Record of Executive Business and Chief Executive's Order

Reg. Reference: SD22B/0493 **Application Date:** 10-Nov-2022
Submission Type: New Application **Registration Date:** 10-Nov-2022
Correspondence Name and Address: David Coffey 42, Brookhaven Park,,
Blanchardstown,, Dublin 15.
Proposed Development: Proposed two storey extension with single storey
element to rear of house and window to gable end at
1st Floor also all associated site works
Location: 126B, Sarsfield Park, Lucan, Dublin
Applicant Name: John Gorman & Denise McBride
Application Type: Permission

(NM)

Description of Site and Surroundings:

Site Area

Stated as 0.0214ha.

Site Description

The property is located on Sarsfield Park in Lucan within close proximity to the Lucan Road and N4. The subject site contains a semi-detached, two-storey dwelling with a pitched roof and small green to the south. The area is primarily residential in nature with a relatively uniform building line.

Proposal:

The development will consist of:

- Two storey extension with single storey element to rear of house and window to gable end at 1st Floor.
- Total area of works 49.3sqm.

Zoning:

The site is subject to zoning objective 'RES' - 'To protect and/or improve Residential Amenity'.

Consultations:

Irish Water - No report received at time of writing.

Water Services – No report received at time of writing.

Roads Department – No objections.

Comhairle Chontae Atha Cliath Theas

Record of Executive Business and Chief Executive's Order

SEA Sensitivity Screening

No overlap with relevant layers.

Submissions/Observations /Representations

1 submission was received which can be summarised as follows:

- Roof of the first floor extension would have a negative effect on light
- Privacy of neighbouring garden would be effected as the proposed 1st floor extension protrudes 5m past the rear wall

The submission received has been reflected in this report.

Relevant Planning History

Subject Property:

S00A/0099 – **Permission Granted** for demolition of existing garage and construction of attached two storey, 3 bed house to side and new vehicular entrance to existing house.

Adjacent sites:

SD17B/0289 - 2, Sarsfield Park, Lucan, Co. Dublin – **Permission Granted** for new side wall and access door to front/side of existing dwelling to enclose existing side passage on ground floor and construction of a new two storey extension with hipped roof & part single storey extension with flat roof to rear of existing dwelling.

Relevant Enforcement History

None.

Pre-Planning Consultation

None.

Relevant Policy in South Dublin County Council Development Plan 2022 - 2028

6.8.2 Residential Extensions

Policy H14: Residential Extensions Support the extension of existing dwellings subject to the protection of residential and visual amenities.

H14 Objective 1: To favourably consider proposals to extend existing dwellings subject to the protection of residential and visual amenities and compliance with the standards set out in Chapter 13 Implementation and Monitoring and the guidance set out in the South Dublin County Council House Extension Design Guide, 2010 (or any superseding guidelines).

Policy G11: Overarching

G11 Objective 4: To require development to incorporate GI as an integral part of the design and layout concept for all development in the County including but not restricted to residential, commercial and mixed use through the explicit identification of GI as part of a landscape plan,

Comhairle Chontae Atha Cliath Theas

PR/0042/23

Record of Executive Business and Chief Executive's Order

identifying environmental assets and including proposals which protect, manage and enhance GI resources providing links to local and countywide GI networks.

GI2 Objective 4: To integrate GI, and include areas to be managed for biodiversity, as an essential component of all new developments in accordance with the requirements set out in Chapter 12: Implementation and Monitoring and the policies and objectives of this chapter.

GI4 Objective 1: To limit surface water run-off from new developments through the use of Sustainable Drainage Systems (SuDS) using surface water and nature-based solutions and ensure that SuDS is integrated into all new development in the County and designed in accordance with South Dublin County Council's Sustainable Drainage Explanatory Design and Evaluation Guide, 2022.

Section 11.2.1 Sustainable Urban Drainage Systems (SuDS)

Policy IE3: Surface Water and Groundwater

Manage surface water and protect and enhance ground and surface water quality to meet the requirements of the EU Water Framework Directive.

Chapter 12 Implementation and Monitoring

Section 12.5.8 Residential Consolidation

Extensions

The design of residential extensions should have regard to the permitted pattern of development in the immediate area alongside the South Dublin County Council House Extension Guide (2010) or any superseding standards.

Relevant Government Guidelines

Guidelines for Planning Authorities on Sustainable Residential Development in Urban Areas, Department of the Environment and Local Government (2009).

Urban Design Manual: A Best Practice Guide, A Companion Document to the Guidelines for Planning Authorities on Sustainable Residential Development in Urban Areas, Department of the Environment, Heritage and Local Government, (2008).

PR/0042/23

Record of Executive Business and Chief Executive's Order

Assessment

The main issues for assessment are

- Zoning and Council Policy
- Residential and Visual Amenity
- Drainage
- Roads
- Green Infrastructure
- Appropriate Assessment
- Environmental Impact Assessment

Zoning and Council Policy

A development comprising of a 2-storey rear extension would be consistent in principle with zoning objective 'RES' – 'To protect and/or improve residential amenity', subject to the relevant provisions in the County Development Plan **2022-2028** and the House Extension Design Guide.

Residential and Visual Amenity

Ground Floor Extension

The proposed ground floor extension extends 8m from the rear wall of the existing dwelling which although is extensive, is not overbearing in the site context and there will be a sufficient rear private amenity space for existing and future occupants. The distance to the attached dwelling to the northwest is 350mm with a ridge height of 3.216m to the top of the parapet which is acceptable. There is one window at ground floor level on the southeastern gable wall overlooking the small green area which is suitable. Overall, the proposed ground floor extension would not be injurious to the residential and visual amenities of the area.

First Floor Extension

The proposed first floor extension protrudes approximately 4.75m from the existing rear wall with a hip-pitched roof with a ridge height of 6.5m which sits below the ridge of the existing dwelling. The proposed gap at ground floor is continued at first floor level of 350mm to the attached dwelling which goes some way to mitigate the overbearing impact and sense of enclosure resulting in an acceptable level of overshadowing, especially given that the neighbouring dwelling has a ground floor extension that extends past the 4.75m mark. Also, there is a gap of approximately 1.5m from the side of the proposed first floor extension and the first floor window of the attached property which is acceptable. There is a first floor window proposed on the southeastern gable wall which will be obscured as it leads on to a WC and a new window on the existing dwellings southeastern gable. The submission made on the proposed development has been considered but given the sympathetic design approach, the proposed first floor extension is considered acceptable.

Comhairle Chontae Atha Cliath Theas

PR/0042/23

Record of Executive Business and Chief Executive's Order

Drainage

No report was received from Irish Water or Surface Water Drainage at the time of writing. Notwithstanding this, the applicant should be requested to provide appropriate Sustainable Urban Drainage Systems treatments for the proposed development which should be confirmed by **condition**.

Roads

The Roads Department have no objections which is appropriate as there does not appear to be changes to the access arrangements as a result of the proposed development.

Green Infrastructure

The subject application provides for a relatively small increase in the footprint of the subject house on an established suburban residential site. The site appears to be located within a Primary GI Corridor (Liffey Valley Corridor) as identified in the Green Infrastructure Strategy Map (Figure 4.4 and fully detailed in Appendix 4 of the South Dublin County Development Plan 2022-2028) but given the size, scale and nature of the proposed development, a full GI assessment for the proposed development is not required.

Screening for Appropriate Assessment

The subject site is not located within nor within close proximity to a European site. The proposed development is located within an established residential area and comprises of the demolition of a two storey rear extension.

Having regard to:

- the small scale and domestic nature of the development,
- the location of the development in a serviced urban area, and
- the consequent absence of a pathway to the European site,

it is considered that the proposed development would not be likely to have a significant effect individually, or in-combination with other plans and projects, on the Natura 2000 network and appropriate assessment is not therefore required.

Environmental Impact Assessment (EIAR)

Having regard to the modest nature of the development, and the distance of the site from nearby sensitive receptors, there is no real likelihood of significant effects on the environment arising from the proposed development. The need for environmental impact assessment can, therefore, be excluded at preliminary examination and a screening determination is not required.

Conclusion

Having regard to the provisions of the South Dublin County Development Plan 2022 – 2028 and the overall design and scale of the proposed development, it is considered that, subject to the **conditions** set out below, the proposed development would not seriously injure the amenities of the area or of property in the vicinity and would, therefore, be in accordance with the proper planning and sustainable development of the area.

Recommendation

I recommend that a decision be made pursuant to the Planning & Development Act 2000, as amended, for the reasons set out in the First Schedule hereto, to Grant Permission for the said development in accordance with the said plans and particulars, subject to the condition(s) specified in the Second Schedule hereto, the reasons for the imposition of the said condition(s) being as set out in the said Second Schedule.

FIRST SCHEDULE

It is considered that the proposed development accords with the policies and objectives of South Dublin County Council, as set out in the South Dublin County Council Development Plan 2022 - 2028 and subject to the conditions set out hereunder in the Second Schedule is hereby in accordance with the proper planning and sustainable development of the area.

SECOND SCHEDULE

Conditions and Reasons

1. Development in accordance with submitted plans and details.
The development shall be carried out and completed in its entirety fully in accordance with the plans, particulars and specifications lodged with the application, save as may be required by the other conditions attached hereto.
REASON: To ensure that the development shall be in accordance with the permission and that effective control be maintained.
2. Sustainable Urban Drainage Systems
The applicant has not proposed any SuDS (Sustainable Drainage Systems) features. Prior to the commencement of development, the applicant shall submit the following:
 - a) a drawing in plan and cross sectional views clearly showing proposed Sustainable Drainage Systems (SuDS) features for the development, for the written agreement of the Planning Authority. The applicant shall include SuDS (Sustainable urban Drainage Systems) features for the proposed development such as but not limited to the following:
Rain Gardens , Planter boxes with overflow connection to the public surface water sewer.
 - Permeable Paving
 - Grasscrete
 - Green Roofs

Comhairle Chontae Atha Cliath Theas

PR/0042/23

Record of Executive Business and Chief Executive's Order

- Rain gardens
- Swales
- Planter Boxes
- Water Butts
- Other such SuDS

REASON: To ensure the adequate provision of SuDS

3. (a) External Finishes.

All external finishes shall harmonise in colour or texture that is complementary to the house or its context.

REASON: In the interest of visual amenity.

(b) Restriction on Use.

The house and the proposed extension shall be jointly used as a single dwelling unit for residential purposes and shall not be sub-divided or used for any commercial purposes, and the extension shall not be sold, let (including short-term letting), leased or otherwise transferred or conveyed, by way of sale, letting or otherwise save as part of the single dwelling unit.

REASON: To prevent unauthorised development.

(c) Drainage - Irish Water.

(i) The water supply and drainage infrastructure, shall comply with the requirements of Irish Water.

(ii) There shall be complete separation of the foul and surface water drainage systems, both in respect of installation and use. All new precast surface water manholes shall have a minimum thickness surround of 150mm Concrete Class B.

(iii) All drainage works for this development shall comply fully with the Greater Dublin Regional Code of Practice for Drainage Works.

REASON: In the interests of public health, the proper planning and sustainable development of the area and in order to ensure adequate water supply and drainage provision.

(d) Minimise Air Blown Dust.

During the construction and or demolition phase of the development, Best Practicable Means shall be employed to minimise air blown dust being emitted from the site. This shall include covering skips and slack-heaps, netting of scaffolding, daily washing down of pavements or other public areas, and any other precautions necessary to prevent dust nuisances. The applicant/developer shall comply with British Standard B.S. 5228 Noise Control on Construction and Open sites and British Standard B.S. 6187 Code of Practice for demolition.

REASON: In the interest of public health and to uphold the Council's policies set out in the South Dublin County Council Development Plan.

(e) Construction Noise and Hours.

To control, limit and prevent the generation of unacceptable levels of Environmental Noise Pollution from occurring during construction activity, Equipment or Machinery (to

Comhairle Chontae Atha Cliath Theas

PR/0042/23

Record of Executive Business and Chief Executive's Order

include pneumatic drills, on-site construction vehicles, generators, etc.) that could give rise to unacceptable levels of noise pollution as set out generally for evening and night-time in S.I. No. 140/2006 - Environmental Noise Regulations 2006 shall only be operated on the site between 7.00 hours and 19.00 hours weekdays and between 9.00 hours and 13.00 hours on Saturdays. No works shall take place at any time on Sundays, Bank Holidays or Public Holidays.

Any construction work outside these hours that could give rise to unacceptable levels of noise pollution shall only be permitted following a written request to the Planning Authority and the subsequent receipt of the written consent of the Planning Authority, having regard to the reasonable justification and circumstances and a commitment to minimise as far as practicable any unacceptable noise outside the hours stated above. In this respect, the applicant or developer shall also comply with BS 5228:2009 Noise and Vibration Control on Construction and Open Sites, and have regard to the World Health Organisation (WHO) – Guidelines for Community Noise (1999).

The applicant or developer shall also endeavour to engage in local consultation in respect of any noise sensitive location within 30 metres of the development as approved prior to construction activity commencing on site. Such noise sensitive locations should be provided with the following:

- Schedule of works to include approximate timeframes
- Name and contact details of contractor responsible for managing noise complaints
- Hours of operation- including any scheduled times for the use of equipment likely to be the source of significant noise.

REASON: In the interest of public health by the prevention of unacceptable levels of noise pollution which could interfere with normal sleep and rest patterns and/or when people could reasonably expect a level of quietness, the proper planning and sustainable development of the area and to uphold the Council's amenity policies set out in the South Dublin County Council Development Plan.

4. Financial Contribution.

The developer shall pay to the Planning Authority a financial contribution of €1, 903.22 (One thousand, nine hundred and three euro and twenty-two cent), in respect of public infrastructure and facilities benefiting development within the area of the Planning Authority, that is provided, or intended to be provided by or on behalf of the authority, in accordance with the terms of the Development Contribution Scheme 2021 - 2025, made under Section 48 of the Planning and Development Acts 2000-2011 (as amended). The contributions under the Scheme shall be payable prior to commencement of development or as otherwise agreed in writing by the Council. Contributions due in respect of permission for retention will become payable immediately on issue of the final grant of permission. Contributions shall be payable at the index adjusted rate pertaining to the year in which implementation of the planning permission is commenced.

REASON: The provision of such facilities will facilitate the proposed development. It is considered reasonable that the payment of a contribution be required, in respect of public

Comhairle Chontae Atha Cliath Theas

PR/0042/23

Record of Executive Business and Chief Executive's Order

infrastructure and facilities benefiting development in the area of the Planning Authority and that is provided, or that is intended will be provided, by or on behalf of the Local Authority.

NOTE RE: CONDITION - Please note that with effect from 1st January 2014, Irish Water is now the statutory body responsible for water services. Further details/clarification can be obtained from Irish Water at Tel. 01 6021000 or by emailing customerservice@water.ie.

NOTE: The applicant is advised that under the provisions of Section 34 (13) of the Planning and Development Act 2000 (as amended) a person shall not be entitled solely by reason of a permission to carry out any development.

NOTE: The applicant or developer should ensure that all necessary measures shall be taken by the contractor to prevent the spillage or deposit of clay, rubble or other debris on adjoining roads during the course of the works and to ensure that any such instances arising are remedied immediately.

NOTE: Adequate provision should be made to facilitate access to and the use of the development, buildings, facilities and services by disabled persons, including sanitary conveniences. The minimum requirements should be as per Part M of the Building Regulations.

NOTE: The applicant/developer of these lands is advised that in the event of encroachment or oversailing of adjoining property, the consent of the adjoining property owner is required.

NOTE: Notwithstanding any grant of planning permission; if an applicant requires permission to access local authority land (e.g. public footpaths, public open space or roadways) in order to access utilities, or for any other reason; the applicant should apply via <https://maproadroadworkslicensing.ie/MRL/> for a licence from the Local Authority to carry out those works.
