**NOTIFICATION TO GRANT PERMISSION
PLANNING & DEVELOPMENT ACT, 2000 (as amended) AND PLANNING
REGULATIONS THEREUNDER**

Final Grant Order No.:	0053	Date of Final Grant:	21-Jan-2022
Decision Order No.:	1523	Date of Decision:	29-Nov-2021
Register Reference:	SD21A/0185	Date:	02-Nov-2021

Applicant: KN Network Services (Ire.) Ltd.

Development: Full demolition of existing two storey 463sq.m building to make way for future development, subject to future separate planning application.

Location: Unit 19, Crag Avenue, Clondalkin Industrial Estate, Dublin 22

Time extension(s) up to and including:

Additional Information Requested/Received: 30-Aug-2021 / 02-Nov-2021

A Permission has been granted for the development described above, subject to the following conditions.

Conditions and Reasons:

1. Development to be in accordance with submitted plans and details.
The development shall be carried out and completed in its entirety in accordance with the plans, particulars and specifications lodged with the application, and as amended by Further Information received on the 2nd of November 2021, save as may be required by the other conditions attached hereto.
REASON: To ensure that the development shall be in accordance with the permission, and that effective control be maintained.
2. Storage
The subject site shall not be used for the storage of any material without prior consent from the Planning Authority.
REASON: In the interest of visual amenity and traffic safety.
3. Construction and Demolition Waste Management Plan
Prior to commencement of demolition works the applicant/developer shall submit for the written agreement of the Planning Authority a detailed proposal for Project Construction and

Demolition Waste Management Plans. This proposal shall reflect the waste management hierarchy, with waste prevention and minimisation being the first priority succeeded by reuse and recycling. The plan should comply with the relevant legislation, policy and guidance in relation to waste management.

REASON: In the interest of environmental protection and public health.

4. Drainage

(a) The water supply and drainage infrastructure, shall comply with the requirements of Irish Water.

(b) There shall be complete separation of the foul and surface water drainage systems, both in respect of installation and use. All new precast surface water manholes shall have a minimum thickness surround of 150mm Concrete Class B.

(c) All works for this development shall comply with the requirements of the Greater Dublin Regional Code of Practice for Drainage Works.

REASON: In the interests of public health, the proper planning and sustainable development of the area and in order to ensure adequate water supply and drainage provision.

5. Protection/Retention of Existing Trees.

Existing trees shall be retained and shall be protected from damage during demolition of the building:

(a) All existing trees to be retained shall be enclosed by stout protective fencing, located at a suitable distance as detailed in BS: 5837 – 2012 – ‘Trees in Relation to Design, Demolition and Construction’. This protective fencing shall be erected no later than two weeks of the date of any Commencement Notice within the meaning of Part II of the Building Control Regulations 1997 and prior to the commencement of any works on site, and before any materials are brought onto site and prior to the commencement of any works associated the proposed development.

(b) The Planning Authority shall be notified in writing when protective measures are commencing and also in writing when they have been completed.

(c) The protective fencing shall at all times be maintained intact and in good order for the duration of the construction works. Any damage caused to the protective fence shall be repaired immediately.

(d) No materials shall be stored, no rubbish dumped, no fires lit and no buildings erected inside the protective fence(s), nor shall any changes in ground level be made within the fence(s) unless previously agreed in writing by the Planning Authority.

(e) In the event that trees become damaged or otherwise defective during construction period, South Dublin County Council shall be notified as soon as reasonably practicable and remedial action agreed and implemented at the developer own expense.

(f) Any necessary tree felling and surgery works shall be first agreed on-site and subsequently in writing with the Planning Authority prior to the commencement of the development.

(g) The proposed location of the site compound, and the exact routes of all water mains, foul and surface water sewers shall be marked out on site, and agreed with the Planning Authority’s Public Realm Section prior to the commencement of any works on site, so as to minimise damage to trees which could result from excavation works, storage of materials and construction of temporary access roadway.

REASON: In the interests of proper planning and sustainable development, compliance with Development Plan policy, visual amenity and the protection of existing trees and biodiversity.

6. Minimise Air Blown Dust.

During the construction and or demolition phase of the development, Best Practicable Means

shall be employed to minimise air blown dust being emitted from the site. This shall include covering skips and slack-heaps, netting of scaffolding, daily washing down of pavements or other public areas, and any other precautions necessary to prevent dust nuisances. The applicant/developer shall comply with British Standard B.S. 5228 Noise Control on Construction and Open sites and British Standard B.S. 6187 Code of Practice for demolition. REASON: In the interest of public health and to uphold the Council's policies set out in the South Dublin County Council Development Plan.

7. Construction Noise and Hours.

To control, limit and prevent the generation of unacceptable levels of Environmental Noise Pollution from occurring during construction activity, no Equipment or Machinery (to include pneumatic drills, on-site construction vehicles, generators, etc.) that could give rise to unacceptable levels of noise pollution as set out generally for evening and night-time in S.I. No. 140/2006 - Environmental Noise Regulations 2006 shall be operated on the site before 7.00 hours on weekdays and 9.00 hours on Saturdays nor after 19.00 hours on weekdays and 13.00 hours on Saturdays, nor at any time on Sundays, Bank Holidays or Public Holidays. Any construction work outside these hours that could give rise to unacceptable levels of noise pollution shall only be permitted following a written request to the Planning Authority and the subsequent receipt of the written consent of the Planning Authority, having regard to the reasonable justification and circumstances and a commitment to minimise as far as practicable any unacceptable noise outside the hours stated above. In this respect, the applicant or developer shall also comply with BS 5228:2009 Noise and Vibration Control on Construction and Open Sites, and have regard to the World Health Organisation (WHO) – Guidelines for Community Noise (1999).

The applicant or developer shall also endeavour to engage in local consultation in respect of any noise sensitive location within 30 metres of the development as approved prior to construction activity commencing on site. Such noise sensitive locations should be provided with the following:

- Schedule of works to include approximate timeframes
- Name and contact details of contractor responsible for managing noise complaints
- Hours of operation- including any scheduled times for the use of equipment likely to be the source of significant noise.

REASON: In the interest of public health by the prevention of unacceptable levels of noise pollution which could interfere with normal sleep and rest patterns and/or when people could reasonably expect a level of quietness, the proper planning and sustainable development of the area and to uphold the Council's amenity policies set out in the South Dublin County Council Development Plan.

NOTE: The applicant is advised that under the provisions of Section 34 (13) of the Planning and Development Act 2000 (as amended) a person shall not be entitled solely by reason of a permission to carry out any development.

NOTE: The applicant or developer should ensure that all necessary measures shall be taken by the contractor to prevent the spillage or deposit of clay, rubble or other debris on adjoining roads during the course of the works and to ensure that any such instances arising are remedied immediately.

- (1) All buildings must be designed and constructed in accordance with the Building Regulations 1997.
- (2) Building Control Regulations require a Commencement Notice. Please log onto www.localgov.ie and click on BCMS link.
- (3) A Fire Safety Certificate must be obtained from the Building Control Authority, where applicable.
- (4) Free Standing Walls must be designed and constructed in accordance with IS 325: Code of Practice for use of Masonry Part 1: Structural use of reinforced Masonry. The Owner must also ensure that the construction of all walls is supervised by a competent person.

Signed on behalf of South Dublin County Council.
