## PR/0919/23

### Record of Executive Business and Chief Executive's Order

**Reg. Reference:** SD22A/0461 **Application Date:** 16-Dec-2022

**Submission Type:** Clarification of **Registration Date:** 10-Jul-2023

Additional Information

**Correspondence Name and Address:** Oppermann Associates Unit D1, The Steel Works,

Foley Street, Dublin 1

**Proposed Development:** A new two storey extension linked to the existing

primary school consisting of a new 2 Classbase Special Educational Needs facility with ancillary accommodation on ground floor and additional teaching rooms to first floor. (total area 842sq.m); Associated ancillary siteworks to include revised carparking layout (total no. 31), the demolition of existing external & bin store with new external & bin store to be located near main entrance gate (total area 25.5sq.m), existing bicycle shelter to be relocated next to new external store with provision for additional bicycle spaces to be included and any accompanying landscaping works; The provision of 12sq.m of photovoltaic panels to extension roof.

**Location:** Esker Educate Together National School, Lucan, Co

Dublin

**Applicant Name:** The Minister for Education & Skills

**Application Type:** Permission

(SW)

### **Description of Site and Surroundings**

Site Area: stated as 0.2355 Hectares on the application form.

#### **Site Description**

The subject site is an existing school located off Esker Lane, Lucan. It is situated adjacent to two existing schools to the east and west (Gaelscoil Naomh Padraig and Colaiste Cois Life). Residential development lies to the west. There are also some residential properties to the north, along Esker Lane.

The existing school building is white with yellow and blue panels.

## PR/0919/23

### Record of Executive Business and Chief Executive's Order

### **Proposal**

Permission is sought for the following works:

- A <u>new two storey extension</u> linked to the existing primary school consisting of a new 2 Classbase Special Educational Needs facility with ancillary accommodation on ground floor and additional teaching rooms to first floor. (total area 842sq.m);
- Associated ancillary siteworks to include revised carparking layout (total no. 31),
- The demolition of existing external & bin store with new external & bin store to be located near main entrance gate (total area 25.5sq.m),
- Existing bicycle shelter to be relocated next to new external store with provision for additional bicycle spaces to be included and any accompanying landscaping works;
- The provision of 12sq.m of photovoltaic panels to extension roof.

## **Zoning**

The subject site is zoned Zoning Objective 'RES': *To protect and/or improve residential amenity*' under the 2022-2028 CDP.

CDP Maps: Outer horizontal surface (Dublin), Bird hazards, Conical surface (Weston), Conical Surface (Casement)

### **Consultations**

Roads: additional information requested.

Water Services: additional information requested. Irish Water: no objections, subject to conditions.

Parks: No comments.

TII: no report received at time or writing. NTA: no report received at time or writing. EHO: no objections, subject to conditions.

SEA Sensitivity Screening – no overlap

# **Submissions/Observations/Representations**

No third party submissions received.

#### **Relevant Planning History**

SD14A/0010 Single storey addition to the approved main school building which consists of 6 no. resource rooms, storeroom, disabled access WC and ancillary works. **Grant Permission** (SDCC)

## PR/0919/23

### Record of Executive Business and Chief Executive's Order

SD11A/0266 Demolition of the existing two storey house and associated siteworks. The site works shall include the removal of all drainage, pathways, foundations and debris from site. **Grant Permission (SDCC)** 

SD11A/0181 New two storey, sixteen classroom primary school consisting of 16 classrooms; ancillary accommodation and associated siteworks. The site works shall include two entrances from Esker Lane; gate controlled entrance from Castle Avenue; vehicular setdown/pick-up areas; staff parking; hard play areas and new boundary treatment all at Esker Lane Depot site. **Grant Permission (SDCC and ABP)** 

SD11A/0180 One classroom naoinra with parking and hard surface play area. The site works shall include one entrance from Esker Lane, one gate controlled entrance from Castle Road, vehicular setdown/pick-up areas, staff parking, hard play area and new boundary treatment all at Esker Lane 'Depot' site. **Grant Outline Permission (SDCC)** 

### **Relevant Enforcement History**

None identified in APAS.

### **Pre-Planning Consultation**

PP088/21

### Relevant Policy in South Dublin County Council Development Plan 2022-2028

Policy GI1: Overarching Policy GI2: Biodiversity

Policy GI3: Sustainable Water Management Policy GI4: Sustainable Drainage Systems

Policy GI5: Climate Resilience

Policy QDP7: High Quality Design – Development General

Policy QDP7: High Quality Design - Street Frontage

Policy SM2: Walking and Cycling

#### SM2 Objective 7:

To promote walking and cycling for school trips by implementing the following measures:

- Identifying school sites that are as close as possible to the communities they serve;
- Ensuring that multiple access points are provided to school sites for pedestrians and cyclists;
- Ensuring that adequate and secure bicycle storage is provided within schools;
- Promoting initiatives such as the Green Schools and Schools Streets projects;

## PR/0919/23

## Record of Executive Business and Chief Executive's Order

- Prioritising school routes for permeability projects and provision and enhancement of pedestrian and cycle ways;
- Supporting the use of a range of physical measures to provide improved safety for pedestrians and cyclists at and close to schools.

Policy SM7: Car Parking and EV Charging

Policy COS8: Primary and Post Primary Schools

#### COS8 Objective 4:

To support and facilitate the extension of existing school facilities, based on identified needs, subject to appropriate safeguards in relation to safe travel to school, traffic management and the amenities of the area.

#### COS8 Objective 6:

To ensure new schools are designed and located to promote walking and cycling and access to public transport, by implementing the following measures:

- Ensuring school sites are in locations that are central and accessible to the communities they serve;
- Providing infrastructure including safe cycle ways and footpaths;
- Requiring a mobility management plan for all new schools that prioritises active travel modes and public transport;
- Incorporating measures to promote walking and cycling at design stage including permeability and connectivity with the surrounding area through provision of adequate access points for pedestrians and cyclists;
- Ensuring the provision of adequate secure bicycle storage;
- Working with existing and new schools to increase the proportion of students walking and cycling through the promotion of initiatives such as the 'Green Schools' and 'School Streets' projects. (Refer to Chapter 7: Sustainable Movement);
- Introducing measures that would support increased bus services to enable more students to travel to school through public transport.

#### COS8 Objective 9:

To support the provision of adequate indoor and outdoor school sports facilities for all new and existing schools in the County, based on identified need and in line with the population of the school.

Policy IE2: Water Supply and Wastewater Policy IE3: Surface Water and Groundwater

Policy IE4: Flood Risk

## PR/0919/23

## Record of Executive Business and Chief Executive's Order

### Policy IE7: Waste Management

- 12.3.1 Appropriate Assessment
- 12.3.3 Environmental Impact Assessment
- 12.4.2 Green Infrastructure and Development Management
- 12.5.1 Universal Design
- 12.5.2 Design Considerations and Statements
- 12.5.3 Density and Building Heights
- 12.5.4 Public Realm: (At the Site Level)
- 12.7.1 Bicycle Parking / Storage Standards
- 12.7.4 Car Parking Standards

#### 12.8.5 Education Facilities

Planning Applications for schools will be expected to demonstrate how the following issues are addressed:

- Location, Siting and Design location should be accessible to public transport, walking and cycling; siting and design should maximise solar gain, work with site constraints and add visual interest and sense of place to the area;
- Site Access multiple site access points for pedestrians and cyclists should be provided to maximise permeability and connectivity with the surrounding area;
- Universal Design insofar as is feasible, this approach should be used in order to cater for diverse needs;
- Impact on Residential Amenity noise, traffic, parking, overlooking, sunlight and daylight, and other relevant matters should be addressed;
- Mobility Management mobility management plans will be required which prioritise walking, cycling and public transport above private car trips; traffic, parking and drop-off management should also be addressed;
- Cycling adequate and secure bicycle storage will be a requirement;
- Landscape Proposals these should include linking in with existing green infrastructure and proposals for native tree species and pollinator planting;
- Sustainable Urban Drainage (SuDS) measures include permeable paving, water butts, green roofs and walls, swales.
- 12.11.1 Water Management
- 12.11.3 Waste Management
- 12.11.4 Environmental Hazard Management

## PR/0919/23

## Record of Executive Business and Chief Executive's Order

### **Relevant Government Guidelines**

Project Ireland 2040 National Planning Framework, Government of Ireland, (2018).

Regional Spatial & Economic Strategy 2019 - 2031, Eastern & Midlands Regional Assembly, (2019).

Provision of Schools and the Planning System, A Code of Practice for Planning Authorities Department of Education and Science (2008).

General Design Guidelines for Schools (Primary & Post-primary), Department of Education and Science (2007).

Smarter Travel – A Sustainable Transport Future. A New Transport Policy for Ireland 2009 – 2020, Department of Transport, (2009).

National Cycle Manual, National Transport Authority (June 2011).

Appropriate Assessment of Plans and Projects in Ireland – Guidance for Planning Authorities, Department of the Environment, Heritage and Local Government, (2009).

*OPR Practice Note PN01 Appropriate Assessment Screening for Development Management (March 2021).* 

#### **Assessment**

The main issues for assessment relate to:

- Zoning and Council Policy;
- Visual Amenity;
- Residential Amenity;
- Access and Parking;
- Green Infrastructure and Landscaping;
- Infrastructure and Environmental Services:
- Environmental Impact Assessment; and
- Appropriate Assessment.

#### **Zoning and Council Policy**

The subject site is zoned Zoning Objective 'RES': *To protect and/or improve residential amenity*' under the 2022-2028 CDP. 'Education' is Open for Consideration under this zoning. The site consists of an existing education use. The proposed development is to construct an extension to the existing school. The proposed development is acceptable in principle.

## PR/0919/23

### Record of Executive Business and Chief Executive's Order

#### Visual Amenity

The existing school building is generally two storey and there are some single storey elements.

The proposed two storey extension would be to the north of the site and visible from Esker Lane. The extension would be white with brown panels and have a similar height and roof profile to the existing school. Hit and miss fencing is proposed, this would be located to the rear and would not generally be visible. There are no other changes proposed to boundary treatment.

The relocated bike store would be located closer to the main entrance and the bin stores would be located behind this. There are no objections to this in terms of visual amenity.

The impact on visual amenity is considered to be acceptable.

It is also noted that the COS8 Objective 8 of the Development Plan seeks to promote and support schemes that facilitate the shared use of school facilities, particularly at planning stage, such as sports halls, ball courts and all-weather pitches for community use outside of school hours. It is noted that limited information in relation to this has been provided and it is recommended that in the event of a grant of planning permission, a **Condition** requiring the applicant to submit a statement detailing the measures to be taken to make the school facilities available outside of school hours.

#### Residential Amenity

The extension would result in the education development moving closer to the residential properties to the north, however, it would remain over 30m away and would not have any significant impacts in terms of daylight / overshadowing, overlooking or being overbearing. Only parking is proposed between the extension and the northern boundary. The impact on residential amenity is considered acceptable.

### Access and Parking

The Roads Department has stated:

"Proposed car park looks very congested; only 5m provided behind perpendicular parking; no turning head at the end; access/egress to mobility impaired spaces looks awkward; carpark footpath is pinched in as it approaches roundabout (no dimension); carpark widths not shown; footpath between mobility impaired spaces and proposed extension is very tight (no dimension). Car parking – need to provide a parking rate rationale based on student and staff numbers that is consistent with the CDP 2022-28

Bicycle parking – need to provide a minimum parking rate rationale based on student and staff numbers that is consistent with the CDP 2022-28

Access & Roads Layout:

## PR/0919/23

## Record of Executive Business and Chief Executive's Order

No amendments are proposed to the granted access, or the main entrance road. Permeability

There is already good pedestrian permeability throughout the subject site with the option of using 4no pedestrian gates. The only concern roads have in this regard is for pedestrians accessing the northern gate (beside roundabout) and that pupils may opt to walk across the roundabout rather than walk to the pedestrian crossing point. This needs to be addressed in the RSA (Road Safety Audit)".

### Additional information has been requested.

### Green Infrastructure and Landscaping

Parks and Public Realm Department has no comments on the proposed development.

The site is on the edge of Strategic Corridor 4. It is considered that the requirement for a landscape plan is met through the layout plan. Additional information has been requested regarding SuDS.

### Infrastructure and Environmental Services

Water Services has requested additional information.

Irish Water has no objections, subject to conditions.

The EHO has raised no objections, subject to conditions.

#### Environmental Impact Assessment

Having regard to the modest nature of the proposed development, and the distance of the site from nearby sensitive receptors, there is no likelihood of significant effects on the environment arising from the proposed development. The need for environmental impact assessment can, therefore, be excluded at preliminary examination and a screening determination is not required.

## PR/0919/23

### Record of Executive Business and Chief Executive's Order

#### Screening for Appropriate Assessment

The subject site is not located within nor within close proximity to a European site. The development involves the construction of a school extension.

Having regard to:

- the nature of the development,
- the location of the development in a serviced area, and
- the consequent absence of a pathway to the European site,

it is considered that the proposed development would not be likely to have a significant effect individually, or in-combination with other plans and projects, on the Natura 2000 network and appropriate assessment is not therefore required.

### **Conclusion**

The proposed development is considered to be acceptable in principle. **Additional information** should be requested in relation to roads matters and SuDS.

## **Recommendation**

Request additional information.

Additional information requested: 20 February 2023

Additional information received: 2 June 2023

#### Consultations:

Water Services: no objections, subject to conditions. Irish Water: no objections, subject to conditions. Roads: request clarification of additional information.

### **Assessment:**

#### Item 1:

a. The applicant is requested to provide a Road Safety Audit which addresses:

- the proposed car-parking arrangement
- pedestrian activity after entering through the northern pedestrian gate
- narrow footpath widths around proposed extension.

b. The applicant is requested to provide a revised layout which shows:

- minimum of 6m spacing behind all perpendicular parking
- a turning head/means for turning for cars that cannot find parking
- clear dimensions for all footpath widths, carpark space widths and all other relevant dims

## PR/0919/23

### Record of Executive Business and Chief Executive's Order

- footpaths of min width 1.8m
- min 5% of carparking to be provided for mobility impaired
- min 10% of carparking to be provided for EV charging
- 100% of carpark spaces to be ducted for the future provision of EV charging
- c. The applicant is requested to provide an AutoTRAK analysis showing how:
- cars using spaces 1, 20, 21, 27, and "Mobility Impaired" spaces can be safely accessed and egressed
- how two vehicles will pass each other at carpark pinch-point near roundabout
- emergency & refuse vehicles will access the site
- d. The applicant is requested to provide staff and student numbers, and a subsequently:
- car parking rationale consistent with the CDP 2022-28, table 12.25
- bicycle parking rationale to CDP 2022-28, table 12.23

#### Applicant's response:

- a. road safety report provided
- b. see revised site plan
- c. see autotrack
- d. currently have 31 car park spaces. Have 70 cycle spaces and providing an additional 30

#### Assessment:

## The Roads Department report states:

- a. "The RSA provided does not concentrate on the items that were emphasised by the Roads AI request.
  - 1. Roads request that the traffic movements within the carparking area are carefully considered and assessed as a core issue of a <u>revised</u> RSA.
  - 2. Roads have concerns for pedestrians accessing the school grounds through the northern gate (beside roundabout) and that <u>pupils may opt to walk across the roundabout</u> rather than walk to the pedestrian crossing point. This needs to be addressed in the RSA (Road Safety Audit) and possible measures proposed.
  - 3. Applicant has addressed this item with 1.8m footpaths proposed". Clarification of additional information is requested.
- b. "MID spaces should be located as per original drawing on the condition that the parking rationale is in line with the CDP 2022-28". Clarification of additional information is requested.

## PR/0919/23

## Record of Executive Business and Chief Executive's Order

- c. Roads are satisfied with the submission.
- d. "The carparking provision is existing, and though it exceeds the maximum parking rate under CDP 2022-28, Roads are satisfied with the proposal.

Bicycle proposal is satisfactory. Applicant to provide a revised drawing showing where the additional bicycle parking spaces will be located (and confirmation that they will be covered)". Clarification of additional information is requested.

#### Item 2:

- a. The applicant is requested to submit a report showing surface water attenuation calculations for the existing and proposed development. The applicant is requested to show in m2 the surface water types, such as , green roofs, roads, permeable paving and green areas. Show how much attenuation is required and how much is provided in m3. Examine if concrete footpaths can be changed to permeable paving.
- b. The applicant is requested to submit in a report and drawing showing how much surface water attenuation is provided in m3
- c. The applicant is requested to submit a drawing to show what SuDS (Sustainable urban Drainage Systems) features for the proposed development such as but not limited to the following:
- Green roofs
- Raingarden /planters with overflow connection to a public surface water sewer
- Swales and rill channels
- Grasscrete
- The applicant should refer to SDCC SuDS guidance.
- d. The applicant is requested to contact Water Services in SDCC prior to submission of revised drawings and documents.

#### Applicant's response:

- a. surface water attenuation report provided.
- b. surface water attenuation report provided.
- c. see raingarden calculations and surface water attenuation report.
- d. Brian Harkin contacted.

#### Assessment:

Water Services has raised no objections, subject to conditions.

#### **Conclusion**

The proposed development is considered to be acceptable in principle. **Clarification of additional information** should be requested in relation to roads matters.

## PR/0919/23

## Record of Executive Business and Chief Executive's Order

### **Recommendation**

Request clarification of additional information.

Clarification of additional information requested: 29 June 2023 Clarification of additional information received: 10 July 2023

Consultations:

Roads: No objections, subject to conditions.

#### **Assessment:**

#### Item 1:

- 1. Roads request that the traffic movements within the carparking area are carefully considered and assessed as a core issue, and that a revised RSA is submitted
- 2. Roads have concerns for pedestrians accessing the school grounds through the northern gate (beside roundabout) and that pupils may opt to walk across the roundabout rather than walk to the pedestrian crossing point. This needs to be addressed in the RSA (Road Safety Audit) and possible measures proposed.
- 3. MID (mobility impaired driver) spaces should be located as per original drawing (on the condition that the parking rationale is in line with the CDP 2022-28).
- 4. Applicant to provide a revised drawing showing where the additional 30no. bicycle parking spaces will be located (and confirmation that they will be covered).

#### Applicant's response:

- 1. Revised RSA provided. Traffic movements within the car parking area have been carefully considered.
- 2. The RSA has not noted any issues with the internal traffic movements. Pedestrian crossing to the north has been assessed in the updated RSA.
- 3. It was necessary to revise the car parking layout to optimise the full extent of the car park. We believe that the MID spaces are best placed beside the set down as they are closer to each entrance of the main school and SEN extension.
- 4. 30no. new covered bike stands indicated. Bike stand detail drawings provided.

## PR/0919/23

### Record of Executive Business and Chief Executive's Order

#### Assessment:

The Roads Department report states:

- "1. The Roads section are satisfied with the response.
- 2. The Roads section are satisfied with the response.
- 3. The applicant has not located the proposed mobility impaired driver spaces as per the original drawing.
- 4. The Roads section are satisfied with the response".

In relation to point 3, the Roads Department has suggested a condition in the event of grant.

#### **Other Considerations**

## **Development Contributions**

967.5sq.m school extension, classified as 'Education'.

### **SEA Monitoring**

- **Building Use Type Proposed** school extension
- *Floor Area (sqm)* 967.5sq.m floorspace
- Land Type- SDZ/ Greenfield
- Site Area- Stated as 1.252 ha.

#### Conclusion

Having regard to the:

- provisions of the South Dublin County Development Plan 2022-2028
- the established character of the area, and
- the nature and scale of the proposed development,

it is considered that the proposed development for retention would be in compliance with Council policy in relation to extensions to dwelling houses, would not seriously injure the amenities of the area or of property in the vicinity and would, therefore, be in accordance with the proper planning and sustainable development of the area.

### Recommendation

I recommend that a decision be made pursuant to the Planning & Development Act 2000, as amended, for the reasons set out in the First Schedule hereto, to Grant Permission for the said development in accordance with the said plans and particulars, subject to the condition(s) specified in the Second Schedule hereto, the reasons for the imposition of the said condition(s) being as set out in the said Second Schedule.

## PR/0919/23

### Record of Executive Business and Chief Executive's Order

### FIRST SCHEDULE

It is considered that the proposed development accords with the policies and objectives of South Dublin County Council, as set out in the South Dublin County Council Development Plan 2022 - 2028 and subject to the conditions set out hereunder in the Second Schedule is hereby in accordance with the proper planning and sustainable development of the area.

#### SECOND SCHEDULE

#### **Conditions and Reasons**

1. Development to be in accordance with submitted plans and details. The development shall be carried out and completed in its entirety in accordance with the plans, particulars and specifications lodged with the application, and as amended by Further Information received on 2 June 2023 and Clarification of Further Information received on 10 July 2023, save as may be required by the other conditions attached hereto. REASON: To ensure that the development shall be in accordance with the permission, and that effective control be maintained.

#### 2. Amendments.

Prior to the commencement of development the applicant, owner or developer shall submit the following for the written agreement of the Planning Authority:

Revised plans that incorporate all of the following amendments-

(a) Mobility impaired driver spaces shall be located as per drawing no 20782-OPP-00-00-DR-A-9203-PL-P01, dated 15.12.2022 and received by the Planning Authority on 16.12.2022

REASON: To protect the amenities of the area and in the interests of the proper planning and sustainable development of the area.

#### 3. Use of School.

Prior to the commencement of the development, the applicant shall submit a statement detailing the measures to be taken to make the school facilities available outside of school hours.

REASON: to ensure compliance with COS8 objective 8 of the CDP 2022-2028.

## 4. Irish Water Connection Agreement.

Prior to the commencement of development the applicant or developer shall enter into water and/or wastewater connection agreement(s) with Irish Water.

REASON: In the interest of public health and to ensure adequate water/wastewater facilities.

### 5. Drainage.

(a) Prior to the commencement of development, the applicant shall submit a drawing in plan and cross- sectional view showing proposed rain garden north of site, and adjacent areas to same. Show the flow route of surface water flow towards proposed rain garden.

## PR/0919/23

### Record of Executive Business and Chief Executive's Order

- (b) There shall be complete separation of the foul and surface water drainage systems, both in respect of installation and use.
- (c) All works for this development shall comply with the requirements of the Greater Dublin Regional Code of Practice for Drainage Works.

REASON: In the interests of public health, the proper planning and sustainable development of the area and in order to ensure adequate water supply and drainage provision.

#### 6. Environmental Health.

- 1. No heavy / noisy construction equipment or machinery (to include pneumatic drills, construction vehicles, generators, etc) shall be operated on or adjacent to the construction site before 07:00 hours on weekdays and 09:00 hours on Saturdays nor after 19:00 hours on weekdays and 13:00 hours on Saturdays, nor at any time on Sundays, Bank Holidays or Public Holidays.
- 2. Noise levels arising from construction activities shall not be so loud, so continuous, so repeated, of such duration or pitch or occurring at such times as to give rise to a noise nuisance affecting a person in any premises in the neighbourhood.
- 3. During the construction / demolition phase of the development, Best Practicable Means shall be employed to minimise air blown dust being emitted from the site. This shall include covering skips and slack-heaps, netting of scaffolding, daily washing down of pavements or other public areas, and any other precautions necessary to prevent dust nuisances.
- 4. A suitable location for the storage of refuse shall be provided during the construction and operational phase of the development so as to prevent a public health nuisance.
- 5. Noise due to the normal operation of the proposed development, expressed as Laeq over 15 minutes at the façade of a noise sensitive location, shall not exceed the daytime background level by more than 10 dB(A).
- 6. Any connections to the main sewer must be connected so as not to give rise to a public health nuisance.
- 7. Clearly audible or impulsive tones at noise sensitive locations during evening and night shall be avoided irrespective of the noise level.
- 8. The applicant shall put in place a pest control contract for the site for the duration of the construction works.
- 9. Signage or lighting to be used on site during both construction and the on-going operation of the development must not be intrusive to any light sensitive location including residential properties in close proximity to the development.

REASON: In the interests of protecting the amenities of the area.

#### 7. Roads.

- 1. Any gates shall open inwards and not outwards over the public domain.
- 2. Prior to commencement of development, the applicant shall submit a developed Construction Traffic Management Plan for the written agreement of the Planning Authority.

## PR/0919/23

### Record of Executive Business and Chief Executive's Order

- 3. Prior to the commencement of development, the applicant shall submit a Public Lighting Design for the development must be submitted and agreed by the Public Lighting team of SDCC.
- 4. Any road sign proposed and or to be installed shall comply with most up to date Chapter 5 (REGULATORY SIGNS) of the Traffic Signs Manual.
- 5. The proposed development shall make provision for the charging of electric vehicles. 100% of surface car parking spaces must be provided with electrical ducting and termination points to allow for the provision of future charging points, and 20% of surface car parking spaces must be provided with electric vehicle charging points initially. Details of how it is proposed to comply with these requirements including details of the design of, and signage for, the electric charging points (where they are not in areas to be taken in charge) shall be submitted to, and agreed in writing with, the planning authority prior to commencement of development.

REASON: In the interest of sustainable transport.

#### 8. Services to be Underground.

All public services to the proposed development, including electrical, information and communications technology (ICT) telephone and street lighting cables and equipment shall be located underground throughout the entire site. There shall also be provision for broadband throughout the site in accordance with the Planning Authority's policy and requirements.

REASON: In the interests of the visual amenities of the area, the proper planning and sustainable development of the area and compliance with the Council's Development Plan.

NOTE: The applicant is advised that under the provisions of Section 34 (13) of the Planning and Development Act 2000 (as amended) a person shall not be entitled solely by reason of a permission to carry out any development.

# PR/0919/23

## Record of Executive Business and Chief Executive's Order
