To whom it concerns,

I wish to support this application. I note that a previous application was rejected, however the applicant has reduced the number of children to be catered for and also amended the times of opening and closing.

Given the need for childcare in the area and given that much of the client base is likely to be local, there should not be a negative impact in terms of vehicular traffic and the net contribution to the community should be positive.

Trusting all these issues can be addressed in the Council's deliberations.

Thanking you for your time and consideration.

Yours sincerely,

ClIr Paul Gogarty
