Record of Executive Business and Chief Executive's Order

Reg. Reference: SD22B/0445 **Application Date:** 07-Oct-2022
Submission Type: New Application **Registration Date:** 07-Oct-2022
Correspondence Name and Address: Daryl Bent, DRB Design 74, Lambourn Park,
Clonsilla, Dublin 15
Proposed Development: Conversion of the attic to storage including a new
dormer structure with 2 windows to the rear elevation
and a new velux rooflight to the front elevation, all at
roof level.
Location: 65, Castle Park, Clondalkin, Dublin 22.
Applicant Name: Robert & Michelle Murphy
Application Type: Permission

(CS)

Description of Site and Surroundings:

Site Area: Stated as 0.0358 Hectares.

Site Description:

The subject site is located in Castle Park in Clondalkin. The subject dwelling is a two-storey, semi-detached dwelling with a pitched roof profile and with attached side garage. The street is characterised by other similar residential dwellings with a mainly uniform building line.

Proposal:

The proposed development consists of the following:

- Rear dormer attic conversion for storage (non-habitable).
- 'Velux' to front at roof level.
- Proposed works measure c.24sq.m.

Zoning:

The subject site is subject to zoning objective 'RES' - 'To protect and/or improve Residential Amenity'.

Consultations:

Surface Water Drainage – No report received

Irish Water – No report received

SEA Sensitivity Screening

No overlap identified with environmental layers.

Submissions/Observations /Representations:

None.

Relevant Planning History:

No recorder for subject site.

Relevant Enforcement History:

None.

Pre-Planning Consultation:

No pre-planning consultation recorded.

Relevant Policy in South Dublin County Council Development Plan 2022 - 2028

Section 6.8.2 Residential Extensions

Policy H14 Residential Extensions

- It is the policy of the Council to support the extension of existing dwellings subject to the protection of residential and visual amenities.

Policy H14 Objective 1:

- To favourably consider proposals to extend existing dwellings subject to the protection of residential and visual amenities and compliance with the standards set out in Chapter 12: Implementation and Monitoring and the guidance set out in the South Dublin County Council House Extension Design Guide, 2010 (or any superseding guidelines).

Section 12.5.3 Density and Building Heights

Section 12.6 Housing – Residential Development

Section 12.6.8 Residential Consolidation

Extensions

- The design of residential extensions should have regard to the permitted pattern of development in the immediate area alongside the *South Dublin County Council House Extension Guide* (2010) or any superseding standards.

Section 12.6.7 Residential Standards

Section 6.7.5 Privacy and Security

Section 6.7.4 Internal Residential Accommodation

Section 12.10.1 Energy Performance in New Buildings

Section 12.3.2 Appropriate Assessment

Section 12.3.3 Environmental Impact Assessment

Comhairle Chontae Atha Cliath Theas

PR/1488/22

Record of Executive Business and Chief Executive's Order

The design of residential extensions should accord with the South Dublin County Council House Extension Guide (2010) or any superseding standards.

Attic conversions and dormer windows:

- Locate dormer windows as far back as possible from the eaves line (at least three tile courses).
- In the case of a dormer window extension to a hipped roof, ensure it sits below the ridgelines of the existing roof and matches the materials used in the main house.
- Relate dormer windows to the windows and doors below in alignment, proportion, and character.

Overlooking and loss of privacy:

- Provide frosted or opaque glass windows with restricted openings in bathrooms, halls, and stairways.

South Dublin County Council House Extension Design Guide (2010)

The House Extension design guide contains the following guidance on house extensions:

- *Respect the appearance and character of the area;*
- *Provide comfortable internal space and useful outside space;*
- *Do not overlook, overshadow or have an overbearing impact on neighbouring properties;*
- *Conserve water and save energy where possible.*

For attic conversions and dormer windows:

- *Use materials to match the existing wall or roof materials of the main house;*
- *Meet Building Regulation requirements relating to fire safety and stairs in terms of headroom on stairs and means of escape;*
- *Locate dormer windows below the ridge of the roof, even if the roof has a shallow pitch;*
- *Locate dormer windows as far back as possible from the eaves line (at least 3 tile courses);*
- *Relate dormer windows to the windows below in alignment, proportion and character;*
- *In the case of a dormer window extension to a hipped roof, ensure it sits below the ridgelines of the existing rood and matches the materials used in the main house.*

Relevant Government Guidelines

Project Ireland 2040 National Planning Framework, Government of Ireland, 2018.

Regional, Spatial & Economic Strategy 2019 - 2031, Eastern & Midlands Regional Assembly, 2019.

Section 5 – Dublin Metropolitan Area Strategic Plan, in Regional, Spatial and Economic Strategy 2019 – 2031.

Sustainable Residential Development in Urban Areas: Guidelines for Planning Authorities, Department of the Environment, Heritage and Local Government (2008).

Appropriate Assessment of Plans and Projects in Ireland – Guidance for Planning Authorities, Department of the Environment, Heritage and Local Government, 2009.

Quality Housing for Sustainable Communities-Best Practice Guidelines, Department Environment, Heritage, and Local Government, (2007).

Assessment

The main issues for assessment relate to:

- Zoning and Council policy;
- Residential and Visual Amenity;
- Services & Drainage;
- Screening for Appropriate Assessment (AA);
- Screening for Environmental Impact Assessment (EIAR);

Zoning and Council Policy

The subject site is subject to zoning objective 'RES' - 'To protect and/or improve Residential Amenity'. The development of an extension to a dwelling is permitted in principle subject to its design being in accordance with the relevant provisions in the 2022-2028 South Dublin County Council Development Plan and the House Extension Design Guide.

Residential & Visual Amenity

The non-habitable rear dormer will be centrally placed in the roof and will project outwards from the roof of the existing dwelling by c.3.5m and will span a width of c.4.3m. The dormer will be set appropriately above the eaves of the existing dwelling however even though it will not be set below the ridge of the existing, it does not project above the roof ridge and is therefore satisfactory and would integrate reasonably well with the character of the existing dwelling and with the character of the area. There will be no undue overlooking.

Comhairle Chontae Atha Cliath Theas

PR/1488/22

Record of Executive Business and Chief Executive's Order

The 'Velux' rooflight to the front roof would integrate reasonably well with the character of the area and would comply with the SDCC House Extension Design Guide 2010.

Services & Drainage

Both Irish Water and Surface Water Drainage have not issued any reports to date. Notwithstanding this it is considered appropriate to attach standard drainage **conditions** in the event of a grant.

Screening for Appropriate Assessment (AA)

The subject site is not located within nor within close proximity to a European site. The proposed development is located within an established residential area and comprises of a house extension.

Having regard to:

- the small scale and domestic nature of the development,
- the location of the development in a serviced urban area, and
- the consequent absence of a pathway to the European site,

it is considered that the proposed development would not be likely to have a significant effect individually, or in-combination with other plans and projects, on the Natura 2000 network and appropriate assessment is not therefore required.

Screening for Environmental Impact Assessment (EIAR)

Having regard to the modest nature of the proposed development, and the distance of the site from nearby sensitive receptors, there is no real likelihood of significant effects on the environment arising from the proposed development. The need for environmental impact assessment can, therefore, be excluded at preliminary examination and a screening determination is not required.

Other Considerations

Development Contributions

- Development subject of this application for non-habitable rear dormer is 24s.q.m. as stated.
- Assessable area is nil.

Conclusion:

Having regard to the:

- provisions of the South Dublin County Council Development Plan 2022-2028;
- the 'RES' zoning objective;
- the overall design and scale of the development proposed;

it is considered that, subject to compliance with the conditions set out below, the proposed development would not seriously injure the amenities of the area or of property in the vicinity and would, therefore, be in accordance with the proper planning and sustainable development of the area.

Recommendation

I recommend that a decision be made pursuant to the Planning & Development Act 2000, as amended, for the reasons set out in the First Schedule hereto, to Grant Permission for the said development in accordance with the said plans and particulars, subject to the condition(s) specified in the Second Schedule hereto, the reasons for the imposition of the said condition(s) being as set out in the said Second Schedule.

FIRST SCHEDULE

It is considered that the proposed development accords with the policies and objectives of South Dublin County Council, as set out in the South Dublin County Council Development Plan 2022 - 2028 and subject to the conditions set out hereunder in the Second Schedule is hereby in accordance with the proper planning and sustainable development of the area.

SECOND SCHEDULE

Conditions and Reasons

1. Development in accordance with submitted plans and details.

The development shall be carried out and completed in its entirety fully in accordance with the plans, particulars and specifications lodged with the application, save as may be required by the other conditions attached hereto.

REASON: To ensure that the development shall be in accordance with the permission and that effective control be maintained.

2. (a) External Finishes.

All external finishes shall harmonise in colour or texture that is complementary to the house or its context.

REASON: In the interest of visual amenity.

- (b) Restriction on Use.

The house and the proposed extension shall be jointly used as a single dwelling unit for residential purposes and shall not be sub-divided or used for any commercial purposes, and the extension shall not be sold, let (including short-term letting), leased or otherwise

Comhairle Chontae Atha Cliath Theas

PR/1488/22

Record of Executive Business and Chief Executive's Order

transferred or conveyed, by way of sale, letting or otherwise save as part of the single dwelling unit.

REASON: To prevent unauthorised development.

(c) Drainage - Irish Water.

(i) The water supply and drainage infrastructure, shall comply with the requirements of Irish Water.

(ii) There shall be complete separation of the foul and surface water drainage systems, both in respect of installation and use. All new precast surface water manholes shall have a minimum thickness surround of 150mm Concrete Class B.

(iii) All drainage works for this development shall comply fully with the Greater Dublin Regional Code of Practice for Drainage Works.

REASON: In the interests of public health, the proper planning and sustainable development of the area and in order to ensure adequate water supply and drainage provision.

(d) Minimise Air Blown Dust.

During the construction and or demolition phase of the development, Best Practicable Means shall be employed to minimise air blown dust being emitted from the site. This shall include covering skips and slack-heaps, netting of scaffolding, daily washing down of pavements or other public areas, and any other precautions necessary to prevent dust nuisances. The applicant/developer shall comply with British Standard B.S. 5228 Noise Control on Construction and Open sites and British Standard B.S. 6187 Code of Practice for demolition.

REASON: In the interest of public health and to uphold the Council's policies set out in the South Dublin County Council Development Plan.

(e) Construction Noise and Hours.

To control, limit and prevent the generation of unacceptable levels of Environmental Noise Pollution from occurring during construction activity, Equipment or Machinery (to include pneumatic drills, on-site construction vehicles, generators, etc.) that could give rise to unacceptable levels of noise pollution as set out generally for evening and night-time in S.I. No. 140/2006 - Environmental Noise Regulations 2006 shall only be operated on the site between 7.00 hours and 19.00 hours weekdays and between 9.00 hours and 13.00 hours on Saturdays. No works shall take place at any time on Sundays, Bank Holidays or Public Holidays.

Any construction work outside these hours that could give rise to unacceptable levels of noise pollution shall only be permitted following a written request to the Planning Authority and the subsequent receipt of the written consent of the Planning Authority, having regard to the reasonable justification and circumstances and a commitment to minimise as far as practicable any unacceptable noise outside the hours stated above. In this respect, the applicant or developer shall also comply with BS 5228:2009 Noise and Vibration Control on Construction and Open Sites, and have regard to the World Health Organisation (WHO) – Guidelines for Community Noise (1999).

Comhairle Chontae Atha Cliath Theas

PR/1488/22

Record of Executive Business and Chief Executive's Order

The applicant or developer shall also endeavour to engage in local consultation in respect of any noise sensitive location within 30 metres of the development as approved prior to construction activity commencing on site. Such noise sensitive locations should be provided with the following:

- Schedule of works to include approximate timeframes
- Name and contact details of contractor responsible for managing noise complaints
- Hours of operation- including any scheduled times for the use of equipment likely to be the source of significant noise.

REASON: In the interest of public health by the prevention of unacceptable levels of noise pollution which could interfere with normal sleep and rest patterns and/or when people could reasonably expect a level of quietness, the proper planning and sustainable development of the area and to uphold the Council's amenity policies set out in the South Dublin County Council Development Plan.

NOTE: The applicant is advised that under the provisions of Section 34 (13) of the Planning and Development Act 2000 (as amended) a person shall not be entitled solely by reason of a permission to carry out any development.

NOTE: The applicant is advised that, in order to use the attic conversion as a habitable room, it must comply with the Building Regulations.

NOTE: The applicant or developer should ensure that all necessary measures shall be taken by the contractor to prevent the spillage or deposit of clay, rubble or other debris on adjoining roads during the course of the works and to ensure that any such instances arising are remedied immediately.

NOTE: Waste, arising from the site, must be kept to a minimum, segregated where appropriate, and disposed in accordance with the Waste Management Regulations 2007, as amended. Transport of such waste, must be by an authorised waste permit holder. Waste disposal records must be maintained and made available, for inspection by Authorised Persons appointed under the Waste Management Act 1996, as amended. A Waste Transfer Form shall accompany the transportation of all hazardous waste arising from the construction works.
