Compliance Submission for Condition No. 5

In compliance with Condition No. 5 of the grant of permission received, Appendix A at the end of this compliance letter provides for a full list of enclosures submitted as part of the subject compliance submission - please refer to the submitted drawings for full details - however, for convenience, the following sub-subsections refer the reader to the relevant drawings for each part of the condition of the grant of permission received.

It should be noted that the council has agreed with the name “**Keepers Lock**”, under Ref. SDZ22A/80010 compliance agreement dated 3rd October 2023 (See enclosed letter). It is fully considered that the permitted “Keepers Lock” name complies with **NCBH17 Objective 4** of the existing South Dublin County Development Plan 2022-2028 which seeks “to promote local heritage by supporting names for new residential developments that reflect the local and historical context of their siting and include the Irish Language”. Inspired by the site’s proximity to the historic Grand Canal, the name has been chosen in terms of its historical and locational context. The proximity to the ninth lock on the Grand Canal creates a charming name with a sense of place. The Grand Canal is an important part of life in Dublin. Built as an important trade route, used until as recently as 1960, it also provides a wonderful natural amenity.

The Grand Canal was an important part of Dublin’s development. It was once part of a vital distribution network for trade, acting as an important trade route into and out of Dublin. Barges provided transport for raw materials and products. The Grand Canal has developed from an important trade route to a relaxing haven and connects the capital city westwards with the River Shannon. Nowadays, the pleasant towpaths of the 117km Grand Canal Way allow walkers to enjoy this waterway. Punctuated by the locks that characterise the technology of its golden years, the canal shows a time when the waterway affected all life surrounding its banks.

We include the approved naming for the overall permitted development where “Keepers Lock Plaza” is in favour of the planning department.

Following this suggestion, we refer the Planning Authority to the enclosed Drawing No. 2004 -Phase K2A “Street Naming and Dwelling Numbering –Apt. Block A” prepared by Davey + Smith Architects which demonstrates the approved in principle “Keepers Lock” located to the north of “Keepers Lock Avenue” has remained the same and numbered accordingly.

Furthermore, this updated submission provides name and associated numbering for the permitted “Apartment Block A” located northwest of “Keepers Lock Avenue”, in compliance with condition no. 5 of the grant of permission received. This includes:

1. Keepers Lock Plaza, Clonburris, Dublin 22

The applicant intends to construct Phase 3 “Phase K2A” of the development soon, which consists of c. 38 no. apartment units in the western part of the development site – please refer to the enclosed drawing no. No. 2004 -Phase K2A “Street Naming and Dwelling Numbering –Apt. Block A” which identifies the proposed the proposed naming and numbering layout.

It should be noted that there are other conditions attached to the subject permission that require submission of details confirming the permitted number of dwellings (i.e., Condition No. 2). Once details are agreed regarding condition no. 2, a further naming and numbering proposal will be submitted to the Planning Authority for agreement.

The permitted apartment block is proposed to be named / numbered e.g.:

- **No. 4 Keepers Lock Plaza, Clonburris, Dublin 22.**

Please find enclosed the official Irish translation of the proposed naming / numbering prepared by DCU Language Services.

For clarity we confirm that, once agreed, all units will be provided in accordance with the agreed scheme, as per condition no. 5 of the grant of permission.
- 3.2. We respectfully request that the Planning Authority assess the submitted naming and numbering for the permitted apartment block in a judicious manner so development can progress as soon as possible, and much needed housing be provided on the subject site.
