

Do not scale or drawing - refer to the data schedule for accurate  
 ground level measurements.  
 All measurements are based on measurements taken to the  
 central concrete points. The data schedule provides the  
 required data points for any construction or measurement in  
 respect of this plan.  
 All rights reserved.

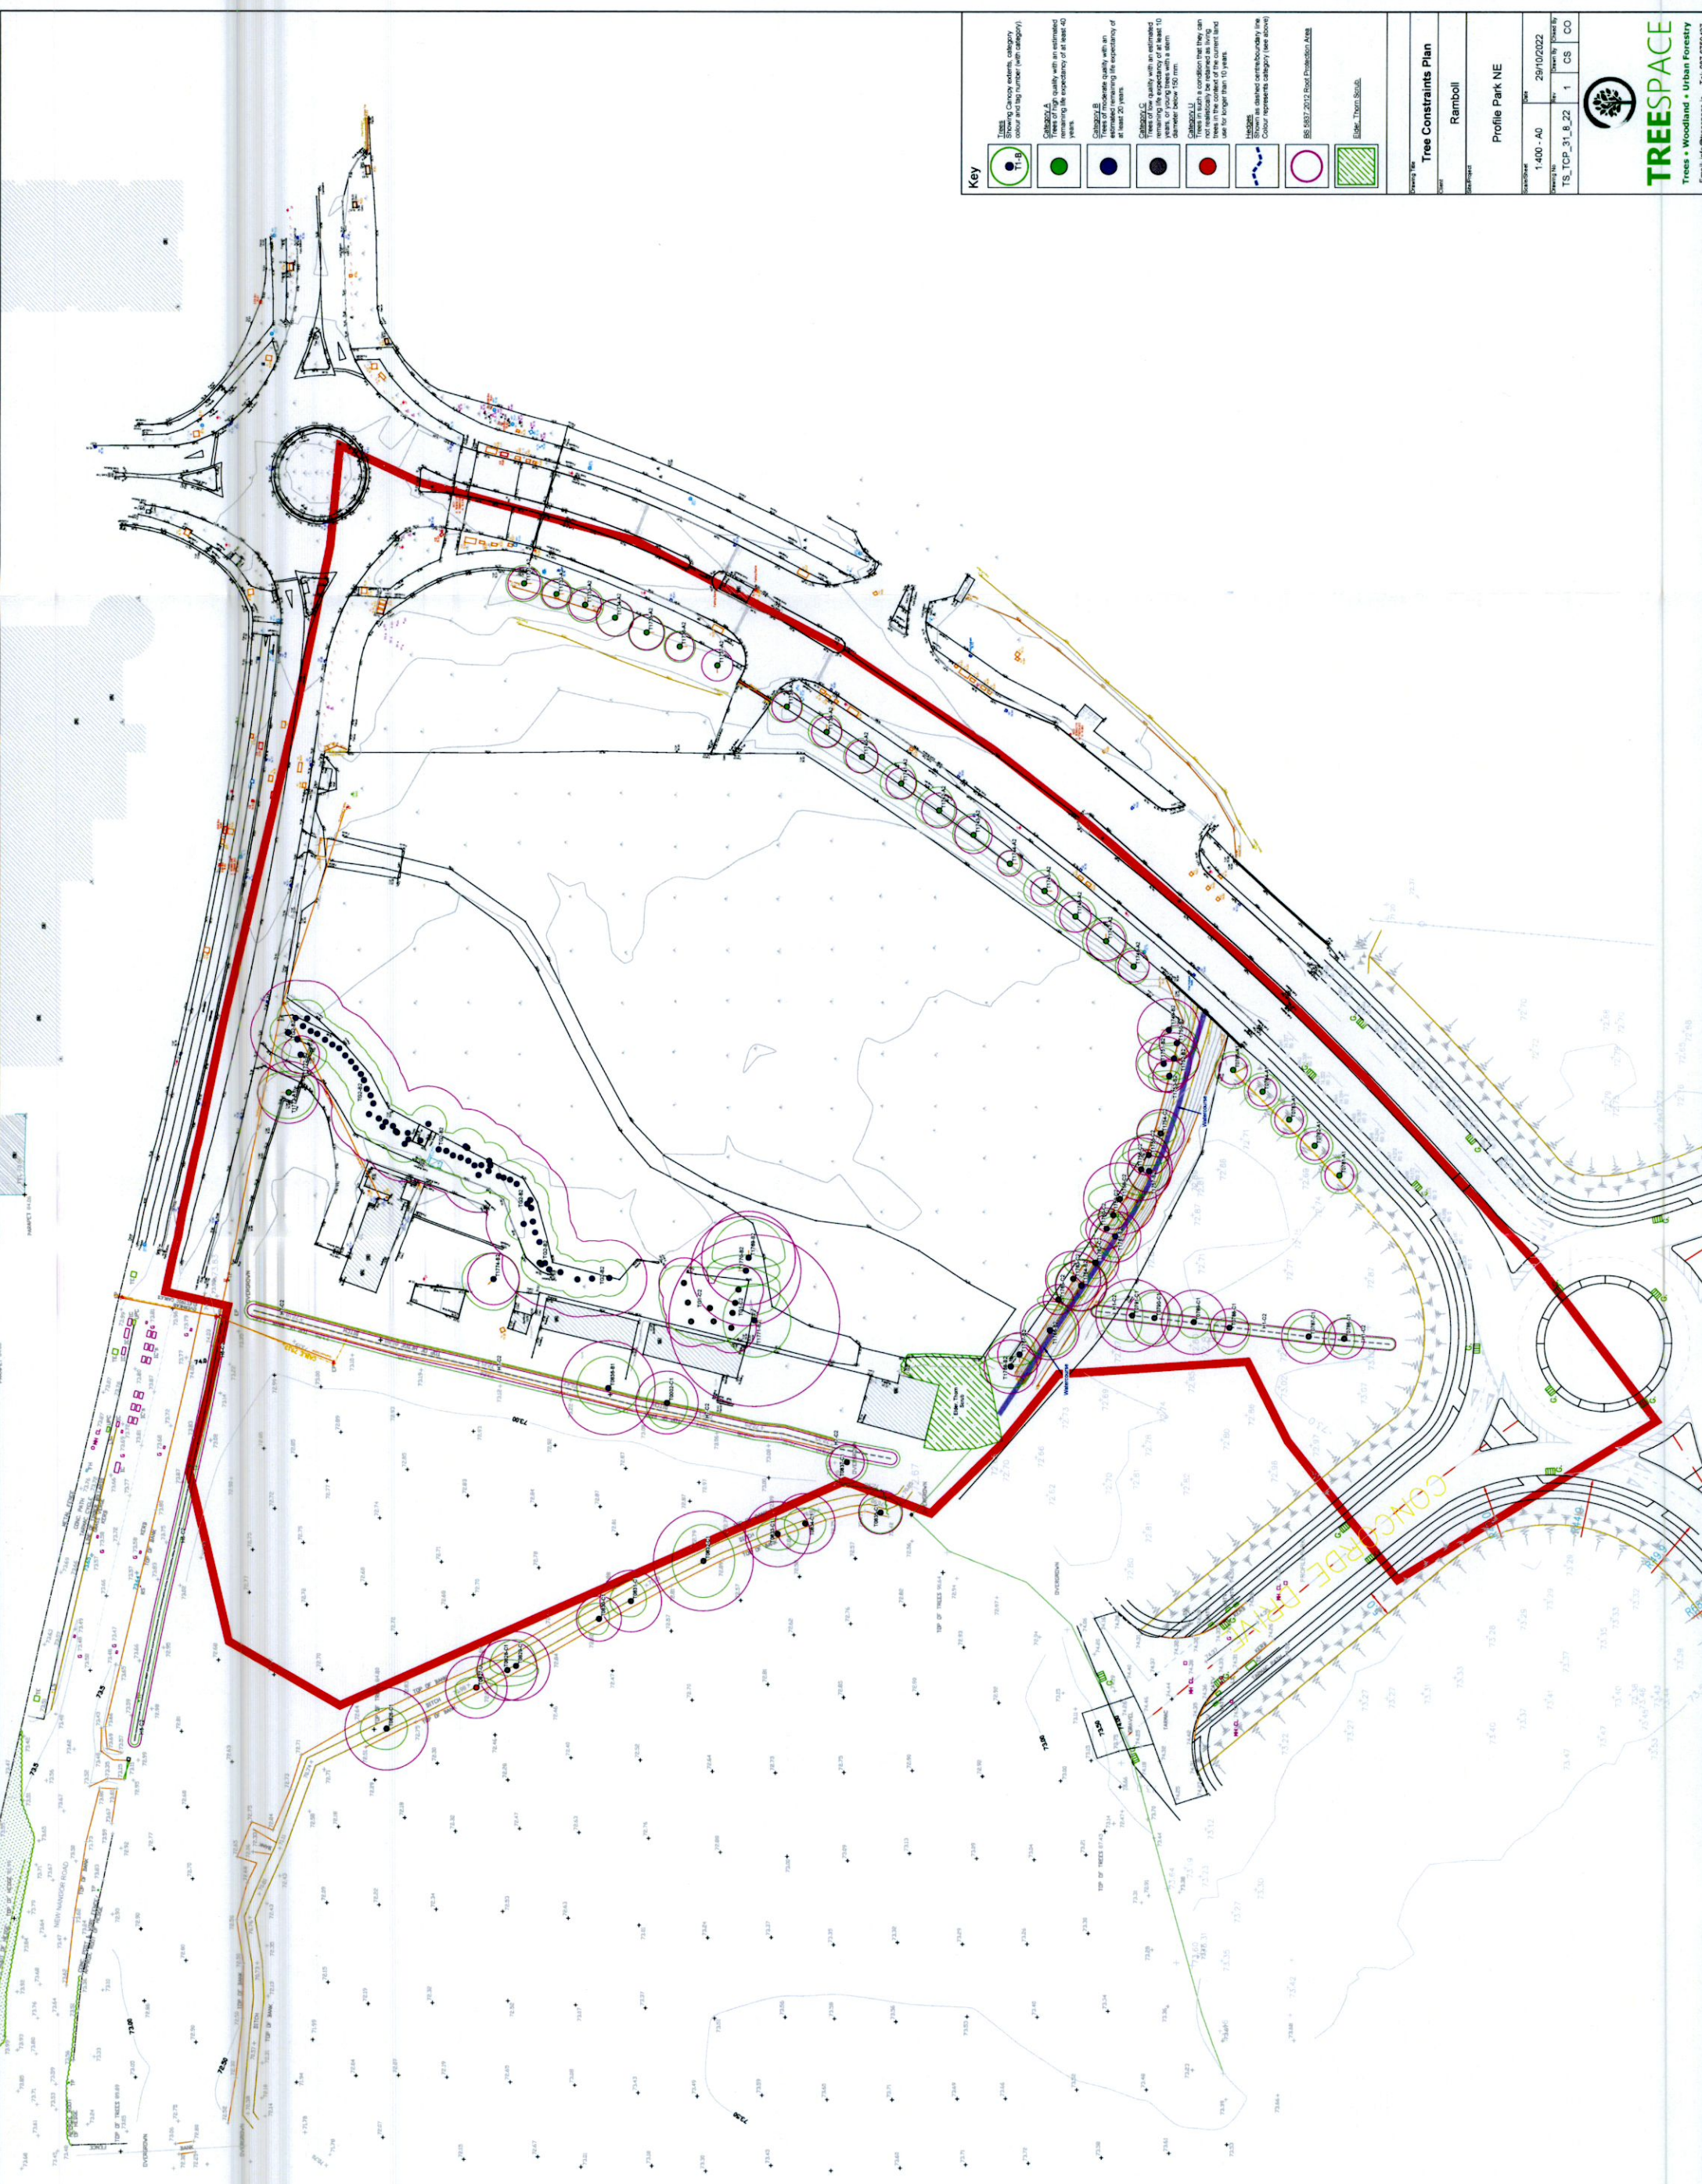

**Key**

- Tree**: Green circle with 'T-B' inside, representing canopy extent, category, colour and tag number (with category).
- Category A**: Green circle, representing trees of high quality with an estimated remaining life expectancy of at least 40 years.
- Category B**: Blue circle, representing trees of medium quality with an estimated remaining life expectancy of at least 20 years.
- Category C**: Yellow circle, representing trees of low quality with an estimated remaining life expectancy of at least 10 years, or young trees with a diameter below 150 mm.
- Category D**: Red circle, representing trees in poor condition that they can be removed in the next 10 years in the context of the current land use for longer than 10 years.
- Boundary**: Blue dashed line, showing an assumed demarcation of the trees in the context of the current land use for longer than 10 years.
- Colour**: Colour represents category (see above).
- SS 3057 2017 Road Protection Area**: Green hatched area.
- Other Than Soak**: Blue hatched area.

Consent Notice  
 Do not make off drawings, refer to the 1991 schedule for accurate  
 details of the work. All measurements taken to the  
 ground surface. The drawings are intended for use in connection with the  
 proposed work only. The drawings are not to be used for any other purpose  
 without the written consent of the author. All rights reserved.

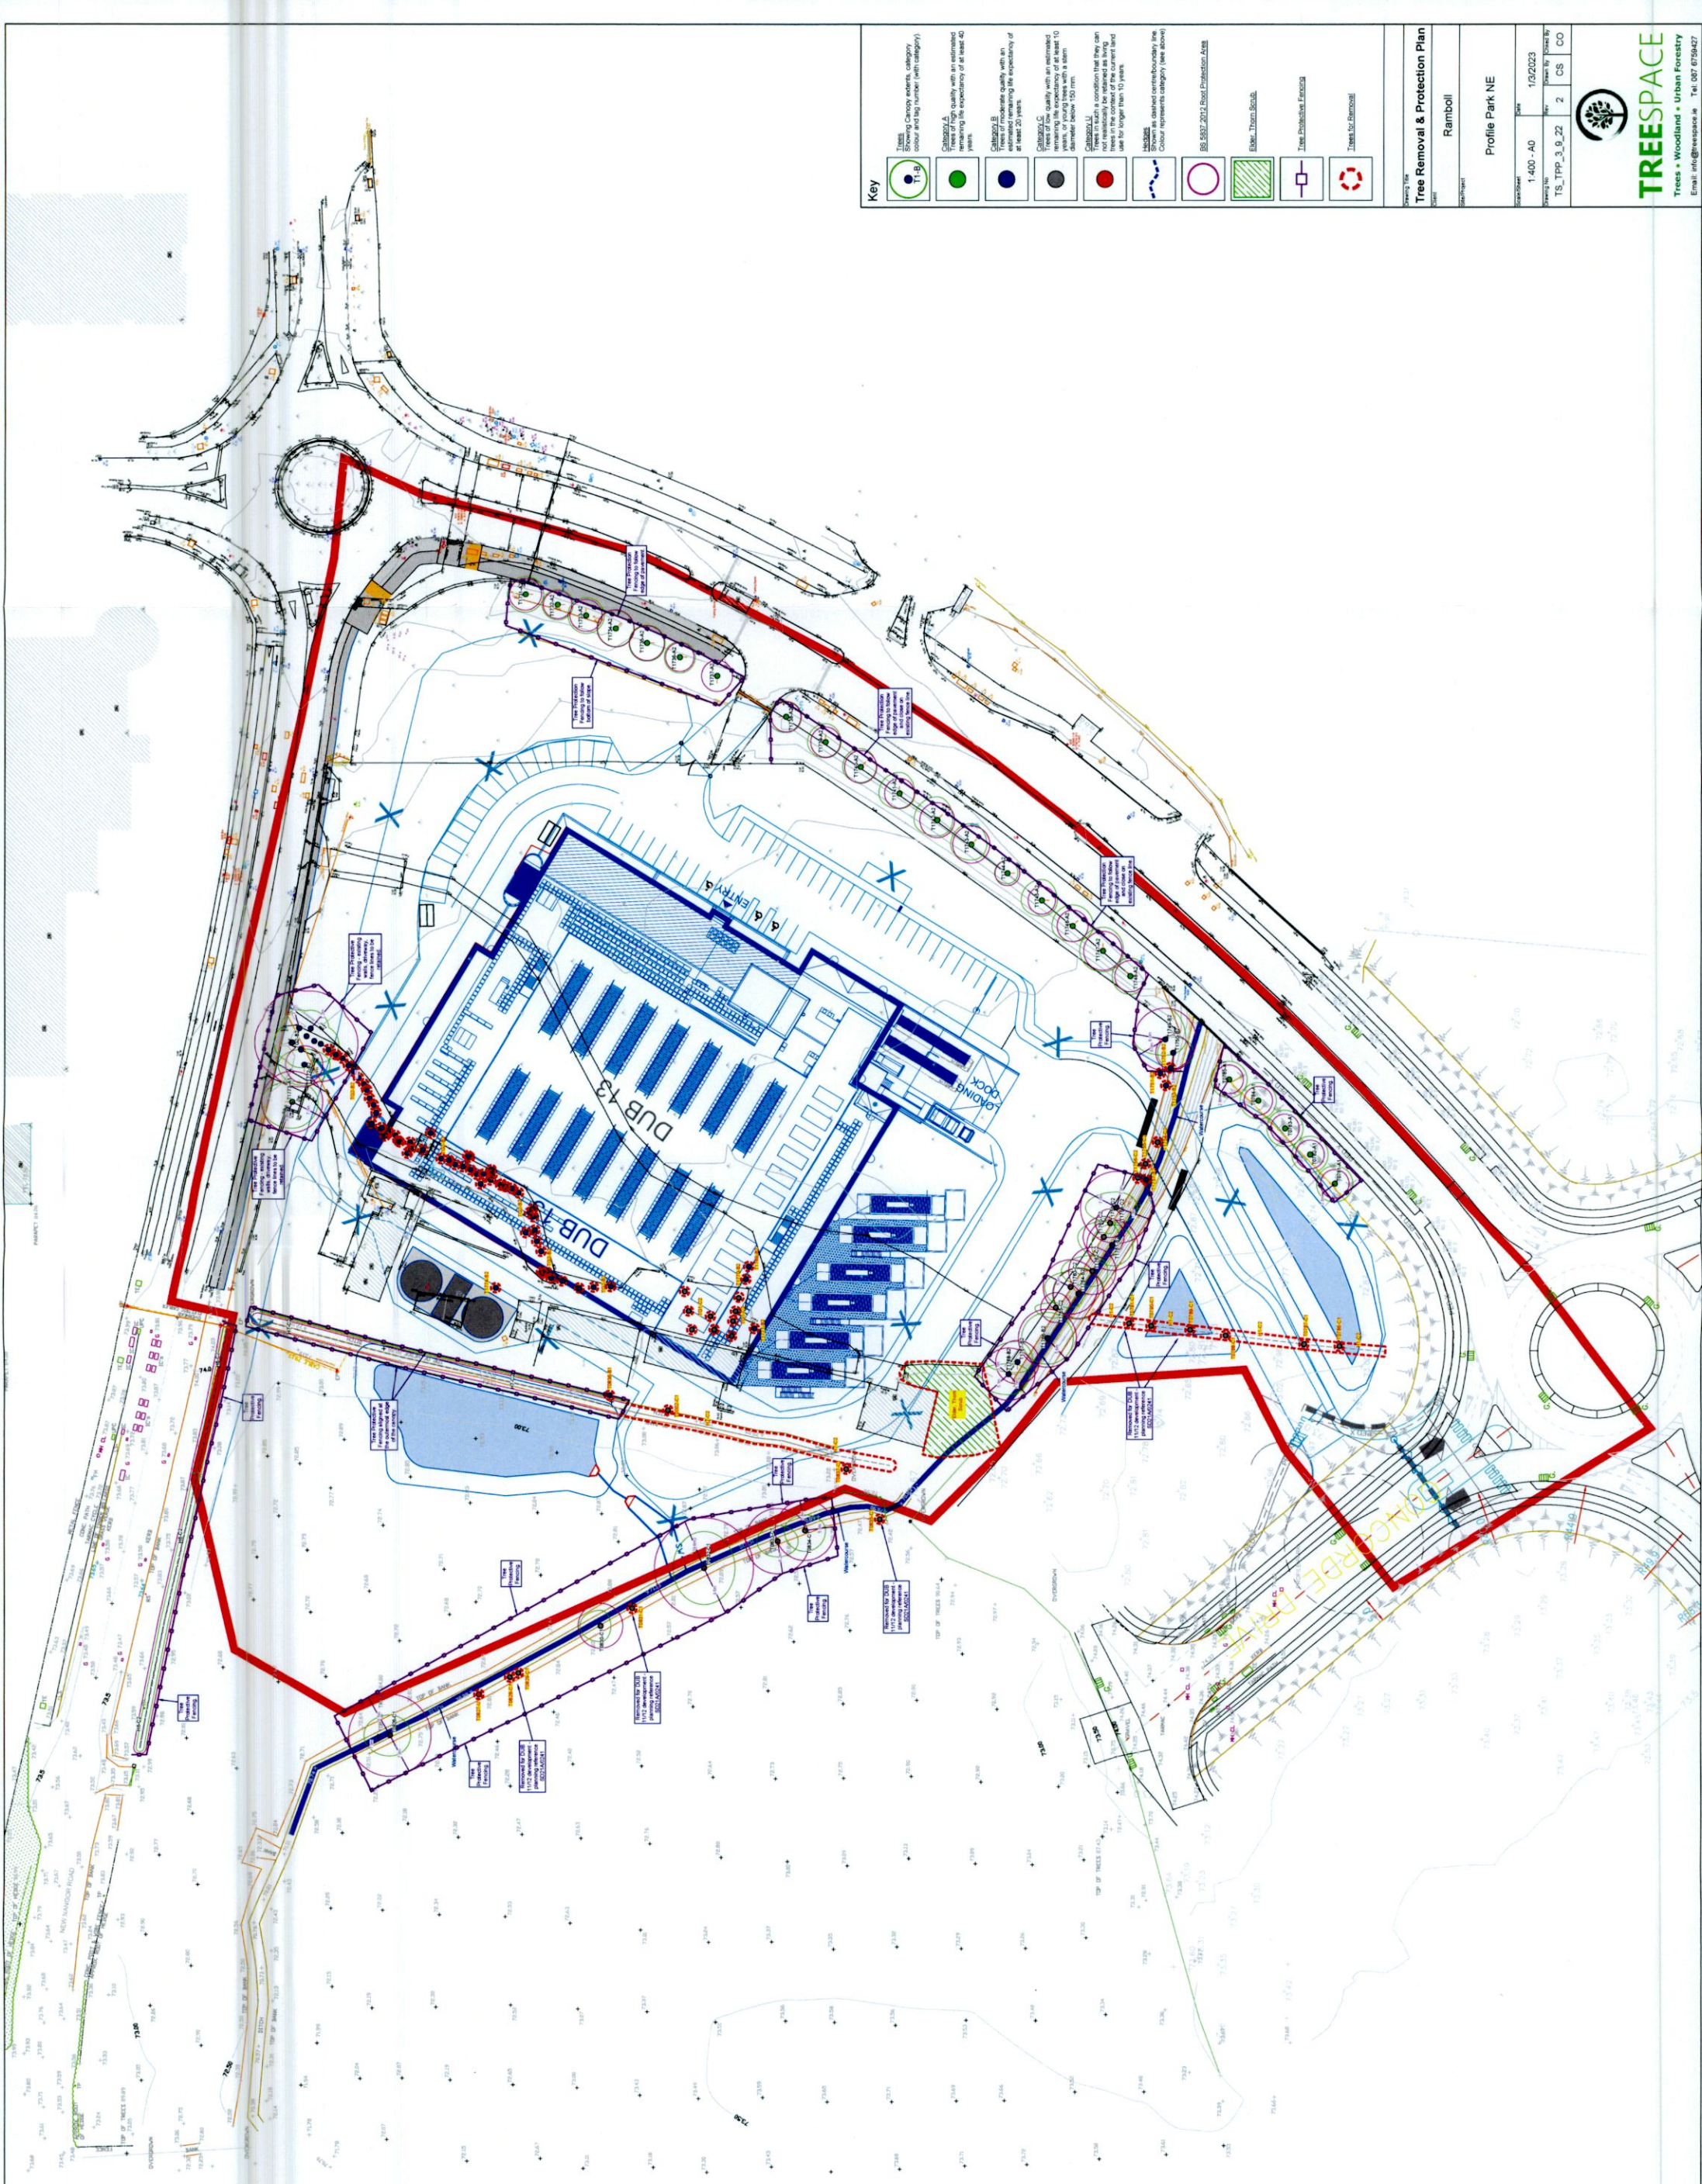

**Key**

- Tree**  
 T1-B  
 Tree ID  
 Colour and tag number (with category)
- Category A**  
 Trees of high quality with an estimated  
 remaining life expectancy of at least 40  
 years
- Category B**  
 Trees of moderate quality with an  
 estimated remaining life expectancy of  
 at least 20 years
- Category C**  
 Trees of low quality with an estimated  
 remaining life expectancy of at least 10  
 years or young trees with a stem  
 diameter below 100 mm
- Category D**  
 Trees in the immediate vicinity that they can  
 not be seen from the road. These trees can  
 be removed as they are not in the  
 view of the road. Use for longer than 10 years
