

Legend

- Application Boundary
- Existing Trees to be Retained.
- Proposed Native Woodland: To be planted around the perimeter and throughout the site. New planting designed to create a network of ecological corridors linking with existing vegetation to be retained. As the planting matures a visual screen will be created. Refer to planting schedule for specific specifications.
- Proposed Medium or Large Deciduous Tree Planting: To be planted at heights required to give an immediate impact and create a visual screen where required. Refer to planting schedule for specific specifications.
- Proposed Native Coniferous Tree Planting: To be planted to complement and strengthen the screening level provided by the large deciduous tree planting. Refer to planting schedule for specific specifications.
- Wildflower Meadow: A wideflower meadow to improve the biodiversity of the local environment and reduce maintenance operations.
- Wetland Meadow / Flood Bed: Also to be managed as a wideflower meadow to improve the biodiversity of the local environment and reduce maintenance operations.
- Grass Strip: Also to be managed as ornamental lawn/amenity grass.
- Proposed Native Hedgerow Planting: green infrastructure links. Refer to planting plan for further details and specification.
- Existing Native Hedgerow: To be retained and enhanced with reference to arborists report.
- Riparian Edge to Existing Stream: Existing vegetation to be retained and enhanced with additional native riparian planting and wetland meadow. Proposed ledges and shallow banks create high quality riparian edge.
- Ornamental Shrub/Groundcover Planting: Refer to planting plan for further details and specification.
- Security Fence: To architect's detail and specification.
- Boundary Fence: To architect's detail and specification.
- Boundary Fence: To architect's detail and specification.
