**Re: Planning Ref No. SD22A/0312 Application for New Discount Store at Main Street  
Upper, Newcastle. Co. Dublin**

Dear Sir/Madame,

With reference to the document (Lidl Newcastle, Co. Dublin Glint & Glare Assessment Report) submitted in relation to the above application, we can confirm that the assessment and report submitted was based on a PV array covering the entire roof area of the proposed store.

Therefore all & any proposed locations on the roof for the PV array have been assessed and as outlined in the report, all receptor locations have low to none - potential for ocular glare.

Regards,

---
