**Reg. Ref. :** SD22A/0303/C3  
**Proposal :** Construction of a Volatile Organic Compound (VOC) Abatement system comprising of a thermal oxidiser (TO), associated plant equipment and scrubbers positioned on a bunded concrete plinth with a maximum single stack height of 12m along with two access platforms at 2.5 high and 5.0m high used for maintenance only; The system is set within a 489sq.m (including a bunded area of 213sq.m) concrete compound enclosed by a 2.4m high paladin weldmesh black fence to match the existing utilities perimeter fence; 135sq.m single storey utilities workshop will sit adjacent to the Volatile Organic Compound (VOC) abatement system compound with associated hardstanding area and soakpit; 55m (L) x 3.2m (W) x 5.6m (H) pipe rack extension with the addition of a second tier extension 118.6m (L) X 3.2M (W) 1.2m (H) to the existing pipe rack is required to service the new VOC abatement system compound; a contractor's compound 3, 420sq.m comprising single stacked portacabins, workshops, parking for 30 contractors, materials delivery and set down area; the compound will be enclosed by a 2.4m tall paladin weldmesh black fence; modifications to the existing internal access road will include the addition of a new access road and footpath around the VOC abatement system compound and utilities workshop; a permanent pedestrian crossing including associated signage at the existing access road giving access between the contractor's compound and the voe abatement system compound; modifications to the existing site lighting, signage, surface water, foul and process wastewater drainage, hard and soft landscaping including a 3m high planted berm to the north of the contractor's compound; An EIAR (Environmental Impact Assessment Report) will be submitted with the application; this application relates to development which comprises an activity requiring an Industrial Emissions Licence in accordance with the First Schedule of the EPA Act 1922 as amended.

**Condition 3; Prior to the commencement of development on the site, the applicant shall submit details of flood management and mitigation measures on the site for the written agreement of the planning authority for the operational phase of the development. These details shall set out how the applicant will ensure the development hereby approved will not obstruct important flow paths and how the storage of any hazardous substances (if applicable) connected with this development will be managed, as well as how an incident of inundation can be managed and recovery delivered quickly in an environmentally-robust manner having regard to sensitive water-based receptors. The submitted details shall demonstrate how consultation(s) with Inland Fisheries Ireland informed the preparation of these details.**

**Location :** Grange Castle Business Park, Grange Castle, Dublin 22  
**Applicant :** Takeda Ireland Limited  
**Application Type:** Compliance with Conditions

Dear Sir/Madam,

I refer to your submission received on 20-Dec-2022 to comply with Condition No 3 of Grant of Permission No. SD22A/0303, in connection with the above.

In this regard I wish to inform you that the submission received is satisfactory.

Yours faithfully,

M.C.
