The existing dwelling will have permeable paving in the rear garden and a new water butt. See enclosed brochure. We propose to make a new connect to existing surface water drain.

The proposed development would, therefore, be in accordance with the proper planning and sustainable development of the area.

## Conditions

1. The development shall be carried out and completed in accordance with the plans and particulars lodged with the application, as amended by the further plans and particulars received by the planning authority on the 27<sup>th</sup> day of September, 2022, except as may otherwise be required in order to comply with the following conditions. **Reason:** In the interest of residential amenity.
