**PR/0425/23**

## **Record of Executive Business and Chief Executive's Order**

**Reg. Reference:** SD22A/0397      **Application Date:** 21-Oct-2022  
**Submission Type:** Additional      **Registration Date:** 30-Mar-2023  
Information

**Correspondence Name and Address:** Entrust Limited Unit 1D, Deerpark Business Centre,  
Oranmore, Co. Galway, H91 X599

**Proposed Development:** Existing telecommunications support structure  
(previously refused under Ref. SD08A/0745 and then subsequently granted under An Bord Pleanála Ref. PL06S.232536) together with antennas, dishes, equipment, cabinets, fencing and all associated site development works; The development will continue to provide high speed wireless broadband and data services.

**Location:** Unit 1, Fortfield Lane, Fortfield Road, Terenure,  
Dublin 6W

**Applicant Name:** On Tower Ireland Limited

**Application Type:** Retention

(COS)

### **Description of Site and Surroundings**

Site Area: stated as 0.0029 Hectares on the application form.

Site Visit: 23<sup>rd</sup> of November 2022.

### **Site Description**

The subject site is located within a cluster of commercial uses on the northwest side of Fortfield Road and a short distance south of the junction of the latter with Kimmage Road Lower and Terenure Road. Apart from the immediately adjoining commercial uses the site is otherwise generally surrounded by residential uses. The site is accessed from Fortfield Lane.

The monopole is located within a small compound with 2 no. existing monopoles adjacent to the subject structure. Adjoining sites include an ESB substation, a filling station which fronts onto Fortfield Road, An Post depot and a warehouse.

# Comhairle Chontae Atha Cliath Theas

**PR/0425/23**

## **Record of Executive Business and Chief Executive's Order**

### **Proposal**

**Retention permission** is sought for an existing telecommunications support structure (previously refused under Ref. SD08A/0745 and then subsequently granted under An Bord Pleanála Ref. PL06S.232536) together with antennas, dishes, equipment, cabinets, fencing and all associated site development works; The development will continue to provide high speed wireless broadband and data services.

### **Zoning**

The subject site is zoned Zoning Objective 'RES': *To protect and/or improve residential amenity* under the 2022-2028 CDP.

### **Consultations**

Water Services	No objection subject to conditions.
Irish Water	Not applicable.
Roads Department	No report received at the time of writing this report.
Public Realm	No comments or conditions to add.
Enterprise Promotion	No report received at the time of writing this report.

SEA Sensitivity Screening – the subject site overlaps with the following:

- Aviation related layers Bird Hazards and Outer Horizontal Surfaces for Dublin and Casement.
- Riparian Corridor

### **Submissions/Observations/Representations**

None received.

### **Relevant Planning History**

#### ***Subject site***

SD08A/0745 & ABP Ref. PL06S.232536

Erection of an 18 metre high support structure with three antennas and one dish attached (total height twenty metres), along with equipment cabinets, other associated equipment and fencing for a new 3G broadband network. Permission refused by SDCC for the following reasons:

*1. Having regard to the zoning objective 'A' which seeks to protect and/or improve residential amenity and the standards as set out in Section 12.10.1.iii of the South Dublin County Development Plan 2004-2010, regarding minimum separation distance of telecommunications antennae from the nearest residence, it is considered that the proposed development would materially contravene a provision in the Development Plan which seeks to maintain the residential amenity of the area.*

# Comhairle Chontae Atha Cliath Theas

PR/0425/23

## Record of Executive Business and Chief Executive's Order

2. *Having regard to (i) the zoning objective, (ii) the existing mast on the site and (iii) the height and scale of the mast and attached antennae, is considered that the addition of a second mast and antenna on this site where the zoning objective seeks to protect and/or improve residential amenity would be visually intrusive and incompatible with the established visual amenity of the areas and would, therefore, seriously injure the residential amenity of the area and depreciate the value of property in the vicinity.*

First party appeal to ABP. **ABP granted permission.** Relevant conditions:

1. *The proposed mast facility shall be limited in height to 20 metres and no part shall exceed this height, as indicated on drawing number 00240342-136 received by the planning authority on the 30<sup>th</sup> day of October 2008.*

*Reason: In the interest of visual and residential amenity.*

2. *This permission is for a period of five years from the date of this order. The telecommunications structure and related ancillary structures shall then be removed unless, prior to the end of the period, planning permission shall have been granted for their retention for a further period.*

*Reason: To enable the impact of the development to be reassessed, having regard to changes in technology and design during the period of five years and to circumstances then prevailing.*

### ***Telecommunications structure to the west of the site***

SD17A/0237

Retention of an existing 17m high monopole support structure carrying telecommunications equipment, associated telecommunications container and palisade fencing as previously granted under planning reference SD12A/0054. **Permission for retention granted.**

SD12A/0054

Retention of a 17 metre high telecommunications support structure with antennae, radio link dish, fencing, associated equipment and cabinets, which form part of Meteor's cellular digital communications network, in the area as previously granted under planning reference no. SD06A/0846 (An Bord Pleanála Ref. PL06S.221230). **Permission for retention granted.**

SD06A/0846 & ABP Ref. PL06S.221230

17 metre monopole with 3 no. antenna and 1 no. dish attached, fencing, associated equipment and cabinets to form part of a mobile telecommunications network. **Permission refused by SDCC. Appeal to ABP. ABP granted permission.**

# Comhairle Chontae Atha Cliath Theas

PR/0425/23

## Record of Executive Business and Chief Executive's Order

### *Telecommunications structure also to the west of the site*

SD16A/0006

Retention permission for existing 18m slim line monopole, carrying associated antenna and dish, associated equipment, associated equipment cabin and security fencing. The development will continue to form part of Vodafone Ireland Ltd's existing GSM and 3G/4G Broadband telecommunications networks. **Permission for retention granted.**

SD09A/0025 & ABP Ref. PL06S.233339

Existing telecommunications pole structure with enclosed antennas, an equipment container and associated equipment within a fenced compound. In addition to the retention of existing facility, Vodafone is seeking permission to extend the existing pole structure from an overall height of 15m to 18m. The development forms part of Vodafone Ireland Limited's existing GSM and 3G broadband telecommunications network. **Permission and retention permission refused by SDCC. Appeal to ABP. ABP granted permission.**

### **Relevant Enforcement History**

None identified in APAS.

### **Pre-Planning Consultation**

None identified in APAS.

*12.3.1 Appropriate Assessment*

*12.3.2 Ecological Protection*

*12.3.3 Environmental Impact Assessment*

*12.4.2 Green Infrastructure and Development Management*

*12.11.1 Water Management*

*12.11.2 Information and Communications Technology*

*In the consideration of proposals for telecommunications antennae and support structures, applicants will be required to demonstrate:*

- *Compliance with the document Telecommunications Antennae and Support Structures: Guidelines for Planning Authorities (1996) and Circular Letter PL 07 /12 issued by the Department of the Environment and Local Government (as may be amended), and to other publications and material as may be relevant in the circumstances;*
- *On a map, the location of all existing telecommunications structures within a 2km radius of the proposed site, stating reasons why (if not proposed) it is not feasible to share existing facilities having regard to the Code of Practice on Sharing of Radio Sites issued by the Commission for Communications Regulation;*
- *The degree to which the proposal will impact on the amenities of occupiers of nearby properties, or the amenities of the area (for example, visual impacts of masts and associated equipment cabinets, security fencing treatment) and the potential for mitigating visual impacts including low and mid-level landscape screening, tree-type masts being provided where appropriate, colouring or painting of masts and antennae, and considered access arrangements;*
- *The significance of the proposed development as part of the telecommunications network.*

### **Relevant Government Guidelines**

*Circular Letter PL07/12 – Telecommunications Antennae and Support Structures Guidelines.*

# Comhairle Chontae Atha Cliath Theas

**PR/0425/23**

## **Record of Executive Business and Chief Executive's Order**

*Telecommunications Antennae and Support Structures, Guidelines for Planning Authorities' Department of the Environment and Local Government 1996.*

*Appropriate Assessment of Plans and Projects in Ireland – Guidance for Planning Authorities, Department of the Environment, Heritage and Local Government, (2009).*

*OPR Practice Note PN01 Appropriate Assessment Screening for Development Management (March 2021).*

### **Assessment**

The main issues for assessment relate to:

- Planning History;
- Land Use Zoning;
- Council Policy;
- Visual and Residential Amenity;
- Roads and Traffic;
- Green Infrastructure and Landscaping;
- Infrastructure and Environmental Services;
- Environmental Impact Assessment; and
- Appropriate Assessment.

### ***Planning History***

The applicant states that the telecommunications infrastructure was permitted under ABP Ref. PL06S.232536. It is noted that the permitted drawings under this application show the infrastructure in a different location within the compound, further north than where they have been constructed. Regardless, the applicant has applied for retention of the telecommunications infrastructure.

### ***Land Use Zoning***

The subject site is zoned Zoning Objective 'RES': *To protect and/or improve residential amenity* under the 2022-2028 CDP. The telecommunications support structure, with antennas, dishes, equipment, cabinets, fencing, is considered a 'Public Service' use under the CDP. The use class 'Public Services' is permitted in principle under the 'RES' zoning objective subject to its design being in accordance with the relevant provisions in the CDP and national policy and guidelines.

# Comhairle Chontae Atha Cliath Theas

PR/0425/23

## Record of Executive Business and Chief Executive's Order

### *Council Policy*

Council policy is generally supportive of sustainable development of ICT infrastructure in the County subject to protecting the amenities of urban and rural areas. Section 12.11.2 of the County Development Plan sets out requirements that applicants shall demonstrate in the consideration of such proposals.

The applicant has submitted a cover letter stating the following:

- Outlining the proposed development's compliance with Telecommunications Antennae and Support Structures: Guidelines for Planning Authorities (1996) and Circular Letter PL 07/12.
- The applicant will co-locate and utilise existing telecommunications structures where possible, including this site.
- The structure is located in one of the most preferred locations within the 1996 Government Guidelines '*substations operated by ESB may be suitable for the location of antennae support structures*'.
- The structure provides vital high speed wireless broadband services for the community. ComReg 3G and 4G maps are included in the cover letter showing the location of the structure.

In accordance with Section 12.11.2 of the CDP the applicant has not submitted a map showing the location of all existing telecommunications structures within a 2km radius of the proposed site, stating reasons why (if not proposed) it is not feasible to share existing facilities having regard to the Code of Practice on Sharing of Radio Sites issued by the Commission for Communications Regulation. This should be requested by way of **additional information**.

### *Visual and Residential Amenity*

The applicant has submitted plans and elevational drawings of the proposed development for retention. The existing installation is a 20m high monopole with antenna and transmission dishes attached, equipment, cabinets, access track and fencing. The monopole is narrow, and a light grey colour so does not significantly stand out. The monopole is approx. 20m in height and should be **conditioned** not to extend beyond this height.

The site layout drawings indicate trees planted along the outside of the southern boundary of the site, within the adjoining site. However, based on a site visit, there are no trees or planting along this boundary. The trees appear to have existed when the previous permission was assessed, as referred to in An Bord Pleanála Inspector's report, however, are no longer there.

# Comhairle Chontae Atha Cliath Theas

PR/0425/23

## Record of Executive Business and Chief Executive's Order

There are 2 no. other telecommunications structures, monopoles, within the compound the subject site is within. The applicant states that these are 17m and 15m in height. However, it is considered that the site is well setback from the streetscape. The site adjoins a substation to the north and a post depot (zoned Local Centre) to the south. Having regard to the location and design of the structure it is not considered that it would have a significant negative impact on visual amenity.

The nearest residential property is approx. 15m to the east of the site. This is to the rear gardens of dwellings facing onto Fortfield Road. Given the location and design of the monopole it is not considered it would have an undue impact on residential amenity.

### ***Roads and Traffic***

No report was received from the Roads Department. The site is accessed off an existing laneway off Fortfield Road.

### ***Compliance with International Guidelines***

A certificate of ICNIRP compliance has not been included in the application stating that the proposed development is in full compliance with the international guidelines (of the ICNIRP) as required by the Office of the Director of Telecommunications Regulation. Should permission be granted, a **condition** should be attached requiring the provision of a Compliance Certificate.

### ***Duration***

Circular Letter PL 07/12 - Telecommunications Antennae and Support Structure Guidelines, Department of Environment, Community and Local Government (October 2012), revises elements of the 1996 Telecommunications Guidelines, stating that: *'only in exceptional circumstances where particular site or environmental conditions apply, should a permission issue with conditions limiting their life'*.

Having regard to the above, and the existing site context, it is considered that in the event of a grant of permission, a condition should not be attached limiting the life of any planning permission.

### ***Green Infrastructure and Landscaping***

The subject site is located within a Riparian Corridor and along a Secondary Green Infrastructure Link as identified on Figures 4.3 and 4.4 of the CDP. Given the nature and scale of the proposal it is considered to be in accordance with Policy Objectives GI1 Objective 4, GI14 Objective 1, GI12 Objective 4 and Section 12.4.2 of the CDP 2022-2028, subject to conditions.

# Comhairle Chontae Atha Cliath Theas

PR/0425/23

## Record of Executive Business and Chief Executive's Order

### *Infrastructure and Environmental Services*

Water Services have reviewed the proposed development and have no objection subject to conditions. This includes a condition to provide additional SuDS (Sustainable Drainage Systems) as part of the proposed development to deal with surface water discharge from the site. Given the nature and scale of the development, this condition is not considered necessary.

### *Environmental Impact Assessment*

Having regard to the modest nature of the proposed development, and the distance of the site from nearby sensitive receptors, there is no likelihood of significant effects on the environment arising from the proposed development. The need for environmental impact assessment can, therefore, be excluded at preliminary examination and a screening determination is not required.

### *Screening for Appropriate Assessment*

The applicant has not submitted any information in relation to screening for Appropriate Assessment. The subject site is not located within nor within close proximity to a European site. The development involves the retention of telecommunications infrastructure.

Having regard to:

- the small scale and nature of the development,
- the location of the development in a serviced area, and
- the consequent absence of a pathway to the European site,

it is considered that the proposed development would not be likely to have a significant effect individually, or in-combination with other plans and projects, on the Natura 2000 network and appropriate assessment is not therefore required.

### Conclusion

Having regard to the provisions of South Dublin County Development Plan 2022-2028 it is considered that the Planning Authority requires **Additional Information** to facilitate a complete assessment of the proposed development.

### Recommendation

Request Additional Information.

### Additional Information

Additional Information was requested on the 12<sup>th</sup> of December 2022.

Additional Information was received on the 30<sup>th</sup> of March 2023 (not deemed significant).

# Comhairle Chontae Atha Cliath Theas

**PR/0425/23**

## **Record of Executive Business and Chief Executive's Order**

### **Assessment**

#### ***Item 1 Requested***

*The applicant is requested to submit a map showing the location of all existing telecommunications structures within a 2km radius of the proposed site, stating reasons why (if not proposed) it is not feasible to share existing facilities having regard to the Code of Practice on Sharing of Radio Sites issued by the Commission for Communications Regulation. This is required to be demonstrated in accordance with Section 12.11.2 of the South Dublin County Development Plan 2022-2028.*

#### Applicant's Response:

The applicant has submitted a cover letter and maps showing the location of existing telecommunications structures with a 2km radius of the proposed development. The cover letter states that Three Ireland infrastructure is already located on all 19 no. existing telecommunications structures within 2km of the site.

#### Assessment:

It is considered that this item has been satisfactorily addressed.

### **Development Contributions**

Retention of an existing telecommunications structure.

Assessable area = Nil

### **SEA monitoring**

Building Use Type Proposed: Retention of an existing telecommunications structure.

Floor Area: 0sq.m

Land Type: Brownfield/Urban Consolidation.

Site Area: 0.0029 Hectares.

### **Conclusion**

Having regard to the provisions of the South Dublin County Development Plan 2022-2028, the established character of the area, and the nature and scale of the proposed development, it is considered that, subject to compliance with the conditions set out below, the proposed development would be in compliance with Council policy, would not seriously injure the amenities of the area or of property in the vicinity and would, therefore, be in accordance with the proper planning and sustainable development of the area.

# Comhairle Chontae Atha Cliath Theas

**PR/0425/23**

## **Record of Executive Business and Chief Executive's Order**

### **Recommendation**

I recommend that a decision be made pursuant to the Planning & Development Act 2000, as amended, for the reasons set out in the First Schedule hereto, to Grant Permission for Retention for the said development in accordance with the said plans and particulars, subject to the condition(s) specified in the Second Schedule hereto, the reasons for the imposition of the said condition(s) being as set out in the said Second Schedule.

### **FIRST SCHEDULE**

It is considered that the proposed development accords with the policies and objectives of South Dublin County Council, as set out in the South Dublin County Council Development Plan 2022 - 2028 and subject to the conditions set out hereunder in the Second Schedule is hereby in accordance with the proper planning and sustainable development of the area.

### **SECOND SCHEDULE**

#### **Conditions and Reasons**

1. Development to be in accordance with submitted plans and details.  
The development shall be retained and completed fully in accordance with plans, particulars and specifications lodged with the application, save as may be required by other conditions attached hereto.  
REASON: To ensure that the development is in accordance with the permission and that effective control is maintained.
2. Co-location  
The developer shall allow, subject to reasonable terms, other licensed mobile telecommunications operators to co-locate their antennae onto the telecommunications structure hereby approved.  
REASON: In order to avoid the proliferation of telecommunications structures in the interest of visual amenity.
3. Future Alterations  
The power output, antennae type and mounting configuration shall be in accordance with the details submitted with this application and shall not be altered without a prior grant of planning permission.  
REASON: To clarify the nature of the development to which this permission relates and to facilitate a full assessment of any future alterations to the network.
4. Obsolescence  
In the event of obsolescence when the structure is no longer required, the structure and its associated structures shall be demolished, removed and the site re-instated at the operators' expense.  
REASON: To ensure safe removal of obsolete fixtures.

# **Comhairle Chontae Atha Cliath Theas**

**PR/0425/23**

## **Record of Executive Business and Chief Executive's Order**

NOTE: The applicant is advised that under the provisions of Section 34 (13) of the Planning and Development Act 2000 (as amended) a person shall not be entitled solely by reason of a permission to carry out any development.

NOTE: The requirements of the HSE Environmental Health Officer shall be ascertained prior to the commencement of development in the interest of public health.

NOTE: The applicant or developer should ensure that all necessary measures shall be taken by the contractor to prevent the spillage or deposit of clay, rubble or other debris on adjoining roads during the course of the works and to ensure that any such instances arising are remedied immediately.
