Cypress Downs
Dublin 6w

NOTIFICATION TO GRANT PERMISSION
PLANNING & DEVELOPMENT ACT, 2000 (as amended) AND PLANNING
REGULATIONS THEREUNDER

Final Grant Order No.:	0818	Date of Final Grant:	30-Jun-2022
Decision Order No.:	0640	Date of Decision:	16-May-2022
Register Reference:	SD22B/0121	Date:	21-Mar-2022

Applicant: Ronan and Bethany Cotter

Development: First floor front and side extension over existing den with pitched roof, comprising of a bedroom; a single storey rear extension with flat roof and roof windows, comprising of a kitchen, utility and living area; a new roof window in existing side roof; remove existing chimney to front of house at den; increase vehicular entrance width and dish footpath to suit width; all associated site works.

Location: 10, The Court, Cypress Downs, Dublin 6w

Time extension(s) up to and including:

Additional Information Requested/Received: /

A Permission has been granted for the development described above, subject to the following conditions.

Conditions and Reasons:

1. Development in accordance with submitted plans and details.
The development shall be carried out and completed in its entirety fully in accordance with the plans, particulars and specifications lodged with the application, save as may be required by the other conditions attached hereto.
REASON: To ensure that the development shall be in accordance with the permission and that effective control be maintained.
2. (a) External Finishes.
All external finishes shall harmonise in colour or texture that is complementary to the house or its context.
REASON: In the interest of visual amenity.

(b) Restriction on Use.

The house and the proposed extension shall be jointly used as a single dwelling unit for residential purposes and shall not be sub-divided or used for any commercial purposes, and the extension shall not be sold, let (including short-term letting), leased or otherwise transferred or conveyed, by way of sale, letting or otherwise save as part of the single dwelling unit.

REASON: To prevent unauthorised development.

(c) Drainage - Irish Water.

Prior to commencement of development the applicant shall submit the following information to the Planning Authority for written approval:

(i). The applicant has proposed to build an extension over the existing private foul drain to the rear of the property however it is unclear where any existing access manholes are located on this drain. The applicant shall submit a drawing showing existing and proposed foul water drainage layouts up to and including the point of connection to the public foul water sewer. The drawing shall include the location of all AJs, manholes, pipe size, material type and direction of flow. The draining shall demonstrate how access will be maintained to the pipe post development works have been carried out.

(ii). All development shall be carried out in compliance with Irish Water Standards codes and practices.

(iii). Include water butts as part of SuDS (Sustainable Drainage Systems) for the proposed development.

(iii). The Developer shall ensure that there is complete separation of the foul and surface water drainage for the proposed development.

(iv). All works for this development shall comply with the requirements of the Greater Dublin Regional Code of Practice for Drainage Works.

(v). The water supply and drainage infrastructure, shall comply with the requirements of Irish Water.

(vi). There shall be complete separation of the foul and surface water drainage systems, both in respect of installation and use. All new precast surface water manholes shall have a minimum thickness surround of 150mm Concrete Class B.

(vii). All drainage works for this development shall comply fully with the Greater Dublin Regional Code of Practice for Drainage Works.

REASON: In the interests of public health, the proper planning and sustainable development of the area and in order to ensure adequate water supply and drainage provision.

(d) Minimise Air Blown Dust.

During the construction and or demolition phase of the development, Best Practicable Means shall be employed to minimise air blown dust being emitted from the site. This shall include covering skips and slack-heaps, netting of scaffolding, daily washing down of pavements or other public areas, and any other precautions necessary to prevent dust nuisances. The applicant/developer shall comply with British Standard B.S. 5228 Noise Control on Construction and Open sites and British Standard B.S. 6187 Code of Practice for demolition.

REASON: In the interest of public health and to uphold the Council's policies set out in the South Dublin County Council Development Plan.

(e) Construction Noise and Hours.

To control, limit and prevent the generation of unacceptable levels of Environmental Noise Pollution from occurring during construction activity, Equipment or Machinery (to include pneumatic drills, on-site construction vehicles, generators, etc.) that could give rise to unacceptable levels of noise pollution as set out generally for evening and night-time in S.I.

No. 140/2006 - Environmental Noise Regulations 2006 shall only be operated on the site between 7.00 hours and 19.00 hours weekdays and between 9.00 hours and 13.00 hours on Saturdays. No works shall take place at any time on Sundays, Bank Holidays or Public Holidays.

Any construction work outside these hours that could give rise to unacceptable levels of noise pollution shall only be permitted following a written request to the Planning Authority and the subsequent receipt of the written consent of the Planning Authority, having regard to the reasonable justification and circumstances and a commitment to minimise as far as practicable any unacceptable noise outside the hours stated above. In this respect, the applicant or developer shall also comply with BS 5228:2009 Noise and Vibration Control on Construction and Open Sites, and have regard to the World Health Organisation (WHO) – Guidelines for Community Noise (1999).

The applicant or developer shall also endeavour to engage in local consultation in respect of any noise sensitive location within 30 metres of the development as approved prior to construction activity commencing on site. Such noise sensitive locations should be provided with the following:

- Schedule of works to include approximate timeframes
- Name and contact details of contractor responsible for managing noise complaints
- Hours of operation- including any scheduled times for the use of equipment likely to be the source of significant noise.

REASON: In the interest of public health by the prevention of unacceptable levels of noise pollution which could interfere with normal sleep and rest patterns and/or when people could reasonably expect a level of quietness, the proper planning and sustainable development of the area and to uphold the Council's amenity policies set out in the South Dublin County Council Development Plan.

3. Vehicular entrance.

Prior to commencement of development the applicant shall submit the following information to the Planning Authority and such amendments shall be implemented fully on site:

- (i). A revised layout of not less than 1:100 scale, showing a maximum width of 3.5 metres for the proposed vehicular entrance.

REASON: In the interest of preserving the loss of an on-street car parking space and in the interest of road safety to limit the speed of vehicles accessing and egressing from the subject site. In the interest of proper planning and sustainable development.

4. Tree Bond.

A maximum of two weeks from the date of the Commencement Notice and prior to the commencement of works on site, a Bond or bank draft to the value of €1,500 shall be lodged with South Dublin County Council as a security for the protection of the existing street tree in the grassed margin during the course of the development works. This bond will be released twelve months after the completion of all site works once it has been ascertained that the tree specified for retention has been preserved in its prior condition and has suffered no damage and the developer has complied with the requirements of the Planning Authority in relation to tree protection.

REASON: In the interest of tree protection and the proper planning and sustainable development of the area.

5. Tree Protection.

- a) The existing street tree(s) in the adjoining grass verge(s) to the front of the site shall be retained and protected, both above and below ground, from damage during construction works.
- b) No building materials, machinery, soil or debris shall be stored or deposited on the grass verges at any time during the construction of the proposed development.
- c) Any damaged roadside margins shall be reinstated.

REASON: In the interests of visual amenity and of protecting existing trees from inappropriate storage, mixing or application of cement-based products or other phytotoxic materials that are likely to have a detrimental effect upon tree(s) in the grassed margin.

NOTE: The applicant is advised that under the provisions of Section 34 (13) of the Planning and Development Act 2000 (as amended) a person shall not be entitled solely by reason of a permission to carry out any development.

NOTE: The applicant or developer should ensure that all necessary measures shall be taken by the contractor to prevent the spillage or deposit of clay, rubble or other debris on adjoining roads during the course of the works and to ensure that any such instances arising are remedied immediately.

NOTE: Waste, arising from the site, must be kept to a minimum, segregated where appropriate, and disposed in accordance with the Waste Management Regulations 2007, as amended. Transport of such waste, must be by an authorised waste permit holder. Waste disposal records must be maintained and made available, for inspection by Authorised Persons appointed under the Waste Management Act 1996, as amended. A Waste Transfer Form shall accompany the transportation of all hazardous waste arising from the construction works.

NOTE: A Roads Opening Licence must be obtained from South Dublin County Council prior to the commencement of any works in the public domain in order to comply with the Roads Act 1993, Section 13, paragraph 10. Under this Act, non-compliance constitutes an offence.

- (1) All buildings must be designed and constructed in accordance with the Building Regulations 1997.
- (2) Building Control Regulations require a Commencement Notice. Please log onto www.localgov.ie and click on BCMS link.
- (3) A Fire Safety Certificate must be obtained from the Building Control Authority, where applicable.
- (4) Free Standing Walls must be designed and constructed in accordance with IS 325: Code of Practice for use of Masonry Part 1: Structural use of reinforced Masonry. The Owner must also ensure that the construction of all walls is supervised by a competent person.

Signed on behalf of South Dublin County Council.
