rise to anti-social behaviour in the evening and late nights.

- New developments should contribute positively to the character, appearance, environment, services and infrastructure of the wider surrounding area and their established communities and should have a positive impact on the local character and improve infrastructure and services and not create further problems. However, this proposed development fails to achieve this due to its immense height, scale, design and density and obvious negative impacts and pressures it will have on residents, infrastructure, environment and services.

I would be grateful if you would consider the above in your assessment of the planning application. My receipt number is T4/0/722542, payment for lodging my objection, as seen above.

Yours faithfully,

Esther Monahan
