Hi Barry,  
Thank you for the additional information I requested during our call last week. I am satisfied that the revisions to the previously approved drawing are acceptable and in line with our spec.  
The lantern proposed is acceptable and ESBN applications will proceed on that basis.  
I don't think a further meeting is required.  
Regards,  
Gráinne

Hi Grainne,

Please see attached as discussed over the phone, if you need any other info on the light fitting let me know. If you feel the call isn't necessary anymore let me know and I will cancel it, thanks.

Hi Grainne,

In regards to the below item and the previously discussed partial compliance items for Block G, we would like to set up a call on Teams to go through these items and any other outstanding items there may be regarding the public lighting for Block G. Are you available next Wednesday afternoon for a Teams call to go through this? Please let me know and I will forward on a calendar invite today, thanks.

Hi Grainne,

Just an update on Adamstown Block G. Unfortunately the light fittings we have previously specified are not in production anymore. The lighting company have provided an alternative fitting that is accepted by SDCC.

I have attached the calculations and report completed by the lighting supplier for your review. Once you have had a review could you let me know if you have any comments or if this design is approved and we can go ahead with it, thank you.
