**NOTIFICATION TO GRANT PERMISSION  
PLANNING & DEVELOPMENT ACT, 2000 (as amended) AND PLANNING  
REGULATIONS THEREUNDER**

Final Grant Order No.:	<b>1605</b>	Date of Final Grant:	<b>15-Dec-2022</b>
Decision Order No.:	<b>1393</b>	Date of Decision:	<b>07-Nov-2022</b>
Register Reference:	<b>SD22A/0288</b>	Date:	<b>11-Oct-2022</b>

**Applicant:** M. Hughes, A.Kilkenny & M.McCarville  
**Development:** Demolition of existing detached bungalow and construction of 2 No: 264sq.m detached two storey with developed roof space 4 bedroom plus study dwelling houses and associated site works  
**Location:** St. Francis, Owendore Avenue, Rathfarnham, Dublin 14

**Time extension(s) up to and including:**

**Additional Information Requested/Received:** 22-Aug-2022 / 11-Oct-2022

A Permission has been granted for the development described above, subject to the following conditions.

**Conditions and Reasons:**

1. Development to be in accordance with submitted plans and details.  
The development shall be carried out and completed in its entirety in accordance with the plans, particulars and specifications lodged with the application, and as amended by Further Information received on 11/10/2022, save as may be required by the other conditions attached hereto.  
REASON: To ensure that the development shall be in accordance with the permission, and that effective control be maintained.
2. Restriction on Use.  
The house(s) shall be used as a single dwelling unit and shall not be sub-divided by way of sale or letting (including short-term letting) or otherwise nor shall it be used for any commercial purposes.  
REASON: To prevent unauthorised development.
3. Drainage - Surface Water.  
The disposal of surface water, shall fully comply with all of the technical requirements of the Council's Water Services Section. In this regard, prior to the commencement of development, the applicant/developer shall submit the following for the written agreement of the Planning

Authority:

- (a) Fully detailed foul and surface water drainage plans for the proposed development as approved showing location of all manholes, AJs etc located within the site boundary up to and including point of connection to the public sewer that fully accords with the requirements Council's Water Services Section and or Irish Water,
- (b) There shall be complete separation of the foul and surface water drainage systems, both in respect of installation and use. All new precast surface water manholes shall have a minimum thickness surround of 150mm Concrete Class B.
- (c) All drainage works for this development shall comply fully with the Greater Dublin Regional Code of Practice for Drainage Works.
- (d) The soakaway design to be submitted shall be certified to BRE Digest 365 standard by a suitably qualified person carrying professional indemnity insurance and shall include documented evidence of infiltration test results to demonstrate that the soakaway complies with the requirements of BRE Digest 365.

The revised plans shall provide for a soakaway to be located within the curtilage of the property and this shall be:

- (i) at least 5m from any buildings, public sewers or structures and not in such a position that the ground below foundations is likely to be adversely affected.
- (ii) at least 5m from the nearest road boundary and not within 3m of the boundary of the adjoining site.
- (iii) a minimum of 10m from any sewage treatment percolation area.
- (iv) at least 10m from any stream / river / flood plain.

In addition only rainwater shall be discharged to soakaways.

- (e) The applicant shall obtain a Confirmation of Feasibility letter from Irish Water for the proposed watermain connection.
- (f) The applicant or developer shall enter into water connection agreement(s) with Irish Water.
- (g) The applicant shall obtain a Confirmation of Feasibility letter from Irish Water for the proposed waste water connection.
- (h) The applicant or developer shall enter into waste water connection agreement(s) with Irish Water.
- (i) The applicant has proposed two types of permeable paving. One type of paving is referred to as Type A and is permeable and acceptable. Another type of paving proposed is referred to as Type B and does not allow surface water infiltration and is not acceptable. Prior to commencement of development the applicant shall submit a revised drawing in plan and cross sectional view showing that all permeable paving does allow surface water infiltration.
- (j) The applicant shall include SuDS (Sustainable urban Drainage Systems) features for the proposed development such as but not limited to the following:
  - Rain Gardens , Planter boxes with overflow connection to the public surface water sewer.
  - Permeable Paving
  - Grasscrete
- (k) The Developer shall ensure that there is complete separation of the foul and surface water drainage for the proposed development.
- (l) All works for this development shall comply with the requirements of the Greater Dublin Regional Code of Practice for Drainage Works.

REASON: In the interests of public health, safety, the proper planning and sustainable development of the area and in order to ensure adequate and appropriate surface water drainage provision.

#### 4. Minimise Air Blown Dust.

During the construction and or demolition phase of the development, Best Practicable Means shall be employed to minimise air blown dust being emitted from the site. This shall include

covering skips and slack-heaps, netting of scaffolding, daily washing down of pavements or other public areas, and any other precautions necessary to prevent dust nuisances. The applicant/developer shall comply with British Standard B.S. 5228 Noise Control on Construction and Open sites and British Standard B.S. 6187 Code of Practice for demolition. REASON: In the interest of public health and to uphold the Council's policies set out in the South Dublin County Council Development Plan.

5. Construction Noise and Hours.

To control, limit and prevent the generation of unacceptable levels of Environmental Noise Pollution from occurring during construction activity, no Equipment or Machinery (to include pneumatic drills, on-site construction vehicles, generators, etc.) that could give rise to unacceptable levels of noise pollution as set out generally for evening and night-time in S.I. No. 140/2006 - Environmental Noise Regulations 2006 shall be operated on the site before 7.00 hours on weekdays and 9.00 hours on Saturdays nor after 19.00 hours on weekdays and 13.00 hours on Saturdays, nor at any time on Sundays, Bank Holidays or Public Holidays. Any construction work outside these hours that could give rise to unacceptable levels of noise pollution shall only be permitted following a written request to the Planning Authority and the subsequent receipt of the written consent of the Planning Authority, having regard to the reasonable justification and circumstances and a commitment to minimise as far as practicable any unacceptable noise outside the hours stated above. In this respect, the applicant or developer shall also comply with BS 5228:2009 Noise and Vibration Control on Construction and Open Sites, and have regard to the World Health Organisation (WHO) – Guidelines for Community Noise (1999).

The applicant or developer shall also endeavour to engage in local consultation in respect of any noise sensitive location within 30 metres of the development as approved prior to construction activity commencing on site. Such noise sensitive locations should be provided with the following:

- Schedule of works to include approximate timeframes
- Name and contact details of contractor responsible for managing noise complaints
- Hours of operation- including any scheduled times for the use of equipment likely to be the source of significant noise.

REASON: In the interest of public health by the prevention of unacceptable levels of noise pollution which could interfere with normal sleep and rest patterns and/or when people could reasonably expect a level of quietness, the proper planning and sustainable development of the area and to uphold the Council's amenity policies set out in the South Dublin County Council Development Plan.

6. External Finishes.

All external finishes shall harmonise in colour or texture that is complementary to the house or its context.

REASON: In the interest of visual amenity.

7. (a) Green Infrastructure.

Prior to commencement of development the applicant shall submit to the Planning Authority for written approval a Green Infrastructure Plan which shall be submitted as part of the suite of Landscape Plans that are required for a development. The Green infrastructure Plans shall include the following information:

- Site location plan showing the development site in the context of the wider GI as shown on the Council's GI Plan for the County.
- Indicate how the development proposals link to and enhance the wider GI Network of the County.
- Proposed GI protection, enhancement and restoration proposals as part of the landscape plan,

where appropriate, for the site.

- Proposals for identification and control of invasive species where appropriate, for the site  
(b) Green Space Factor (GSF).

Prior to commencement of development the applicant shall submit to the Planning Authority for written approval A Green Space Factor (GSF) Worksheet for the proposed development detailing how they have achieved the appropriate the minimum Green Space Factor (GSF) scoring established by their land use zoning. Minimum required scores for different land use zonings are included in Table 1. Developers can improve their green factor score by retaining existing landscape features and incorporating new landscape features and GI interventions. Completed Green Space Factor (GSF) worksheets shall be submitted to SDCC with the Green Infrastructure Plan and Landscape Plan for the proposed development. See link to the Green Space Factor Worksheet: Related Documents - SDCC.

REASON: In order to ensure the protection and enhancement of Green Infrastructure in the County through the provision of green infrastructure elements as part of the design process in accordance with relevant policies of the CDP 2022-2028.

#### 8. SUDS

Prior to commencement of development the applicant shall submit to the Planning Authority for written approval A comprehensive SUDS Management Plan to demonstrate that the proposed SUDS features have reduced the rate of run off into the existing surface water drainage network. A maintenance plan shall also be included as a demonstration of how the system will function following implementation. Additional natural SUDS features shall be incorporated into the proposed drainage system for the development such as rain gardens, detention basins, filter drains, swales etc. In addition, the applicant shall provide the following:

- The applicant shall demonstrate how the proposed natural SUDS features will be incorporated and work within the drainage design for the proposed development.

- A drawing to show how surface water shall be attenuated to greenfield run off rates.

- Submit a drawing to show what SuDS (Sustainable Drainage Systems) are proposed.

Examples of SuDS include permeable paving, filter drains, bio-retention tree pits, rains gardens, swales or other such SuDS.

- SUDs Management - The applicant is requested to submit a comprehensive SUDS Management Plan to demonstrate that the proposed SUDS features have reduced the rate of run off into the existing surface water drainage network. A maintenance plan should also be included as a demonstration of how the system will function following implementation.

- The applicant is referred to the recently published SDCC SuDS Design Guide for further information and guidance.

REASON: To prevent the increased risk of flooding by ensuring the provision of a satisfactory means of surface water disposal is incorporated into the design and the build and that the principles of sustainable drainage are incorporated into this proposal and maintained for the lifetime of the proposal, in accordance with relevant policies of the CDP 2022-2028.

#### 9. Boundary Treatment.

Prior to commencement a scheme for the siting and design of all boundary treatments shall be submitted for the approval of the local planning authority indicating the positions, design, materials and type of boundary treatment to be erected. The boundary treatment shall be completed before the building(s) are occupied.

REASON: In order to ensure high quality landscaping for the boundaries of the site in the interests of visual amenity and to safeguard the residential amenity of neighbouring occupiers, in accordance with the policy and objective contained within the current County Development Plan 2022-2028.

## 10. Roads Requirements.

- (a). Prior to commencement, the applicant shall provide a revised drawing confirming the minimum 6 meter car-parking clearance between front wall and building line.
  - (b). The boundary walls at both vehicle access points shall be limited to a maximum height of 0.9m, and any boundary pillars shall be limited to a maximum height of 1.2m, in order to improve forward visibility for vehicles.
  - (c). The existing vehicular access point shall be limited to a width of maximum 4.2m wide for the proposed development.
  - (d). Footpath and kerb shall be dished and widened, and the dropped crossing shall be constructed to the satisfaction of South Dublin County Council and at the applicant's expense. The footpath and kerb shall be dished and widened to the full width of the proposed widened driveway entrance.
  - (e). Any gates shall open inwards and not out over the public domain.
- REASON: In the interest of proper planning and sustainable development.

## 11. Financial Contribution.

The developer shall pay to the Planning Authority a financial contribution of €55, 170.72 (fiftyfive thousand one hundred and seventy Euros and seventy two cents), in respect of public infrastructure and facilities benefiting development within the area of the Planning Authority, that is provided, or intended to be provided by or on behalf of the authority, in accordance with the terms of the Development Contribution Scheme 2021 - 2025, made under Section 48 of the Planning and Development Acts 2000-2011 (as amended).

The contributions under the Scheme shall be payable prior to commencement of development or as otherwise agreed in writing by the Council. Contributions due in respect of permission for retention will become payable immediately on issue of the final grant of permission. Contributions shall be payable at the index adjusted rate pertaining to the year in which implementation of the planning permission is commenced.

REASON: The provision of such facilities will facilitate the proposed development. It is considered reasonable that the payment of a contribution be required, in respect of public infrastructure and facilities benefiting development in the area of the Planning Authority and that is provided, or that is intended will be provided, by or on behalf of the Local Authority.

NOTE RE: CONDITION - Please note that with effect from 1st January 2014, Irish Water is now the statutory body responsible for water services. Further details/clarification can be obtained from Irish Water at Tel. 01 6021000 or by emailing customerservice@water.ie.

### **NOTES :**

NOTE: The applicant is advised that under the provisions of Section 34 (13) of the Planning and Development Act 2000 (as amended) a person shall not be entitled solely by reason of a permission to carry out any development.

NOTE: The applicant or developer should ensure that all necessary measures shall be taken by the contractor to prevent the spillage or deposit of clay, rubble or other debris on adjoining roads during the course of the works and to ensure that any such instances arising are remedied immediately.

NOTE: A Roads Opening Licence must be obtained from South Dublin County Council prior to the commencement of any works in the public domain in order to comply with the Roads Act 1993, Section 13, paragraph 10. Under this Act, non-compliance constitutes an offence.

- (1) All buildings must be designed and constructed in accordance with the Building Regulations 1997.
- (2) Building Control Regulations require a Commencement Notice. Please log onto [www.localgov.ie](http://www.localgov.ie) and click on BCMS link.
- (3) A Fire Safety Certificate must be obtained from the Building Control Authority, where applicable.
- (4) Free Standing Walls must be designed and constructed in accordance with IS 325: Code of Practice for use of Masonry Part 1: Structural use of reinforced Masonry. The Owner must also ensure that the construction of all walls is supervised by a competent person.

Signed on behalf of South Dublin County Council.
