

Appendix of Photos

Further Information Register reference: SD22B/0440

Both the shed and rear dwelling(184A) built at the rear of 184 are clearly visible from Whitehall Road

The dwelling built in the rear of 182 is visible as is the extension directly joining the cottage at 180

176 Whitehall Road has a single storey extension that abuts the cottage directly and in no way compliments or enhances the architectural features of the cottage, it is also visible from the street.

*The extension to 184 is also visible from street level,
Note this view will completely hide the visibility of the proposed extension at 186*

*Extension at 180 is visible above ridge height and beyond the established building line of the cottage.
All of which is visible from street level. (see images above and below)*

168 Whitehall Road has a single storey extension visible at street level

Existing boundary treatments at 186 Whitehall Road

The only point at which the proposed extension would be visible from Whitehall Road.

Also note that 184A is visible, the proposed ridge height of the extension is 5.9m, the ridge height of 184A is in excess of 6.3m

On approach the proposed extension at 186 will not be visible from street level.
