## Record of Executive Business and Chief Executive's Order

**Reg. Reference:** SD22B/0422      **Application Date:** 23-Sep-2022  
**Submission Type:** New Application      **Registration Date:** 23-Sep-2022  
**Correspondence Name and Address:** Sarah Barragry & Stuart Campbell 18, Castleriada Grove, Lucan, Co. Dublin  
**Proposed Development:** Conversion of existing attic space comprising of modification to existing roof structure; New access stairs from first floor to attic and a flat roof dormer to the rear of the house.  
**Location:** 18, Castleriada Grove, Lucan, Co. Dublin  
**Applicant Name:** Sarah Barragry & Stuart Campbell  
**Application Type:** Permission

(AOCM)

### **Description of Site and Surroundings:**

Site Area: stated as 0.02565 hectares.

### Site Description:

The application site comprises a two-storey, semi-detached dwelling on Castleriada Grove, in a cul-de-sac of similar dwellings. The surrounding area is residential in nature.

### **Proposal:**

**Permission** is sought for the following:

- Attic conversion including flat roof rear dormer

### **Zoning:**

The site is subject to zoning objective 'RES' - *'To protect and/or improve residential amenity'*

### **Consultations:**

#### Internal Consultees

Water Services – No report received

#### External Consultees

Irish Water – No report received

### **SEA Sensitivity Screening**

No overlap with relevant environmental layers

**PR/1412/22**

## **Record of Executive Business and Chief Executive's Order**

### **Submissions/Observations /Representations**

Submission expiry date – 27 October 2022

No submissions or observations were received.

### **Relevant Planning History**

None recorded for subject site.

### **Relevant Enforcement History**

None recorded for subject site.

### **Pre-Planning Consultation**

None recorded for subject site.

### **Relevant Policy in South Dublin County Council Development Plan 2022-2028**

*Chapter 4 Green Infrastructure*

*Section 4.1 Methodology*

*GI1 Objective 4: To require development to incorporate GI as an integral part of the design and layout concept for all development in the County including but not restricted to residential, commercial and mixed use through the explicit identification of GI as part of a landscape plan, identifying environmental assets and including proposals which protect, manage and enhance GI resources providing links to local and countywide GI networks.*

*Section 4.2.1 Biodiversity*

*GI2 Objective 4: To integrate GI, and include areas to be managed for biodiversity, as an essential component of all new developments in accordance with the requirements set out in Chapter 12: Implementation and Monitoring and the policies and objectives of this chapter.*

*Section 4.2.2 Sustainable Water Management*

*GI4 Objective 1: To limit surface water run-off from new developments through the use of Sustainable Drainage Systems (SuDS) using surface water and nature-based solutions and ensure that SuDS is integrated into all new development in the County and designed in accordance with South Dublin County Council's Sustainable Drainage Explanatory Design and Evaluation Guide, 2022.*

*Section 6.8.2 Residential Extensions*

*Policy H14: Support the extension of existing dwellings subject to the protection of residential and visual amenities.*

*H14 Objective 1: To favourably consider proposals to extend existing dwellings subject to the protection of residential and visual amenities and compliance with the standards set out in*

# Comhairle Chontae Atha Cliath Theas

**PR/1412/22**

## **Record of Executive Business and Chief Executive's Order**

*Chapter 13 Implementation and Monitoring and the guidance set out in the South Dublin County Council House Extension Design Guide, 2010 (or any superseding guidelines).*

*Section 11.2.1 Sustainable Urban Drainage Systems (SuDS)*

*Policy IE3: Surface Water and Groundwater*

*Manage surface water and protect and enhance ground and surface water quality to meet the requirements of the EU Water Framework Directive.*

*Chapter 12 Implementation and Monitoring*

*Section 12.6.8 Residential Consolidation*

*Extensions*

*The design of residential extensions should have regard to the permitted pattern of development in the immediate area alongside the South Dublin County Council House Extension Guide (2010) or any superseding standards.*

### **Relevant Government Guidelines**

*Project Ireland 2040 National Planning Framework*, Government of Ireland (2018).

*Regional, Spatial & Economic Strategy 2020-2032 (RSES)*, Eastern & Midlands Regional Assembly (2019)

*Appropriate Assessment of Plans and Projects in Ireland – Guidance for Planning Authorities*, Department of the Environment, Heritage and Local Government, (2009).

*OPR Practice Note PN01 Appropriate Assessment Screening for Development Management* (March 2021)

### **Assessment**

The main issues for assessment concern the following:

- Zoning and Council Policy
- Use and Visual Amenity
- Green Infrastructure
- Water Supply and Wastewater
- Appropriate Assessment
- Environmental Impact Assessment

# Comhairle Chontae Atha Cliath Theas

PR/1412/22

## Record of Executive Business and Chief Executive's Order

### Zoning and Policy

#### South Dublin County Development Plan 2022 - 2028

It is noted that under the 2022 – 2028 Development Plan, the zoning of the site has been amended to 'RES' - *'To protect and/or improve residential amenity'*. Residential development, including house extensions, is permitted in principle under this zoning objective.

### Use and Visual Amenity

A flat roof dormer extension would be located on the rear roof slope of the existing dwelling. The dormer would have two windows, matching the fenestration of the existing dwelling. From drawings it appears that the dormer would be sufficiently setback from the eaves and down from the ridgeline of the roof, in compliance with the recommendations of the House Extension Design Guide. Given the setback of the dormer within the roof slope, it is not considered that there would be any issues of overlooking, loss of privacy or overshadowing of neighbouring dwellings.

An internal floor to ceiling height of 1.9m would be achieved. The applicant should note that to be used as a habitable room, an internal floor to ceiling height of 2.4m would be required, and all other building regulations would have to be complied with.

The applicant has not provided a floor plan for the proposed attic conversion. This should be required as a **condition** in the event of a grant of permission.

### Green Infrastructure

The application relates to a rear dormer extension and attic conversion and would not impact any green infrastructure and would not require any additional Sustainable Urban Drainage Systems (SuDS) interventions at the site.

### Water Supply and Wastewater

The application relates to a rear dormer extension and attic conversion and would not impact any existing Irish Water infrastructure in the area.

### Screening for Appropriate Assessment

The subject site is not located within nor within close proximity to a European site. The proposed development is located within an established urban area and comprises the conversion of an attic and provision of a rear dormer extension.

Having regard to:

- the scale and nature of the development,
- the location of the development in a serviced urban area, and
- the consequent absence of a pathway to the European site,

# Comhairle Chontae Atha Cliath Theas

**PR/1412/22**

## **Record of Executive Business and Chief Executive's Order**

it is considered that the proposed development would not be likely to have a significant effect individually, or in-combination with other plans and projects, on the Natura 2000 network and appropriate assessment is not therefore required.

### **Environmental Impact Assessment**

Having regard to the nature of the proposed development, and the distance of the site from nearby sensitive receptors, there is no real likelihood of significant effects on the environment arising from the proposed development. The need for environmental impact assessment can, therefore, be excluded at preliminary examination and a screening determination is not required.

### **Other Considerations**

#### **Development Contributions**

Non-habitable attic conversion:	27.27 sq.m
Assessable area:	Nil

*No contribution due.*

### **SEA Monitoring**

Building Use Type Proposed:	Residential extension
Floor Area:	27.27 sq.m
Land Type:	Urban Consolidation
Site Area:	0.02565 Hectares.

### **Conclusion**

Having regard to the provisions of the South Dublin County Council Development Plan 2022-2028 and the overall design and scale of the development proposed it is considered that, subject to conditions set out below, the proposed development would not seriously injure the amenities of the area or of property in the vicinity and would, therefore, be in accordance with the proper planning and sustainable development of the area. It is considered that the proposal would be consistent with Council policy in relation to extensions to dwelling houses.

### **Recommendation**

I recommend that a decision be made pursuant to the Planning & Development Act 2000, as amended, for the reasons set out in the First Schedule hereto, to Grant Permission for the said development in accordance with the said plans and particulars, subject to the condition(s) specified in the Second Schedule hereto, the reasons for the imposition of the said condition(s) being as set out in the said Second Schedule.

# **Comhairle Chontae Atha Cliath Theas**

**PR/1412/22**

## **Record of Executive Business and Chief Executive's Order**

### **FIRST SCHEDULE**

It is considered that the proposed development accords with the policies and objectives of South Dublin County Council, as set out in the South Dublin County Council Development Plan 2022 - 2028 and subject to the conditions set out hereunder in the Second Schedule is hereby in accordance with the proper planning and sustainable development of the area.

### **SECOND SCHEDULE**

#### **Conditions and Reasons**

1. Development in accordance with submitted plans and details.  
The development shall be carried out and completed in its entirety fully in accordance with the plans, particulars and specifications lodged with the application, save as may be required by the other conditions attached hereto.  
REASON: To ensure that the development shall be in accordance with the permission and that effective control be maintained.
2. Attic Floor Plan  
The applicant has not submitted a floor plan for the proposed attic conversion. Existing and proposed attic floor plans shall be submitted prior to the commencement of development for the written agreement of the Planning Authority.  
REASON: For clarity and to ensure the development is in accordance with the permission
3. (a) External Finishes.  
All external finishes shall harmonise in colour or texture that is complementary to the house or its context.  
REASON: In the interest of visual amenity.  
(b) Restriction on Use.  
The house and the proposed extension shall be jointly used as a single dwelling unit for residential purposes and shall not be sub-divided or used for any commercial purposes, and the extension shall not be sold, let (including short-term letting), leased or otherwise transferred or conveyed, by way of sale, letting or otherwise save as part of the single dwelling unit.  
REASON: To prevent unauthorised development.  
(c) Drainage - Irish Water.  
(i) The water supply and drainage infrastructure, shall comply with the requirements of Irish Water.  
(ii) There shall be complete separation of the foul and surface water drainage systems, both in respect of installation and use. All new precast surface water manholes shall have a minimum thickness surround of 150mm Concrete Class B.  
(iii) All drainage works for this development shall comply fully with the Greater Dublin Regional Code of Practice for Drainage Works.  
REASON: In the interests of public health, the proper planning and sustainable

# **Comhairle Chontae Atha Cliath Theas**

**PR/1412/22**

## **Record of Executive Business and Chief Executive's Order**

development of the area and in order to ensure adequate water supply and drainage provision.

(d) Minimise Air Blown Dust.

During the construction and or demolition phase of the development, Best Practicable Means shall be employed to minimise air blown dust being emitted from the site. This shall include covering skips and slack-heaps, netting of scaffolding, daily washing down of pavements or other public areas, and any other precautions necessary to prevent dust nuisances. The applicant/developer shall comply with British Standard B.S. 5228 Noise Control on Construction and Open sites and British Standard B.S. 6187 Code of Practice for demolition.

REASON: In the interest of public health and to uphold the Council's policies set out in the South Dublin County Council Development Plan.

(e) Construction Noise and Hours.

To control, limit and prevent the generation of unacceptable levels of Environmental Noise Pollution from occurring during construction activity, Equipment or Machinery (to include pneumatic drills, on-site construction vehicles, generators, etc.) that could give rise to unacceptable levels of noise pollution as set out generally for evening and night-time in S.I. No. 140/2006 - Environmental Noise Regulations 2006 shall only be operated on the site between 7.00 hours and 19.00 hours weekdays and between 9.00 hours and 13.00 hours on Saturdays. No works shall take place at any time on Sundays, Bank Holidays or Public Holidays.

Any construction work outside these hours that could give rise to unacceptable levels of noise pollution shall only be permitted following a written request to the Planning Authority and the subsequent receipt of the written consent of the Planning Authority, having regard to the reasonable justification and circumstances and a commitment to minimise as far as practicable any unacceptable noise outside the hours stated above. In this respect, the applicant or developer shall also comply with BS 5228:2009 Noise and Vibration Control on Construction and Open Sites, and have regard to the World Health Organisation (WHO) – Guidelines for Community Noise (1999).

The applicant or developer shall also endeavour to engage in local consultation in respect of any noise sensitive location within 30 metres of the development as approved prior to construction activity commencing on site. Such noise sensitive locations should be provided with the following:

- Schedule of works to include approximate timeframes
- Name and contact details of contractor responsible for managing noise complaints
- Hours of operation- including any scheduled times for the use of equipment likely to be the source of significant noise.

REASON: In the interest of public health by the prevention of unacceptable levels of noise pollution which could interfere with normal sleep and rest patterns and/or when people could reasonably expect a level of quietness, the proper planning and sustainable development of the area and to uphold the Council's amenity policies set out in the South

Dublin County Council Development Plan.

NOTE: The applicant is advised that under the provisions of Section 34 (13) of the Planning and Development Act 2000 (as amended) a person shall not be entitled solely by reason of a permission to carry out any development.

NOTE: The applicant is advised that, in order to use the attic conversion as a habitable room, it must comply with the Building Regulations.

NOTE: The applicant or developer should ensure that all necessary measures shall be taken by the contractor to prevent the spillage or deposit of clay, rubble or other debris on adjoining roads during the course of the works and to ensure that any such instances arising are remedied immediately.

NOTE: Waste, arising from the site, must be kept to a minimum, segregated where appropriate, and disposed in accordance with the Waste Management Regulations 2007, as amended. Transport of such waste, must be by an authorised waste permit holder. Waste disposal records must be maintained and made available, for inspection by Authorised Persons appointed under the Waste Management Act 1996, as amended. A Waste Transfer Form shall accompany the transportation of all hazardous waste arising from the construction works.
