Thomas,

I have added this submission to the file. However, as you have indicated that GIL's engineering team noted that the report does not fully meet SDCC's requirements and that GIL have informed their contractor of its deficiencies and instructed them to address the issues and submit a revised report, I have not logged it as a formal compliance submission. Once GIL have received a revised report and submit that revised report to SDCC, confirming its status as a compliance submission, we will log as a formal submission.

Regards,  
Fiona
