COMPLIANCE - PLANNING REG REF. SDZ22A/0007- CONDITION 34

For the convenience of the Planning Authority, this compliance submission sets out below the text of Condition 34 followed by the Applicant's compliance response.

CONDITION 34 Management Agreement - Western Biodiversity Area.

Prior to the submission of the Commencement Notice within the meaning of Part II of the Building Control Regulations 1997 and prior to the commencement of any works on site, the applicant, owner or developer shall have lodged with the Planning Authority for agreement with Public Realm section:

A management plan for the biodiversity area to the west of the site that does not negatively affect the residential amenity of houses along this boundary. Houses backing onto hedgerows typically present problems due to overshadowing from the hedgerow and difficulty of access to maintain same.

REASON: To ensure satisfactory landscape treatment of the site which will enhance the character and appearance of the site and the area, in the interests of biodiversity, amenity and climate action and in accordance with the relevant green infrastructure, landscape and environmental policies.

Applicant's Response:

We refer the Planning Authority to the "Western Biodiversity Area" document prepared by Niall Montgomery + Partners Landscape Architects in response to this Condition. This outlines the specifications on the biodiversity management plan including the hedgerows on the site's western boundary.

CONCLUSION

We would be grateful for written acknowledgement by the Planning Authority of compliance material submitted at its earliest possible convenience.
