Submission Type: Additional **Registration Date:** 02-Mar-2023
Information

Correspondence Name and Address: Edmond Desmond 85, Seatown Villas, Swords, Co. Dublin

Proposed Development: 2 storey extension and internal alterations to include granny flat extension. Comprising of ground floor extension to front and rear for open plan granny flat with own hall door entrance, open plan dining room, kitchen, bathroom and open plan lounge/bedroom. Extended playroom and additional windows with new w.c to hall. Single storey kitchen/family room to rear. First floor comprising of 2 additional bedrooms to front and rear. bathroom and shower room/w.c and attic space converted to home office and balcony together with soak pit to rear garden.

Location: 46 Monastery Park, Clondalkin, Dublin 22.

Applicant Name: John Flood

Application Type: Permission

(COS)

Description of Site and Surroundings

Site Area: stated as 489 sq.m (0.0489 Hectares) on the application form.

Site Visit: 14th of September 2022.

Site Description

The subject site is located on Monastery Park within an existing housing estate in Clondalkin. The site consists of a semi-detached bungalow dwelling. The streetscape consists of housing of a similar form and character.

Comhairle Chontae Atha Cliath Theas

PR/0325/23

Record of Executive Business and Chief Executive's Order

Proposal

Permission is being sought for a 2 storey extension and internal alterations to include granny flat extension comprising of the following:

- Ground floor extension to front and rear for open plan granny flat with own hall door entrance, open plan dining room, kitchen, bathroom and open plan lounge/bedroom.
- Extended playroom and additional windows with new w.c to hall.
- Single storey kitchen/family room to rear.
- First floor comprising of 2 additional bedrooms to front and rear, bathroom and shower room/w.c and attic space converted to home office and balcony together with soak pit to rear garden.

Zoning

The subject site is zoned 'RES': *'To protect and/or improve residential amenity'* under the South Dublin County Development Plan 2022-2028.

Consultations

Water Services	No report received at the time of writing this report.
Irish Water	No report received at the time of writing this report.
Roads Department	No objections.

SEA Sensitivity Screening – the site overlaps with the following aviation related layers: Bird Hazards; Conical Surface for Casement; and Outer Horizontal Surface for Dublin.

Relevant Policy in South Dublin County Council Development Plan 2022 – 2028

Policy GII: Overarching

GII Objective 4:

To require development to incorporate GI as an integral part of the design and layout concept for all development in the County including but not restricted to residential, commercial, and mixed use through the explicit identification of GI as part of a landscape plan, identifying environmental assets and including proposals which protect, manage, and enhance GI resources providing links to local and countywide GI networks.

Policy GI2: Biodiversity

GI2 Objective 4:

To integrate GI, and include areas to be managed for biodiversity, as an essential component of all new developments in accordance with the requirements set out in Chapter 12: Implementation and Monitoring and the policies and objectives of this chapter.

Policy GI4: Sustainable Drainage Systems

GI4 Objective 1:

To limit surface water run-off from new developments through the use of Sustainable Drainage Systems (SuDS) using surface water and nature-based solutions and ensure that SuDS is integrated

Record of Executive Business and Chief Executive's Order

into all new development in the County and designed in accordance with South Dublin County Council's Sustainable Drainage Explanatory Design and Evaluation Guide, 2022.

Policy QDP7: High Quality Design – Development General

Promote and facilitate development which incorporates exemplary standards of high-quality, sustainable, and inclusive urban design, urban form and architecture.

Policy QDP11: Materials, Colours and Textures

Promote high-quality building finishes that are appropriate to context, durable and adhere to the principles of sustainability and energy efficiency.

Policy H11: Privacy and Security

Promote a high standard of privacy and security for existing and proposed dwellings through the design and layout of housing.

Policy H14: Residential Extensions

Support the extension of existing dwellings subject to the protection of residential and visual amenities.

H14 Objective 1:

To favourably consider proposals to extend existing dwellings subject to the protection of residential and visual amenities and compliance with the standards set out in Chapter 12: Implementation and Monitoring and the guidance set out in the South Dublin County Council

House Extension Design Guide, 2010 (or any superseding guidelines).

Policy H15: Family Flats

Support family flat development subject to the protection of residential and visual amenities.

H15 Objective 1:

To favourably consider a family flat development where the Council is satisfied that there is a valid need for semi-independent accommodation for an immediate family member or members subject to the criteria outlined in Chapter 12: Implementation and Monitoring.

Policy E3: Energy Performance in Existing and New Buildings

Support high levels of energy conservation, energy efficiency and the use of renewable energy sources in new and existing buildings including the retro fitting of energy efficiency measures in the existing building stock in accordance with relevant building regulations, national policy and guidance and the targets of the National and South Dublin Climate Change Action Plans.

12.6.8 Residential Consolidation

Extensions

The design of residential extensions should have regard to the permitted pattern of development in the immediate area alongside the South Dublin County Council House Extension Guide (2010) or any superseding standards.

Family Flats

A family flat is to provide semi-independent accommodation for an immediate family member (dependent of the main occupants of an existing dwelling). A family flat is not considered to represent an independent dwelling unit and as such open space and car parking standards are not independently assessed. Proposals for family flat extensions should meet the following criteria:

- The applicant shall be required to demonstrate that there is a genuine need for the family flat;*
- The overall area of a family flat should not generally exceed 50% of the floor area of the existing dwelling house;*
- The main entrance to the existing house shall be retained and the family flat shall be directly accessible from the front door of the main dwelling via an internal access door, and the design criteria for dwelling extensions will be applied;*
- Any external doors permitted (to provide access to private / shared open space or for escape from fire) shall be limited to the side or rear of the house;*
- Conditions may be attached to any grant of permission that the family flat cannot be sold, conveyed or leased separately from the main residence, and that when the need for the family flat no longer exists the dwelling must be returned to a single dwelling unit.*

12.7.4 Car Parking Standards

Table 12.26: Maximum Parking Rates (Residential Development)

12.11.1 Water Management

Record of Executive Business and Chief Executive's Order

South Dublin County Council House Extension Design Guide (2010)

The House Extension design guide contains the following guidance on house extensions, including front, side, rear and dormer extensions.

Elements of Good Extension Design

- *Respect the appearance and character of the house and local area;*
- *Provide comfortable internal space and useful outside space;*
- *Do not overlook, overshadow, or have an overbearing affect on properties next door;*
- *Consider the type of extension that is appropriate and how to integrate it; and*
- *Incorporate energy efficient measures where possible.*

Assessment

The main issues for assessment relate to:

- Zoning and Council Policy;
- Visual and Residential Amenity;
- Access and Parking;
- Green Infrastructure,
- Infrastructure and Environmental Services;
- Environmental Impact Assessment; and
- Appropriate Assessment.

Record of Executive Business and Chief Executive's Order

Zoning and Council Policy

The subject site is located within zoning objective 'RES': '*To protect and/or improve residential amenity*'. The proposal is for the construction of extensions to an existing house. New residential extensions to existing dwellings are permissible in principle under this zoning objective, subject to their being in accordance with the relevant provisions of the South Dublin County Council House Extension Design Guide 2010.

The extensions would include a 'granny flat.' Family flats are permissible in principle under the RES zoning objective, subject to their being in accordance with criteria for family flats outlined under Section 12.6.8 of the South Dublin County Development Plan 2022-2028 and the provisions of the South Dublin County Council House Extension Design Guide 2010.

Under Section 12.6.8 of the CDP the following criteria applies to family flats:

- The applicant shall be required to demonstrate that there is a genuine need for the family flat;

No information provided demonstrating why a family flat is being applied for. **Additional information should be requested.**

- The overall area of a family flat should not generally exceed 50% of the floor area of the existing dwelling house;

Not clear what part of the house is intended to constitute the family flat. It would appear to be along the northern part of the house at ground floor, however, the applicant should be requested to clarify this and that it would not exceed 50% of the floor area of the house. **This can be addressed via additional information.**

- The main entrance to the existing house shall be retained and the family flat shall be directly accessible from the front door of the main dwelling via an internal access door, and the design criteria for dwelling extensions will be applied;

An additional external door is proposed to the front, seemingly to provide access to the family flat. The applicant should be requested to omit this door. It appears that internal access doors are proposed to the family flat, however, this should be confirmed. **This can be addressed via additional information.**

- Any external doors permitted (to provide access to private / shared open space or for escape from fire) shall be limited to the side or rear of the house;

External door is proposed to the front and should be omitted. **This can be addressed via additional information.**

Record of Executive Business and Chief Executive's Order

- Conditions may be attached to any grant of permission that the family flat cannot be sold, conveyed, or leased separately from the main residence, and that when the need for the family flat no longer exists the dwelling must be returned to a single dwelling unit.

A condition should be attached to this effect in the event of a grant of permission. The family flat is well incorporated into the house, so that it can easily be incorporated into the house should it no longer be needed in the future.

Visual and Residential Amenity

Ground floor extension to front and rear

The proposed development would provide for a ground floor extension to front and rear for open plan granny flat, open plan dining room, kitchen, bathroom and open plan lounge/bedroom. Extended playroom and additional windows with new w.c to hall. Single storey kitchen/family room to rear.

The extension to the front would align with the front building line of the front-most element of the house. There is an existing single storey rear extension to the house, which would be further extended by approx. 3m. Sufficient rear amenity space would remain. The proposed materials would match existing.

The existing and proposed rear extensions would have a hipped roof approx. 4.9m in overall height. It is considered that the overall height of the proposed rear extension would not give rise to undue overshadowing of adjoining properties and would not have an overburdening impact on existing amenity.

The rear extension would be setback approx. 1.3m from the southern side boundary and not setback from the northern boundary. Both adjoining properties on these side boundaries have existing rear extensions.

Notwithstanding the substandard juxtaposition between the proposed hipped roof aspect of the new design and the existing dwelling, given the extent of the proposed extension and the surrounding receiving context, it is not anticipated that the proposed rear extension will have a significant negative impact on the residential or visual amenity of the subject site or surrounding properties by way of undue overlooking or overshadowing.

First floor extension and attic space converted to home office and balcony

First floor dormer extensions are proposed to the front and rear elevations. The House Extension Design Guide 2010 recommends that dormers are set at least 100mm from the ridge of the roof and at least 3 tile courses from the eaves. The house already has a rear dormer extension which would be extended the full width of the house as a result of the first floor side extension.

Record of Executive Business and Chief Executive's Order

This is acceptable given that it would not be visible from the streetscape and this rear form has been permitted on this house type along the street.

The front home office/balcony dormer extension would not be setback at least 3 tile courses from the eaves. Given that this would be highly visible and is not inkeeping with what has been permitted along the street, this should be revised. **This can be addressed via additional information.** The front bedroom dormer extension is sufficiently setback from the eaves. Both front dormer extensions are sufficiently setback from the roof ridge.

The proposed materials and finishes include render and metal cladding. The front dormer extensions would have metal cladding. This is considered to complement the existing house. It is also noted that a mix of dormer extension designs have been permitted along this street.

Internal accommodation

At the ground floor the playroom would be extended and a new w.c added to the hall. The kitchen/family room would be extended to the rear. The bedroom proposed at ground floor is to be open plan with a lounge area, seemingly for the family flat.

At first floor level there would be 2 no. additional bedrooms, bathroom and shower room/w.c and attic space converted to home office and balcony. The CDP requires that all houses must comply with or exceed the minimum floor area standards contained in the Quality Housing for Sustainable Communities Guidelines, DEHLG (2007). The first floor bedrooms would meet the minimum floorspace requirements for a single bedroom (minimum 7.1sq.m required).

It does not appear that any bedrooms would meet the minimum floorspace requirement for a double bedroom (11.4sq.m) or a main bedroom (13sq.m). While it is noted that the 3 no. single sized bedrooms at first floor are existing, the addition of a further 2 no. single sized bedrooms is not a desirable outcome for the standard of accommodation for the house. The first floor should be revised to provide for a least one bedroom of a double or main bedroom size in accordance with the Quality Housing for Sustainable Communities Guidelines, DEHLG (2007). **This can be addressed via additional information.**

Access and Parking

No changes to access or parking proposed. The Roads Department have stated that they have no objections.

Record of Executive Business and Chief Executive's Order

Green Infrastructure

The subject site is located proximate to a Primary Green Infrastructure Corridor as identified on Figure 4.4: Green Infrastructure Strategy Map in the CDP. The proposal includes a soakaway in the rear garden of the site. Having regard to the location, nature and scale of the development it is considered to be in accordance with Policy Objectives GI1 Objective 4, GI14 Objective 1, GI12 Objective 4 and Section 12.4.2 of the CDP 2022-2028.

Infrastructure and Environmental Services

No reports have been received from Water Services or Irish Water. The proposal includes a soakaway in the rear garden of the site. There are no soil percolation test results, design calculations or dimensions submitted for the proposed soakaway. SDCC's Water Services states in these instances the applicant should be requested to submit a report showing site specific soil percolation test results and design calculations for the proposed soakaway in accordance with BRE Digest 365 – Soakaway Design.

Water Services state that the applicant should also be requested to submit a revised drawing showing plan and cross-sectional views, dimensions, and location of proposed soakaway. Any proposed soakaway shall be located fully within the curtilage of the property and shall be:

- (i) At least 5m from any building, public sewer, road boundary or structure.
- (i) Generally, not within 3m of the boundary of the adjoining property.
- (ii) Not in such a position that the ground below foundations is likely to be adversely affected.
- (iii) 10m from any sewage treatment percolation area and from any watercourse / floodplain.
- (iv) Soakaways must include an overflow connection to the surface water drainage network.

Should a soakaway prove not to be feasible, then the applicant should submit the following:

- (a) Soil percolation test results demonstrating a soakaway is not feasible
- (a) A revised surface water layout drainage drawing for the development showing the inclusion of alternative SuDS (Sustainable Drainage Systems) features.

This information should be requested via additional information.

Screening for Environmental Impact Assessment

Having regard to the modest nature of the proposed development, and the distance of the site from nearby sensitive receptors, there is no likelihood of significant effects on the environment arising from the proposed development. The need for environmental impact assessment can, therefore, be excluded at preliminary examination and a screening determination is not required.

Record of Executive Business and Chief Executive's Order

Screening for Appropriate Assessment

The applicant has not provided information to assist the screening for Appropriate Assessment. The subject site is not located within nor within close proximity to a European site. The development involves a house extension.

Having regard to:

- the small scale and domestic nature of the development,
- the location of the development in a serviced area, and
- the consequent absence of a pathway to the European site,

it is considered that the proposed development would not be likely to have a significant effect individually, or in-combination with other plans and projects, on the Natura 2000 network and appropriate assessment is not therefore required.

Conclusion

Having regard to the:

- provisions of the South Dublin County Development Plan 2022-2028 and South Dublin County Council House Extension Design Guide (2010),
- the established character of the area, and
- the nature and scale of the proposed development,

it is considered that **Additional Information** is required to ensure the proposed development would be in compliance with Council policy, would not seriously injure the amenities of the area or of property in the vicinity and would, therefore, be in accordance with the proper planning and sustainable development of the area.

Recommendation

Request Additional Information.

Additional Information

Additional Information was requested on the 5th of October 2022.

Additional Information was received on the 2nd of March 2023 (not deemed significant).

Additional Information Consultations

Water Services	No objection subject to conditions.
Irish Water	No report received at the time of writing this report.
Roads Department	No objections.
Public Realm	No comments/conditions to add.

Record of Executive Business and Chief Executive's Order

Assessment

Item 1 Requested

In accordance with the criteria for family flats under Section 12.6.8 of the South Dublin County Development Plan 2022-2028 the applicant is requested to submit the following:

- (a) Information demonstrating that there is a genuine need for the family flat*
- (b) Clarification as to what part of the house is to be used as the family flat and confirmation that the overall area of a family flat should not generally exceed 50% of the floor area of the existing dwelling house*
- (c) Revised plans that omits the second proposed external front door so that there is only one external door to the front elevation (existing main entrance).*

Applicant's Response:

- (a) The applicant advises that the family flat is for the use of an immediate family member.
- (b) The revised drawings highlight what part of the house is to be used as the family flat. The proposed floor area of the family flat would be approx. 51sq.m. This would not exceed 50% of the floor area of the existing dwelling house.
- (c) The second proposed external front door has been omitted. The family flat would be accessed internally through the house.

Assessment:

It is considered that insufficient information has been submitted to satisfy that there is a genuine need for the proposed family flat. The South Dublin County Development Plan 2022-2028 states that '*A family flat refers to a temporary subdivision or extension of an existing single dwelling unit to provide semi-independent accommodation for an immediate family member (older parent or other dependent). The Council will consider family flat developments where an established need has been satisfactorily demonstrated*' and (Section 12.6.8) '*A family flat is to provide semi-independent accommodation for an immediate family member (dependent of the main occupants of an existing dwelling)*'.

Policy H15 Objective 1 states '*To favourably consider a family flat development where the Council is satisfied that there is a valid need for semi-independent accommodation for an immediate family member or members subject to the criteria outlined in Chapter 12: Implementation and Monitoring*'.

The applicant has confirmed the family flat would be for an immediate family member. However, the valid need for semi-independent accommodation has not been established, which is required in order to satisfy Policy H15 Objective 1 and criteria under Section 12.6.8 of the CDP.

Record of Executive Business and Chief Executive's Order

It is therefore not considered that AI item 1(a) has been fully addressed. **Clarification of additional information should be requested.**

AI items 1(b) and 1(c) have been satisfactorily addressed.

Item 2 Requested

The applicant is requested to submit a full set of revised drawings, and revised proposed floor area, addressing the following:

(a) The front home office/balcony dormer extension would not be setback at least 3 tile courses from the eaves. Given that this would be highly visible and is not inkeeping with what has been permitted along the street, this should be revised.

(b) It does not appear that any bedrooms would meet the minimum floorspace requirement for a double bedroom (11.4sq.m) or a main bedroom (13sq.m). While it is noted that the 3 no. single sized bedrooms at first floor are existing, the addition of a further 2 no. single sized bedrooms is not a desirable outcome for the standard of accommodation for the house. The first floor should be revised to provide for a least one bedroom of a double or main bedroom size in accordance with the Quality Housing for Sustainable Communities Guidelines, DEHLG (2007).

Applicant's Response:

(a) Revised drawings have been submitted showing that the balcony extension has been removed. The proposed front dormer extension is now set back over three tile courses from the front eaves of the house and in line with the existing dormer extension.

(b) The proposed first floor level has been revised so that at least one bedroom would be of main bedroom size in accordance with the Quality Housing for Sustainable Communities Guidelines, DEHLG (2007).

Assessment:

It is considered that this item has been satisfactorily addressed.

Item 3 Requested

The proposal includes a soakaway in the rear garden of the site. There are no soil percolation test results, design calculations or dimensions submitted for the proposed soakaway. SDCC's Water Services states in these instances the applicant should be requested to submit a report showing site specific soil percolation test results and design calculations for the proposed soakaway in accordance with BRE Digest 365 – Soakaway Design.

Water Services state that the applicant should also be requested to submit a revised drawing showing plan and cross-sectional views, dimensions, and location of proposed soakaway. Any proposed soakaway shall be located fully within the curtilage of the property and shall be:

(i) At least 5m from any building, public sewer, road boundary or structure.

(ii) Generally, not within 3m of the boundary of the adjoining property.

Record of Executive Business and Chief Executive's Order

(iii) Not in such a position that the ground below foundations is likely to be adversely affected.

(iv) 10m from any sewage treatment percolation area and from any watercourse / floodplain.

(v) Soakaways must include an overflow connection to the surface water drainage network.

Should a soakaway prove not to be feasible, then the applicant should submit the following:

(a) Soil percolation test results demonstrating a soakaway is not feasible

(b) A revised surface water layout drainage drawing for the development showing the inclusion of alternative SuDS (Sustainable Drainage Systems) features.

Applicant's Response:

The applicant has submitted a Stormwater Disposal Design BRE 365/SuDS report prepared by Stingray Environmental Engineering.

Assessment:

Water Services have reviewed the additional information submitted and state that they have no objections subject to standard conditions. It is therefore considered that this item has been satisfactorily addressed.

Conclusion

Clarification of Additional Information is required to satisfy that there is a genuine need for the proposed family flat in compliance with Policy H15 Objective 1 and criteria under Section 12.6.8 of the South Dublin County Development Plan 2022-2028.

It is noted that the additional information was requested by South Dublin County Council on the 5th of October 2022. This allows for until the 5th of April 2023 to submit clarification of additional information. The Planning and Development Regulations 2001, as amended, provide for the extension of this time period, which the applicant might request to allow for enough time to address the above concerns.

Recommendation

I recommend that **CLARIFICATION OF ADDITIONAL INFORMATION** be requested from the applicant with regard to the following:

1. It is considered that insufficient information has been submitted to satisfy that there is a genuine need for the proposed family flat. The South Dublin County Development Plan 2022-2028 states that 'A family flat refers to a temporary subdivision or extension of an existing single dwelling unit to provide semi-independent accommodation for an immediate family member (older parent or other dependent). The Council will consider family flat developments where an established need has been satisfactorily demonstrated' and (Section 12.6.8) 'A family flat is to provide semi-independent accommodation for an immediate family member (dependent of the main occupants of an existing dwelling)'. Policy H15 Objective 1 states 'To favourably consider a family flat development where
