	Rev.	Description	Date	Initials																												
01 - External concrete structure, with rough cast textured finish to Architects selected specification and colour	07 - 450mm concrete plinth, with polished finish to Architects selected specification and colour																															
02 - External concrete fin-wall structure & integrated seating, with rough cast textured finish to Architects selected specification and colour	08 - Selected fenestration with frame and colour to match timber cladding colour																															
03 - Concrete roof slab with buff polished finish to Architects selected specification and colour	09 - Selected fenestration with external louvers to offer privacy and diffused natural light to reception chapel, and integrated bench seating to recessed facade																															
04 - Vertical hardwood timber cladding with closed joints to Architects selected specification	10 - Integrated bench seating with hardwood timber batten finish, and polished concrete base and colour																															
05 - Vertical hardwood timber cladding with irregular spacings (30-60mm) to Architects selected specification and colour	11 - Upright for Lightwell with polished concrete finish to Architects selected specification and colour																															
06 - Horizontal Hardwood timber datum line on building facade, expressing change of material and spacing of cladding	12 - Double swing hardwood entrance doors																															
	13 - Sunken area of podium slab for pebble/water feature at tree pit																															
	14 - Glazed balustrade to surround external building perimeter/cantilevered external deck
