to facilitate access to lands in Development Area 5 Tubber Lane). The development also includes part (c.450metres) of the north-south road (referred to as 'Central Boulevard' in the Planning Scheme) that will replace Tandy's Lane along the eastern boundary of the site. This road will make provision for vehicular traffic, bus lanes/stops, pedestrian footpaths, cycle paths and 2 access points into the current application site. Permission is also sought for 552 parking spaces, bin storage areas, communal and private open spaces (including balconies, terraces, gardens, courtyards and roof terraces), hard and soft landscaping, boundary treatment and all associated site and development works. One dwelling and associated outbuilding (totalling 94sq.m) located to the south eastern corner of the site, at the bend of Tandy's Lane are to be demolished to accommodate the development. Temporary permission for 3 years is sought for two 4.5m high triangular pylon marketing signs to be erected in the north eastern and south eastern corner of the site addressing 'Shackleton Drive'/Central Boulevard and Central Boulevard, respectively. At this site (c.8.85 hectares) at Adamstown, Lucan Co. Dublin. The application relates to part of the lands within Adamstown SDZ Planning Scheme (2014) known as Tobermaclugg Village (Development Area 4) bounded to the north by approved east-west distributor road (approved under Reg Ref: SDZ16A/0003 - under construction) to the south by the proposed Airlie Park Public Open Space, to the east by a new road referred to as Central Boulevard and to the west by undeveloped lands designated in the Planning Scheme as Tobermaclugg Local Centre.

**NB:** Condition no. 17 of SDZ16A/0003 is relevant to the subject application as it states:

*'Notwithstanding the exempted development provisions of the Planning and Development Regulations, 2001, and any statutory provision replacing or amending them, no development described in Classes 1 or 3 of Part 1 of Schedule 2 to those Regulations shall take place within the curtilage of the houses without a prior grant of permission.*

*REASON: In order to ensure that a reasonable amount of rear garden space is retained for the benefit of the occupants of the dwellings.*

### **South Dublin County Council House Extension Design Guide (2010)**

The House Extension Design Guide contains the following guidance on house extensions, including for porches and front extensions:

#### **Elements of Good Extension Design:**

- *Respect the appearance and character of the house and local area;*
- *Provide comfortable internal space and useful outside space;*
- *Do not overlook, overshadow, or have an overbearing affect on properties next door;*
- *Consider the type of extension that is appropriate and how to integrate it; and*
- *Incorporate energy efficient measures where possible.*

#### **Rear extensions:**

- *Match or complement the style, materials, and details of the main house unless there are good architectural reasons for doing otherwise.*
- *Match the shape and slope of the roof of the existing house, although flat-roofed single storey extensions may be acceptable if not prominent from a nearby public road or area.*
- *Make sure enough rear garden is retained.*
- *Do not create a higher ridge level than the roof of the main house.*

### **Relevant Government Guidelines**

**Project Ireland 2040 National Planning Framework**, Government of Ireland, 2018.

**Regional, Spatial & Economic Strategy 2020-2032 (RSES)**, Eastern & Midlands Regional Assembly (2019)

- Section 5 – Dublin Metropolitan Area Strategic Plan, in Regional, Spatial and Economic Strategy 2019 – 2031.

**Guidelines for Planning Authorities on Sustainable Residential Development in Urban Areas**, Department of the Environment and Local Government (2009).

**Appropriate Assessment of Plans and Projects in Ireland – Guidance for Planning Authorities**, Department of the Environment, Heritage, and Local Government, (2009).

**OPR Practice Note PN01 Appropriate Assessment Screening for Development Management** (March 2021).

### **Assessment**

The main issues for assessment relate to:

- Zoning and Council Policy.
- Residential and Visual Amenity
- Drainage and Water Services.
- Appropriate Assessment Screening.
- Environmental Impact Assessment.

### ***Zoning and Council Policy***

The SDZ Planning Scheme requires that development be laid out in a manner which adheres to a specific built form. Extensions to existing residential development within the SDZ are assessed against Council policy in relation to extensions to dwelling houses, as set out in South Dublin County Council House Extension Design Guide (2010), and in the Development Plan. The proposed extension shall be assessed in the context of these policies in the forthcoming sections.

### ***Residential & Visual Amenity***

The proposed extension to the rear would measure 6.75m long and 4.1m wide. It would have a pitched roof, with an eaves height of 2.7m, 3.8m to ridge. The proposal would be situated adjacent to the boundary with No12. It is note that the proposal is relatively long, however, the eaves height mitigates this, and it is considered the impact on No 12 is acceptable. No 1 Shackleton cross is

## Record of Executive Business and Chief Executive's Order

situated to the rear of the proposal. It is noted that there are no ground floor windows at this location and the impact of the proposal is, therefore, considered acceptable.

It is apparent from the rear elevations submitted, that there are no rear windows at ground floor level of the dwelling to be extended and the existing patio doors would be replaced by the extension, which contains a number of windows overlooking the garden area. The playroom / office extension would be attached to the living room, which also received light from a window via the front of the dwelling.

The extension would increase shadowing on the garden of the dwelling. It is noted that there is an existing shed, to the side, behind the fencing which delineates the private amenity area. The Planning Authority is concerned about the level of rear amenity provision for the dwelling. It is noted that the shed is not indicated on the layout plan.

The applicant is, therefore, requested to:

- Indicate whether it is proposed to retain the shed. If it is, it should be included on the layout plan.
- Provide a layout plan indicating the location and sq.m of the rear amenity space.

It is noted that there are some discrepancies in the plans and the north elevation is indicated as being the south elevation. The applicant is requested to submit revised plans correcting any errors via **additional information**.

### *Drainage and Water Services*

The Drainage and Water Services Department and Irish Water have no objections to the proposed development, subject to conditions.

### **Environmental Impact Assessment**

Having regard to the modest nature of the proposed development, and the distance of the site from nearby sensitive receptors, there is no real likelihood of significant effects on the environment arising from the proposed development. The need for environmental impact assessment can, therefore, be excluded at preliminary examination and a screening determination is not required.

### **Screening for Appropriate Assessment**

The subject site is not located within nor within close proximity to a European site. The proposed development is located within an established residential area and comprises a single storey rear extension. Having regard to:

- the small scale and domestic nature of the development,
- the location of the development in a serviced urban area, and
- the consequent absence of a pathway to the European site,

# Comhairle Chontae Atha Cliath Theas

PR/0073/23

## Record of Executive Business and Chief Executive's Order

it is considered that the proposed development would not be likely to have a significant effect individually, or in-combination with other plans and projects, on the Natura 2000 network and appropriate assessment is not therefore required.

### Other Considerations

#### Development Contributions

Residential Extension (Single Storey Rear) 22.5 sq.m  
40sq.m exemption

Assessable area nil.

#### SEA Monitoring

<b>SEA Monitoring Information</b>	
<b>Building Use Type Proposed</b>	<b>Floor Area (sq.m)</b>
Residential Extension (Single Storey Rear)	22.5 sq m
<b>Land Type</b>	<b>Site Area (Ha)</b>
Brownfield / Urban Consolidation	0.02355 Ha

### Conclusion

Having regard to the provisions of the South Dublin County Council Development Plan and the overall design and scale of proposed development it is considered that additional information should be requested to ensure the proposed development would not seriously injure the amenities of the area or of property in the vicinity.

### Recommendation

I recommend that **ADDITIONAL INFORMATION** be requested from the applicant with regard to the following:

1. The applicant is requested to:
  - Indicate whether it is proposed to retain the shed. If it is, it should be included on the layout plan
  - Provide a layout plan indicating the location and sq.m of the rear amenity space.

It is noted that there are some discrepancies in the plans and the north elevation is indicated as being the south elevation. The applicant is requested to submit revised plans correcting any errors.
